Tomlan, 2014-11-21 This well illustrated book offers an up to date synthesis of

the field of historic preservation cast as a social campaign concerned with the condition treatment and use of the legacy of existing properties in the United States Drawing on a wide range of research experience and scholarship over the last fifty years it allows us to re think past and current ideas in preservation challenging readers to explore how their own interests lie within the cognitive framework of the activities taking place with people who care Who is involved is explored first in such a way as to explore why before examining what is deemed important After that the questions of when and how to proceed are given attention The major topics are introduced in an historical review through the mid 1980s after which the broad intellectual basis and fundamental legal framework is provided The economic shifts associated with major demographic changes are explored in tandem with responses of the preservation community A chapter is dedicated to the financial challenges and sources of revenue available in typical preservation projects and another chapter focuses on the manner in which seeing recording and interpreting information provides the context for an appropriate vision for the future In this regard it is made clear that not all green design alternatives are preservation sensitive The advocacy battles during the last few decades provide a number of short stories of the ethical battles regarding below ground and above ground historic resources and the eighth chapter attempts to explain why religion has been long held at arm s length in publicly supported preservation efforts when in fact it holds more potential to regenerate existing sites than any governmental program The Golden Age of Ironwork Henry Jonas Magaziner,2000 Covers ironwork from roughly 1840 to 1930 Thus it includes cast iron which prevailed during the nineteenth century and hand wrought iron which triumphed from about 1900 to 1930

*Wartime Basketball* Douglas Andrew Stark,2016-05 Wartime Basketball tells the story of basketball s survival and development during World War II and how those years profoundly affected the game s growth after the war Prior to World War II basketball professional and collegiate was largely a regional game with different styles played throughout the country Among its many impacts on home front life the war forced pro and amateur leagues to contract and combine rosters to stay competitive At the same time the U S military created base teams made up of top players who found themselves in uniform The war created the opportunity for players from different parts of the country to play with and against each other As a result a more consistent form of basketball began to take shape The rising popularity of the professional game led to the formation of the World Professional Basketball Tournament WPBT in 1939 The original March Madness the WPBT was played in Chicago for ten years and allowed professional amateur barnstorming and independent teams to compete in a round robin tournament The WPBT included all black and integrated teams in the first instance where all black teams could compete for a world series of basketball against white teams Wartime Basketball describes how the WPBT paved the way for the National Basketball League to integrate in December 1942 five years before Jackie Robinson broke the color barrier in baseball Weaving stories from the court into wartime and home front culture like a finely threaded bounce pass Wartime Basketball sheds light on important developments in the sport s history that have been largely overlooked **Robber Baron** John

Franch,2024-06-17 Robber Baron is the first biography of the streetcar magnate Charles Tyson Yerkes 1837 1905 who stands alongside J P Morgan and Andrew Carnegie as one of the most colorful and controversial public figures in Gilded Age America John Franch draws upon every available source to tell the story of the man who was the mastermind behind Chicago's Loop Elevated and the London Underground the namesake of the University of Chicago's observatory and the inspiration for Frank Cowperwood the ruthless protagonist of Theodore Dreiser's Trilogy of Desire The Financier The Titan and The Stoic Despite various philanthropic efforts Yerkes and his unscrupulous tactics were despised by the press and public and he left Chicago a bitter man While Yerkes's enduring public works testify to his success and desire to leave a lasting impression on his world Robber Baron also uncovers the cost of this boundless ambition Society Hill and Old City Robert Morris Skaler,2005 In the 18th century Society Hill was home to wealthy merchants and many members of the federal government In Old City artisans and workmen lived and worked in small row houses like those on Elfreth's Alley As Philadelphia developed it abandoned its Colonial center Almost forgotten by 1900 Society Hill had become home to poor immigrants and its once gracious houses had become run down tenements shops and warehouses Yet at the same time Society Hill remained Philadelphia's banking and insurance center Beginning in the 1960s under the direction of city planner Edmund Bacon and the National Park Service this neglected neighborhood was restored Society Hill and Old City documents how these two neighborhoods looked in the early 1900s The book's carefully researched narrative and vintage images tell the story of these historic neighborhoods **Religion, Ethnicity, and Politics** Owen.
