**The Philosophy of Husserl** Burt Hopkins, 2015-01-28 As the founder of phenomenology Edmund Husserl has been hugely influential in the development of contemporary continental philosophy In The Philosophy of Husserl Burt Hopkins shows that the unity of Husserl's philosophical enterprise is found in the investigation of the origins of cognition being meaning and ultimately philosophy itself Hopkins challenges the prevailing view that Husserl's late turn to history is inconsistent with his earlier attempts to establish phenomenology as a pure science and also the view of Heidegger and Derrida that the limits of transcendental phenomenology are historically driven by ancient Greek philosophy Part 1 presents Plato's written and unwritten theories of *eid* and Aristotle's criticism of both Part 2 traces Husserl's early investigations into the formation of mathematical and logical concepts and charts the critical necessity that leads from descriptive psychology to transcendently pure phenomenology Part 3 investigates the movement of Husserl's phenomenology of transcendental consciousness to that of monadological intersubjectivity Part 4 presents the final stage of the development of Husserl's thought which situates monadological intersubjectivity within the context of the historical a priori constitutive of all meaning Part 5 exposes the unwarranted historical presuppositions that guide Heidegger's fundamental ontological and Derrida's deconstructive criticisms of Husserl's transcendental phenomenology The Philosophy of Husserl will be required reading for all students of phenomenology     *The Philosophy of Husserl* Burt C. Hopkins, 2011-01-01 Hopkins begins his study with

Plato's written and unwritten theories of eid and Aristotle's criticism of both He then traces Husserl's early investigations into the formation of mathematical and logical concepts charting the critical necessity that leads from descriptive psychology to transcendentally pure phenomenology An investigation of the movement of Husserl's phenomenology of transcendental consciousness to that of monadological intersubjectivity follows Hopkins then presents the final stage of the development of Husserl's thought which situates monadological intersubjectivity within the context of the historical a priori constitutive of all meaning An exposition of the unwarranted historical presuppositions that guide Heidegger's fundamental ontological and Derrida's deconstructive criticisms of Husserl's transcendental phenomenology concludes the book By following Husserl's personal trajectory Hopkins is able to show the unity of Husserl's philosophical enterprise challenging the prevailing view that Husserl's late turn to history is inconsistent with his earlier attempts to establish phenomenology as a pure science

*Jacques Derrida Zeynep Direk, Leonard Lawlor, 2002 Marion and Derrida on The Gift and Desire: Debating the Generosity of Things Jason Alvis, 2016-01-13* This book examines the various encounters between Jean Luc Marion and Jacques Derrida on the gift considers their many differences on desire and demonstrates how these topics hold the keys to some of phenomenology's most pressing structural questions especially regarding deconstructive approaches within the field The book claims that the topic of desire is a central lynchpin to understanding the two thinkers conflict over the gift for the gift is reducible to the desire to give which initiates a turn to the topic of generosity To what degree might loving also imply giving How far might it be suggested that love is reducible to desire and intentionality It is demonstrated how Derrida the generative father of deconstruction rejects the possibility of any potential relation between the gift and desire on the account that desire is bound to calculative repetition economical appropriation and subject centered interests that hinder deconstruction Whereas Marion a representative of the phenomenological tradition demands a unique union between the gift and desire which are both represented in his reduction to givenness and erotic reduction The book is the first extensive attempt to contextualize the stark differences between Marion and Derrida within the phenomenological legacy Husserl Heidegger Kant supplies readers with in depth accounts of the topics of the gift love and desire and demonstrates another means through which the appearing of phenomena might be understood namely according to the generosity of things *The Cambridge Companion to Heidegger Charles Guignon, 1993-02-26* This volume contains both overviews of Heidegger's life and works and analysis of his most important work Being and Time *Merleau-Ponty and Derrida Jack Reynolds, 2004* While

there have been many essays devoted to comparing the work of Maurice Merleau Ponty with that of Jacques Derrida there has been no sustained book length treatment of these two French philosophers Additionally many of the essays presuppose an oppositional relationship between them and between phenomenology and deconstruction more generally Jack Reynolds systematically explores their relationship by analyzing each philosopher in terms of two important and related issues embodiment and alterity Focusing on areas with which they are not commonly associated e g Derrida on the body and Merleau Ponty on alterity makes clear that their work cannot be adequately characterized in a strictly oppositional way Merleau Ponty and Derrida Intertwining Embodiment and Alterity proposes the possibility of a Merleau Ponty inspired philosophy that does not so avowedly seek to extricate itself from phenomenology but that also cannot easily be dismissed as simply another instantiation of the metaphysics of presence Reynolds argues that there are salient ethico political reasons for choosing an alternative that accords greater attention to our embodied situation As the first full length monograph comparing the philosophers Merleau Ponty and Derrida will interest scholars and students in European philosophy and teachers of courses dealing with deconstruction

*Unphenomenal Shakespeare* Julián Jiménez Heffernan, 2023-01-16

In the aftermath of New Historicism and Cultural Materialism the field of Shakespeare Studies has been increasingly overrun by post theoretical phenomenological claims Many of the critical tendencies that hold the field today post humanism speculative realism ecocriticism historical phenomenology new materialism performance studies animal studies affect studies are consciously or unwittingly informed by phenomenological assumptions This book aims at uncovering and examining these claims not only to assess their philosophical congruency but also to determine their hermeneutic relevance when applied to Shakespeare More specifically Unphenomenal Shakespeare deploys resources of speculative critique to resist the moralistic and aestheticist phenomenologization of the Shakespeare playtexts across a variety of schools and scholars a tendency best epitomized in Bruce Smith s *Phenomenal Shakespeare* 2010

