Pharmacology for Athletic Trainers, 1997-05      **Pharmacology for Athletic Trainers** Janet Ware, 1998      Principles of Pharmacology for Athletic Trainers Joel Hougum, Gary Harrelson, Teresa Seefeldt, 2024-06-01

Principles of Pharmacology for Athletic Trainers Third Edition continues the tradition of past editions to provide applications of pharmacological principles specifically aimed at the athletic trainer. The drug categories that are included are primarily those that may be pertinent to the treatment of athletic injuries or that may affect athletic performance. Drs. Joel Hougum, Gary Harrelson, and Teresa Seefeldt have taken a unique aspect to the organization and design of the Third Edition to be instructional discussions regarding the use and effects of drugs and of the disease states treated by these drug categories. Additionally, there is a specific discussion of the role of the athletic trainer regarding the therapeutic use and effects of these drugs. Features of the Third Edition: Satisfies all of the CAATE Educational Competencies on pharmacology; Advanced organizers and specific learning objectives at the beginning of each chapter; Summaries after each major topic within the chapter; Case studies and clinical applications; Discussion on popular fitness supplements; Key words are in italics and defined in the glossary; Concept maps present important yet complex processes in a concise graphical way; Shaded textboxes throughout include additional information and are beneficial for the reader to recall a key concept addressed in an earlier chapter; New ancillary materials specifically for faculty that include PowerPoint slides and test bank questions for each chapter. Included with the text are online supplemental materials for faculty use in the classroom.

Principles of Pharmacology for Athletic Trainers Third Edition will continue to be the go-to resource to determine the best pharmacological treatment strategy and management by athletic trainers.

**Principles of Pharmacology for Athletic Trainers** Joel E. Hougum, 2011

Principles of Pharmacology for Athletic Trainers Second Edition has expanded the comprehensive and unique aspect of pharmacology presented in the best-selling first edition by introducing new information on drug and treatment strategies. Aspects of Type 1 and Type 2 diabetes, including treatment strategies, the disease process, diagnosis, monitoring of diabetes, and issues that are important for the athletic trainer. The foundational concepts and pharmacological treatment of schizophrenia, depression, bipolar disorder, various anxiety disorders, and attention deficit hyperactivity disorder. Discussion of herbal supplements, federal regulations, and safety quality issues related to herbal supplements. Dr. Joel Hougum and Dr. Gary Harrelson have updated Principles of Pharmacology for Athletic Trainers Second Edition to be more user-friendly by incorporating revised information on pharmacokinetic and pharmacodynamic principles, making it even easier for students to understand while still providing the depth of information desired by faculty.

Features of the Second Edition: Educational prompts are provided in each chapter in the form of an advanced chapter organizer; Shadow boxes throughout to remind students of previously discussed topics; Summaries at the end of each section to reinforce learning; A section in each chapter on the role of the athletic trainer regarding the disease process and drug therapy; New ancillary materials specifically for faculty that include PowerPoint
