Phantom Husband:

My Phantom Husband Marie Darrieussecq, Esther Allen, 1999 A woman recounts the changes in her life and in the world around her when her husband disappears one night after leaving home to buy bread The Phantom's Opera Sadie Montgomery, 2007-10-22 Known only as Erik Costanzi to the patrons of the Teatro dell Opera and immersed in the world of music the Phantom of the Opera believes his demons have been laid to rest When a fire breaks out in the Teatro Erik is thought to have died in the blaze But he wakes without memory and without an identity in the arms of his former lover Lucianna Fiortino Given a chance to keep Erik to herself Lucianna invents a fairy tale past for him She has him take the name of her dead husband not realizing that she thus condemns him to live a fiction that spirals further and further out of control Has Erik lost everything including himself Yet Meg cannot accept that her husband has died She knows that the stranger who watches in the wings and sends her roses must be Erik But someone else watches over both Erik and Meg waiting for another chance at revenge Only the Phantom can save them Book III in the Phoenix of the Opera series The Phantom's Opera continues the story begun in The Phoenix of the Opera and Out of the Darkness The Phantom's Journey **The Persistence of the Human** Matthew Escobar, 2016-09-07 Recent narrative fiction and film increasingly exploit explore and thematize the embodied mind revealing the tenacity of a certain brand of humanism The presence of narratively based concepts of personal identity even in texts which explore posthuman possibilities is strong proof that our basic understanding of what it means to be human has despite appearances remained mostly unchanged This is so even though our perception of time has been greatly modified by the same technology which both interrupts and allows for the rearrangement of our experience of time at a rate and a level of ease which until recently had never been possible Basing his views on a long line of philosophers and literary theorists such as Paul Ricoeur Daniel Dennett and Francisco Varela Escobar maintains in The Persistence of the Human that narrative plays an essential role in the process of constituting and maintaining a sense of self It is narrative's effect on the embodied mind which gives it such force Narrative projects us into possible spaces shaping a temporary corporeality termed the meta body a hybrid shared by the lived body and an imagined corporeal sense The meta body is a secondary embodiment that we inhabit for however long our narrative immersion lasts something which in today's world may be a question of milliseconds or hours The more agreeable the meta body is the less happy we are upon being abruptly removed from it though the return is essential We want to be able to slip back and forth between this secondary embodiment and that of our lived body each move entails both forgetting and remembering different subject positions loss and recuperation being salient themes in the works which highlight this process The negotiation of the transfer between these states is shaped by culture and technology and this is something which is precisely in flux now as multiple ephemeral narrative immersion experiences are created by the different screens we come into contact with The Film Daily Year Book, 1928 Passing on the Right Jon A. Shields, Joshua M. Dunn Sr., 2016-02-29 Few seem to think conservatives should

become professors While the left fears an invasion of their citadel by conservatives marching to orders from the Koch brothers the right steers young conservatives away from a professorial vocation by lampooning its leftism Shields and Dunn quiet these fears by shedding light on the hidden world of conservative professors through 153 interviews Most conservative professors told them that the university is a far more tolerant place than its right wing critics imagine Many in fact first turned right in the university itself while others say they feel more at home in academia than in the Republican Party Even so being a conservative in the progressive university can be challenging Many professors admit to closeting themselves prior to tenure by passing as liberals Some openly conservative professors even say they were badly mistreated on account of their politics especially those who ventured into politicized disciplines or expressed culturally conservative views Despite real challenges the many successful professors interviewed by Shields and Dunn show that conservatives can survive and sometimes thrive in one of America's most progressive professions And this means that liberals and conservatives need to rethink the place of conservatives in academia Liberals should take the high road by becoming more principled advocates of diversity especially since conservative professors are rarely close minded or combatants in a right wing war against the university Movement conservatives meanwhile should de-escalate its polemical war against the university especially since it inadvertently helps cement progressives' troubled rule over academia *Horror and Philosophy* Subashish

Bloom, 2021-02-03 By the early 1830s the old school of Gothic literature was exhausted Late Romanticism emphasising as it did the uncertainties of personality and imagination gave it a new lease of life Gothic the literature of disturbance and uncertainty now produced works that reflected domestic fears sexual crimes drug filled hallucinations the terrible secrets of middle class marriage imperial horror at alien invasion occult demonism and the insanity of psychopaths It was from the 1830s onwards that the old gothic castle gave way to the country house drawing room the dungeon was displaced by the sewers of the city and the villains of early novels became the familiar figures of Dr Jekyll and Mr Hyde Dracula Dorian Grey

and Jack the Ripper After the death of Prince Albert 1861 the Gothic became darker more morbid obsessed with demonic lovers blood sucking ghouls blood stained murderers and deranged doctors Whilst the gothic architecture of the Houses of Parliament and the new Puginesque churches upheld a Victorian ideal of sobriety Christianity and imperial destiny Gothic literature filled these new spaces with a dread that spread like a plague to America France Germany and even Russia From 1830 to 1914 the period covered by this volume we saw the emergence of the greats of Gothic literature and the supernatural from Edgar Allan Poe to Emily Bronte from Sheridan Le Fanu to Bram Stoker and Robert Louis Stevenson Contributors also examine the fin de siècle dreamers of decadence such as Arthur Machen M P Shiel and Vernon Lee and their obsession with the occult folklore spiritualism revenants ghostly apparitions and cosmic annihilation This volume explores the period through the prism of architectural history urban studies feminism hauntology and much more Horror as Poe teaches us is the soul of the plot

Evaluation and Translation Carol Maier, 2014-04-23 The definition of value or quality with respect to work in translation has historically been a particularly vexed issue Today however the growing demand for translations in such fields as technology and business and the increased scrutiny of translators work by scholars in many disciplines is giving rise to a need for more nuanced more specialized and more explicit methods of determining value Some refer to this determination as evaluation others use the term assessment Either way the question is one of measurement and judgement which are always unavoidably subjective and frequently rest on criteria that are not overtly expressed This means that devising more complex evaluative practices involves not only quantitative techniques but also an exploration of the attitudes preferences or individual values on which criteria are established Intended as an interrogation and a critique that can serve to prompt a more thorough and open consideration of evaluative criteria this

special issue of The Translator offers examinations of diverse evaluative practices and contains both empirical and hermeneutic work Topics addressed include the evaluation of student translations using more up to date and positive methods such as those employed in corpus studies the translation of non standard language translation into the second language terminology the application of theoretical criteria to practice a social textual perspective and the reviewing of literary translations in the press In addition reviews by a number of literary translators discuss specific translations both into and out of English

Mastronarde,2010-04-01 In this book Professor Mastronarde draws on the seventeen surviving tragedies of Euripides as well as the fragmentary remains of his lost plays to explore key topics in the interpretation of the plays It investigates their relation to the Greek poetic tradition and to the social and political structures of their original setting aiming both to be attentive to the great variety of the corpus and to identify commonalities across it In examining such topics as genre structural strategies the chorus the gods rhetoric and the portrayal of women and men this study highlights the ways in which audience responses are manipulated through the use of plot structures and the multiplicity of viewpoints expressed It argues that the dramas of Euripides through their dramatic technique pose a strong challenge to simple formulations of norms to the reading of consistent human character and to the quest for certainty and closure
