Phenomenology And Religion Structures Of The Christian Institution:

Phenomenology and Religion Henry Duméry, 1975-01-01 *Phenomenology of Religion* Archana Barua, 2009-01-01 Out of the wide variety of themes covered by Husserl's phenomenology and later developed by Heidegger Merleau Ponty and others in different possible directions the present work attempts to indicate the few features of the method that derives from Edmund Husserl's basic themes of the phenomenological movement and its methodology Barua explores the manner in which this method has been applied to the study of art and religion by other phenomenologists and accordingly introduces the problem of this profound bulk namely the phenomenological approach to religion mostly in their terms *Vatican II and Phenomenology* J.F. Kobler, 2012-12-06 The thesis of this essay may be stated quite briefly Vatican II is a demonstration model of the phenomenological method employed on an international scale It exemplifies the final developmental stage postulated by Husserl of an inter subjective phenomenology which would take its point of departure not from individual subjectivity but from transcendental intersubjectivity Vatican II accordingly offers a unique application of a universal transcendental philosophy in the field of religious reflection for the practical purposes of moral and socio cultural renewal Phenomenology as a distinctively European development is relatively unknown in America at least in its pure form Our contact with this style of intuitive reflection is usually filtered through psychology or sociology However Edmund Husserl The Father of Phenomenology was originally trained in mathematics and he entered the field of philosophy because he recognized that the theoretical foundations of modern science were disintegrating He foresaw that unless this situation were rectified modern men would eventually slip into an attitude of absolute scepticism relativism and pragmatism After the First World War he saw this theoretical problem mirrored more and more in the social turbulence of Europe and his thoughts turned to the need for a renewal at all levels of life In 1937 when Nazism was triumphant in Germany and Europe on the brink of World War II he wrote his last major work *The Crisis of European Sciences and Transcendental Philosophy*

Phenomenology and Mysticism Anthony J. Steinbock, 2009-12-22 Exploring the first person narratives of three figures from the Christian Jewish and Islamic mystical traditions St Teresa of Avila Rabbi Dov Baer and R zbihi n Baql Anthony J Steinbock provides a complete phenomenology of mysticism based in the Abrahamic religious traditions He relates a broad range of religious experiences or verticality to philosophical problems of evidence selfhood and otherness From this philosophical description of vertical experience Steinbock develops a social and cultural critique in terms of idolatry as pride secularism and fundamentalism and suggests that contemporary understandings of human experience must come from a fuller more open view of religious experience **Levinas and the Greek Heritage** Jean-Marc Narbonne, 2006 Levinas and the Greek Heritage shows that throughout his career Emmanuel Levinas always admired and recognized his profound debt to Plato and to the philosophical tradition he initiated which have been largely transmitted to us by the Neoplatonists most notably Plotinus and Proclus How can we read Otherwise than Being or Beyond Essence in any other way than as some sort

of Neoplatonic programme prolonging Plato's Good beyond being of the Republic VI 509b in the direction of the other man the one which in his nudity and fragility opens for us the horizon of a new humanism There are many ways by which one can attempt to go over and above Being not only a Greek way primordially metaphysical but also a Biblical way mainly ethical One of the interests of Levinas philosophy is to show us the hidden community and perhaps unavoidable interdependency of these two approaches One Hundred Years of Neoplatonism in France shows that during the Twentieth century a retrieval of Neoplatonism is a powerful hidden feature of French philosophy and theology of spiritual and institutional life Beginning with Henri Bergson it passes by way of figures like Maurice Blondel A J Festugiere Henri de Lubac Jean Trouillard Henry Dumery and culminates with Michel Henry Pierre Hadot and Jean Luc Marion The book examines the particular character Neoplatonism takes in this retrieval and traces connections between leading figures within the French and Anglophone worlds

Phenomenology and Eschatology John Panteleimon Manoussakis, 2016-04-22 This book brings together a world renowned collection of philosophers and theologians to explore the ways in which the resurgence of eschatological thought in contemporary theology and the continued relevance of phenomenology in philosophy can illuminate each other Through a series of phenomenological analyses of key eschatological concepts and detailed readings in some of the key figures of both disciplines this text reveals that phenomenology and eschatology cannot be fully understood without each other without eschatology phenomenology would not have developed the ethical and futural aspects that characterize it today without phenomenology eschatology would remain relegated to the sidelines of serious theological discourse Along the way such diverse themes as time death parousia and the call are re examined and redefined Containing new contributions from Jean Yves Lacoste Claude Romano Richard Kearney Kevin Hart and others this book is necessary reading for anyone interested in the intersection of contemporary philosophy and theology

Religion among People Kees W. Bolle, 2017-10-23 At the deepest level religious traditions determine what goes on between one human being and another between one community and another and between human beings and whoever holds power over them Kees Bolle's original passionate scholarship veered away from things handed down and standard in our thought about religions In this his final book he explores how religious paradigms have given rise to particular structures of power and how religious myths compel particular human actions the possibility of interpretation the necessity for recognizing religious forms where they appear the relationship of secularization and sacredness And at every turn Bolle examines the notion that Western intellectuals are nonreligious He confronts the responsibility mere scholarship bears for events sometimes terrible events in the real world We move from David and Nathan to Antigone from Brahmanism and Buddhism to the familial struggle between Christianity and Islam The book concludes with Bolle's striking reflections on how modern man has become inherently religious in concurrence with modern manifestations of power Bolle is a fascinating figure He loved the immediacy of lessons found in Hasidic stories and his own thought may be said to approach the wholeness the immediacy of religion

Time, Religion and History William Gallois,2014-06-11 What is time How does our sense of time lead us to approach the world How did the peoples of the past view time This book answers these questions through an investigation of the cultures of time in Christianity Islam Buddhism Judaism and the Australian Dreamtime It argues that our contemporary world is blind as to the significance and complexity of time preferring to believe that time is natural and unchanging This is of critical importance to historians since the base matter of their study is time yet there is almost no theoretical literature on time in history This book offers the first detailed historiographical study of the centrality of time to human cultures It sets out the complex ways in which ideas of time developed in the major world religions and the

manner in which such conceptions led people both to live in ways very different to our contemporary world and to make very different kinds of histories It goes on to argue that modern scientific descriptions of time such as Einsteins Theory of Relativity lie much closer to the complex understandings of time in religions such as Christianity than they do to our common sense notions of time which are centred on progress through a past present and future **Sodomscapes** Lowell Gallagher,2017-06-01 Sodomscapes presents a fresh approach to the story of Lot s wife as it s been read across cultures and generations In the process it reinterprets foundational concepts of ethics representation and the body While the sudden mutation of Lot s wife in the flight from Sodom is often read to confirm our antiscopic bias a rival tradition emphasizes the counterintuitive optics required to nurture sustainable habitations for life in view of its unforeseeable contingency Whether in medieval exegesis Russian avant garde art Renaissance painting or today s Dead Sea health care tourism industry the repeated desire to reclaim Lot s wife turns the cautionary emblem of the mutating woman into a figural laboratory for testing the ethical bounds of hospitality Sodomscape the book s name for this gesture revisits touchstone moments in the history of figural thinking and places them in conversation with key thinkers of hospitality The book s cumulative perspective identifies Lot s wife as the resilient figure of vigilant dwelling whose in betweenness discloses counterintuitive ways of understanding what counts as a life amid divergent claims of being with and being for *Encyclopedia of Religion* ,2005 JBSP British Society for Phenomenology,1976 *Religious Books and Serials in Print 1978-1979* R.R.
