Phenomenology Of Man And The Human Condition:

The Phenomenology of Man and of the Human Condition Anna-Teresa Tymieniecka, 2012-12-06 The Phenomenology of Man and of the Human Condition Anna-Teresa Tymieniecka, 1986 **The Phenomenology Of Man and of the Human Condition**, 1983 **The Phenomenology of Man and of the Human Condition**, 1986 *Phenomenology of Life and the Human Creative Condition* Anna-Teresa Tymieniecka, 1997-12-31 Self individualization has been interpreted as the process in which the all embracing Self unfolds into an infinite variety of different individuals plants animals and men A comparison of the different ways in which the Self manifests itself in the biological and psychological developmental processes or in a visionary image of the undivided Self reveals the same basic structure of expression The Self the one is represented by a circular domain and comprises a basic inner duality the two creating a paradox of conflicting opposites In the undivided Self the two give rise to a trinity in which however a quaternity is hidden The latter expresses itself in this world as the four basic forces the four Elements or the four main archetypes specifying the possibilities or development in space and time Self individualization starts with the first appearance of a primary structure of an individual sub Self This is the fifth basic force the fifth Element Further development is characterized by four generative principles 1st the principle of wholeness connection and integration being oriented to remaining whole or restoring wholeness 2nd the principle of complementarity and compensation a periodic shift between opposing influences 3rd the enstructuring principle causing the relative stability of the spatial appearance of the manifest structure and 4th the principle of gesture resulting in a gradual stepwise development of that structure into a full grown individual The Phenomenology of Man and of the Human Condition Anna-Teresa Tymieniecka, 1986-07-31 *The Phenomenology of Man and of the Human Condition* Anna-Teresa Tymieniecka, 1982-12-31 *Poetics of the Elements in the Human Condition: Part I - The Sea* Anna-Teresa Tymieniecka, 1985-09-30 **Phenomenology World-Wide** Anna-Teresa Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times Through the entire twentieth century this philosophy unfolded and flourished following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl Now its seminal ideas have been handed over to a new era The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge transforming our way of seeing the world our actions toward others and our lives Phenomenology's universal spread has however oftentimes diluted its original sense even beyond recognition and led to a weakening of its dynamics There is at present an urgent need to retrieve the original understanding of phenomenology to awaken its dormant forces and redirect them This is the aim of the present book resourcement and reinvigoration It is meant to be not only a reference work but also a guide for research and study To restore the authentic vision of phenomenology we propose returning to its foundational source in Husserl's project of a universal science unpacking all its creative capacities In the

three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality ideal structures constitutive consciousness the intersubjective lifeworld and beyond The key concepts and phases of Husserl's thought are here exfoliated Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated Phenomenology's geographic spread is reviewed We then proceed to the culminating work of this philosophy to the phenomenological life engagements so vigorously advocated by Husserl to the life significant issues phenomenology addresses and to how it has enriched the human sciences Lastly the phenomenological project's new horizons on the plane of life are limned horizons with so powerful a draw that they may be said not to beckon but to summon Here is the movement's vanguard This collection has 71 entries Each entry is followed by a relevant bibliography There is a helpful Glossary of Terms and an Index of Names The Phenomenology of Man and of the Human Condition Anna-Teresa Tymieniecka, 1986-07-31

Phenomenology of Life in a Dialogue Between Chinese and Occidental Philosophy

Anna-Teresa Tymieniecka, 2012-12-06 To introduce this collection of research studies which stem from the programs conducted by The World Phenomenology Institute we need say a few words about our aims and work This will bring to light the significance of the present volume The phenomenological philosophy is an unprejudiced study of experience in its entire range experience being understood as yielding objects Experience moreover is approached in a specific way such a way that it legitimizes itself naturally in immediate evidence As such it offers a unique ground for philosophical inquiry Its basic condition however is to legitimize its validity In this way it allows a dialogue to unfold among various philosophies of different methodologies and persuasions so that their basic assumptions and conceptions may be investigated in an objective fashion That is instead of comparing concepts we may go below their differences to seek together what they are meant to grasp We may in this way come to the things themselves which are the common objective of all philosophy or what the great Chinese philosopher Wang Yang Ming called the investigation of things It is in this spirit that the Institute's programs include a cross cultural dialogue meant to bring about a profound communication among philosophers in their deepest concerns Rising above artificial cultural confinements such dialogues bring scholars thinkers and human beings together toward a truly human community of minds Our Institute unfolds one consistent academic program *Life Interpretation and the Sense of Illness within the Human Condition* Anna-Teresa Tymieniecka, E. Agazzi, 2012-12-06 In medicine the understanding and interpretation of the complex reality of illness currently refers either to an organismic approach that focuses on the physical or to a holistic approach that takes into account the patient's human sociocultural involvement Yet as the papers of this collection show the suffering human person refers ultimately to his/her existential sphere Hence praxis is supplemented by still other perspectives for valuation and interpretation ethical spiritual and religious Can medicine ignore these considerations or push them to the side as being subjective and arbitrary Phenomenology philosophy of life recognizes all of the above approaches to be essential facets of the Human Condition Tymieniecka This approach holds that all the facets of

the Human Condition have equal objectivity and legitimacy It completes the accepted medical outlook and points the way toward a new medical humanism

