Watson, 2011-10-27 Maurice Merleau-Ponty is widely known for his emphasis on embodied perceptual experience. This emphasis initially relied heavily on the positive results of Gestalt psychology in addressing issues in philosophical psychology and philosophy of mind from a phenomenological standpoint. Eventually he transformed this account in light of his investigations in linguistics, aesthetics, and the philosophy of history and institutions. Far less work has been done in addressing his evolving conception of philosophy and how this

account influenced more general philosophical issues in epistemology accounts of rationality or its status as theoretical discourse Merleau Ponty s own contributions to these issues and in particular the theoretical status of the phenomenological account that resulted have provoked varying responses On the one hand some commentators have understood his work to be a regional application of Husserl s foundational account of phenomenology On the other hand some commentators have questioned whether in the final analysis Merleau Ponty was a phenomenologist at all In *In the Shadow of Phenomenology* Stephen H Watson offers an in depth analysis of these responses and the complications and development of Merleau Ponty s position

Phenomenology, Institution and History Stephen H. Watson, 2011-11-03 Maurice Merleau Ponty is widely known for his emphasis on embodied perceptual experience This emphasis initially relied heavily on the positive results of Gestalt psychology in addressing issues in philosophical psychology and philosophy of mind from a phenomenological standpoint However far less work has been done in addressing his evolving conception of how such an account influenced more general philosophical issues in epistemology accounts of rationality or its status of theoretical discourse Developing the work he has already done in *In the Shadow of Phenomenology* to address this gap in the literature Stephen H Watson further examines the responses to Merleau Ponty s contributions to these issues This book emphasises the historical and intersubjective underpinnings of Merleau Ponty s late accounts in relation to rationality institution and community and examines its implications

No One's Ways Daniel Heller-Roazen, 2017-04-28 From Homer s *Outis* No One or Non One No Man or Non Man to soul spirit and the unnamable Homer recounts how trapped inside a monster s cave with nothing but his wits to call upon Ulysses once saved himself by twisting his name He called himself *Outis* No One or Non One No Man or Non Man The ploy was a success He blinded his barbaric host and eluded him becoming anonymous for a while even as he bore a name Philosophers never forgot the lesson that the ancient hero taught From Aristotle and his commentators in Greek Arabic Latin and more modern languages from the masters of the medieval schools to Kant and his many successors thinkers have exploited the possibilities of adding non to the names of man Aristotle is the first to write of indefinite or infinite names his example being non man Kant turns to such terms in his theory of the infinite judgment illustrated by the sentence The soul is non mortal Such statements play major roles in the philosophies of Maimon Fichte Schelling Hegel and Hermann Cohen They are profoundly reinterpreted in the twentieth century by thinkers as diverse as Carnap and Heidegger Reconstructing the adventures of a particle in philosophy Daniel Heller Roazen seeks to show how a grammatical possibility can be an incitement for thought Yet he also draws a lesson from persistent examples The philosophers infinite names all point to one subject us Non man or soul Spirit or the unconditioned we are beings who name and name ourselves bearing witness to the fact that we are in every sense unnamable

Introduction to the Philosophy of Gilles Deleuze Jean Khalfa, 2003-05-28 Gilles Deleuze has been labelled as the post x thinker post structuralist post modern post Spinozist post Nietzschean and even post utopian An *Introduction to the Philosophy of Gilles Deleuze* explores such categorizations and places Deleuze and

Deleuzian method at the heart of contemporary thought Contributors include Giorgio Agamben Mary Bryden Gilles Deleuze Jean Khalfa Claude Imbert Alain MTnil Bento Prado Juliette Simont Ronald Bogue Jonathan Philippe *The Allure of Things: Process and Object in Contemporary Philosophy* Roland Faber,Andrew Goffey,2014-05-22 The Allure of Things Process and Object in Contemporary Philosophy contests the view that metaphysics is something to be overcome By focusing on process and object oriented ontology OOO and rejecting the privileging of human existence over the existence of non human objects this collection explores philosophy s concern with things themselves Interest in Latour Stengers Whitehead Harman and Meillassoux has prompted a resurgence of ontological questions outside the traditional subject object framework of modern critical thought This new collection consequently proposes a pragmatic and pluralist approach to modes of existence Drawing together an international range of leading scholars The Allure of Things fully covers the similarities between OOO and process philosophy and is an essential addition to the literature on metaphysics *Sublime Poussin* Louis Marin,Nicolas Poussin,1999 The eminent scholar and critic Louis Marin considered the paintings and the writings of Nicolas Poussin 1594 1665 an enduring source of inspiration and he returned to Poussin again and again over the years The ten major essays in this volume constitute his definitive statement on the painter who inspired his most eloquent and probing commentary 17 illustrations *Anthropos Today* Paul Rabinow,2009-02-09 The discipline of anthropology is at its best characterized by turbulence self examination and inventiveness In recent decades new thinking and practice within the field has certainly reflected this pattern as shown for example by numerous fruitful ventures into the politics and poetics of anthropology Surprisingly little attention however has been given to the simple insight that anthropology is composed of claims whether tacit or explicit about anthropos and about logos and the myriad ways in which these two Greek nouns have been might be and should be connected Anthropos Today represents a pathbreaking effort to fill this gap Paul Rabinow brings together years of distinguished work in this magisterial volume that seeks to reinvigorate the human sciences Specifically he assembles a set of conceptual tools modern equipment to assess how intellectual work is currently conducted and how it might change Anthropos Today crystallizes Rabinow s previous ethnographic inquiries into the production of truth about life in the world of biotechnology and genome mapping and his invention of new ways of practicing this pursuit and his findings on how new practices of life labor and language have emerged and been institutionalized Here Rabinow steps back from empirical research in order to reflect on the conceptual and ethical resources available today to conduct such inquiries Drawing richly on Foucault and many other thinkers including Weber and Dewey Rabinow concludes that a contingent practice must be developed that focuses on events of problematization Brilliantly synthesizing insights from American French and German traditions he offers a lucid deeply learned original discussion of how one might best think about anthropos today