*Merleau-Ponty, Hermeneutics, and Postmodernism* Thomas

W. Busch, Shaun Gallagher, 1992-01-01 This book opens up new dimensions in the philosophical thought of Merleau Ponty and addresses contemporary issues concerning interpretation theory and postmodernity In Part I the authors employ the texts of Merleau Ponty to challenge many of assumptions that operate in the current field of hermeneutics They find in Merleau Ponty the outline of a hermeneutics of ambiguity that incorporates his accounts of the human body language and temporality in working out the concepts of interpretation context perspective truth and interpersonal transgression Merleau Ponty thus enters into a productive dialogue with contemporary thinkers such as Gadamer Ricoeur Habermas Levinas and Derrida Part II engages Merleau Ponty with the many voices of postmodernism Some of the most able Merleau Ponty interpreters reveal the richness of his work through variant readings Can Merleau Ponty be construed as a postmodern thinker or as a critic of postmodernism To what extent can the concepts of flesh reversibility and ecart be made to function as deconstructive non concepts What can Merleau Ponty contribute toward a postmodern politics These essays move the discussion from Derrida to

Deleuze Foucault and Lyotard    [Love's Transcendence and the Problem of Theodicy](#) Claudia Welz,2008 Claudia Weltz explores responses to the problem of evil that do not end up in a theodicy Kierkegaard s and Rosenzweig s reasons for having no reason to defend God and their ethics of love are discussed in the context of German idealism and French phenomenology

**Historical Dictionary of Husserl's Philosophy** John J. Drummond,2022-03-14 Edmund Husserl is generally regarded as the founding figure of the philosophical movement of phenomenology by which he understands a descriptive science of the essential structures of experiences and of their objects precisely as these are experienced Phenomenology has had a decisive influence on philosophy in the 20th century especially in Europe The movement known as continental philosophy whether practiced in Europe or elsewhere has its roots in phenomenology and in the post Hegelian philosophies of S ren Kierkegaard Friedrich Nietzsche and Karl Marx Historical Dictionary of Husserl s Philosophy Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on his key

concepts and major writings as well as entries on his most important predecessors contemporaries and successors This book is an excellent resource for students researchers and anyone wanting to know more about Edmund Husserl *Impossible God* Hugh Rayment-Pickard,2018-12-07 Impossible God introduces Derrida s theology for a new generation interested in Derrida s writings and in the future of theology and clarifies Derrida s theology for those already familiar with his writings Derrida s theological concerns are now widely recognised but Impossible God shows how Derrida s theology takes its shape from his earliest writings on Edmund Husserl and from explorations into Husserl s unpublished manuscripts on time and theology Rayment Pickard argues that Derrida goes beyond both the nihilism of the death of God and the denials of negative theology to affirm a theology of God s impossibility Derrida s impossible God is not another God of the philosophers but a powerful deity capable of wakening us into faith ethical responsibility and love Showing how central theology has been to Derrida s philosophy since the beginning of his career Impossible God presents an accessible study of a neglected area of Derrida s writing which students of philosophy and theology will find invaluable **Derrida's Of Grammatology** Arthur Bradley,2008-04-30 Everything you need to know about Derrida s Of Grammatology in one volume Jacques Derrida was one of the most famous and influential philosophers of the later twentieth century First published in 1967 Of Grammatology is his best known text introducing many fundamental concepts relating to linguistics and writing which he would develop in his later work This book provides a commentary on Of Grammatology that can be read alongside rather than instead of the text itself by students encountering Derrida for the first time *Time in the Philosophy of Gabriel Marcel* Helen Tattam,2013 Gabriel Marcel 1889 1973 stands outside the traditional canon of twentieth century French philosophers Where he is not simply forgotten or overlooked he is dismissed as a relentlessly unsystematic thinker or following Jean Paul Sartre s lead labelled a Christian existentialist a label that avoids consideration of Marcel s work on its own terms How is one to appreciate Marcel s contribution especially when his oeuvre appears to be at odds with philosophical convention Helen Tattam proposes a range of readings as opposed to one single interpretation a series of departures or explorations that bring his work into contact with critical partners such as Henri Bergson Paul Ricoeur and Emmanuel Lvinas and offer insights into a host of twentieth century philosophical shifts concerning time the subject the other ethics and religion Helen Tattam s ambitious study is an impressively lucid account of Marcel s engagement with the problem of time and lived experience and is her first monograph since the award of her doctorate from the University of Nottingham *Refocusing the Self in Higher Education* Glen Sherman,2014-04-24 In higher education literature theories of learning and development have largely been adapted from psychology to the exclusion of basic insights from philosophy This volume addresses the gaps in higher education s theoretical base created by this inattention to philosophy and reflects on the significance of the history of philosophy for the field of higher education Key insights from phenomenological and then deconstructive philosophy are explained in an accessible and useful way and woven into a practical theory of the student subject and its implications for

learning and development Finally narrative theory is introduced in conjunction with these philosophical considerations as the author considers alternative ways of conceptualizing the student the student s experience and the unification of the curricular co curricular and extracurricular aspects of higher education