Poetics of the Elements in the Human Condition: Part 2 The Airy Elements in Poetic Imagination Anna-Teresa Tymieniecka, 2013-03-09 *New Queries in Aesthetics and Metaphysics* Anna-Teresa Tymieniecka, 2012-12-06 This collection is the final volume of a four book survey of the state of phenomenology fifty years after the death of Edmund Husserl Its publication represents a landmark in the comprehensive treatment of contemporary phenomenology in all its vastness and richness The diversity of the issues raised here is dazzling but the main themes of Husserl's thought are all either explicitly treated or else they underlie the ingenious approaches found here Time historicity intentionality eidos meaning possibility reality and teleology are the main concerns of this collection devoted to studies in aesthetics metaphysics and literary interpretation written by such authors as among others R Cobb Stevens C Moreno Marquez J Swiecinski Sitansu Ray and M Kronegger These original studies of phenomenological aesthetics and literary theory by scholars from all parts of the world were gathered by the World Institute for Advanced Phenomenological Research and Learning during the year 1988-89 during its assessment of the phenomenological movement fifty years after Husserl's death IX A T Tymieniecka ed *Analecta Husserliana* Vol XXXVII ix [Life in the Glory of Its Radiating Manifestations](#) Anna-Teresa Tymieniecka, 1996-06-30 In this post modern darkness the Phenomenology of Life and of the Human Condition excavates and brings to light the Logos of Life in its entire harmonizing interplay In the present collection which continues the long and winding itinerary of our previous probings we first uncover the new field of the onto-poiesis of life by means of the self individualisation of life the key to its labyrinth Tymieniecka A network of the onto-poietic itineraries manifest life in its innumerable perspectives the constructive scanning chronos and Kairos are treated specifically by Eva Syristova M Bielawka F Bosio and M A Cecilia Individualising dynamisms of passions and the tying of the communal order by G Bucher R Sweeney A Polis A Zvie Bar On and others The life struggle for the light of the spirit by L Sundararajan I R Owen etc The deep springs of mundanity in human existence moral sense empathy communication by A Luse A Ales Bello J Cibulka J Sivak etc

Man's Self-Interpretation-in-Existence Anna-Teresa Tymieniecka, 2012-12-06 **Ontopoietic Expansion in Human Self-Interpretation-in-Existence** Anna-Teresa Tymieniecka, 2012-12-06 The societal web of life is underpinned by one concept that of Self and Other which emerged earlier in this century The concept has received a new formulation within the field of the phenomenology of life and the human creative condition finding a foothold a point of reference that radiates novel seminal insights It is nothing other than the creative fulcrum of human functioning The self individualisation of the human being as revealed in the present collection is existentially and vitally intertwined with that of the Other Tymieniecka's seminal idea of the trans actional is explored in this collection of essays which reveals a variety of significant perspectives weaving the cycles of the human universe of existence in an essential oscillation between the Self and the Other In this oscillation we throw out our existential tentacles trying to gain a living space with respect to each other all the while

Schrag, 1988-12-31 THEODORE KISIEL Date of birth October 30 1930 Place of birth Brackenridge Pennsylvania Date of institution of highest degree PhD Duquesne University 1962 Academic appointments University of Dayton Canisius College Northwestern University Duquesne University Northern Illinois University I first left the university to pursue a career in metallurgical research and nuclear technology But I soon found myself drawn back to the university to round out an overly specialized education It was along this path that I was waylaid into philosophy by teachers like H L Van Breda and Bernard Boelen The philosophy department at Duquesne University was then 1958 1962 a veritable little Louvain and the Belgian Dutch connection exposed me to among other visiting scholars Jean Ladriere and Joe Kockelmans who planted the seeds which eventually led me to the hybrid discipline of a hermeneutics of natural science and prompted me soon after graduation to make the first of numerous extended visits to Belgium and Germany The endeavor to learn French and German led me to the task of translating the phenomenological literature bearing especially on natural science and on Heidegger The talk in the sixties was of a continental divide in philosophy between Europe and the Anglo American world But in designing my courses in the philosophy of science I naturally gravitated to the works of Hanson Kuhn Polanyi and Toulmin without at first fully realizing why I felt such a strong kinship with them beyond their common anti positivism
