The Journal of Military History ,1993 *With Arrow, Sword, and Spear* Alfred S. Bradford,2000-11-30 Most studies of ancient warfare focus only on the Greeks and the Romans but this sweeping study covers the whole of the ancient world from Greece and Rome to the Near East then eastward to Parthia India and China Bradford transports the reader into the midst of ancient battles behind such great leaders as Thutmose III Ashurbanipal Alexander Hannibal Caesar and the First Emperor of China He details the rise and fall of empires the role of leadership and the development of tactics and strategy One sees the clash of peoples nomads against agricultural societies infantry against cavalry as well as the greatest technological change in history the combination of the composite bow and the chariot This readable account analyzes ancient armies in terms of modern military doctrine allowing the reader to make comparisons between the combatants Recruitment for example varied tremendously with Romans drawing from a limited pool of recruits for service terms of twenty to thirty years and Chinese planners preferring a large pool with short term service While various types of governments prepared for and waged war in significantly different ways Bradford finds that better organization led to success on the battlefield and that for the most part societal innovation was more important than technological innovation The ongoing discussion of the lessons of ancient warfare around the globe will provide valuable insights for interested general readers and military professionals alike **King and Court in Ancient Macedonia** Elizabeth Carney,2015-08-31 The Hellenistic courts and

Among the most influential pioneers in this process has been the American historian Elizabeth Carney. The present book collects for the first time in a single volume her most influential articles. Previously published in a range of learned journals, the articles are here re-edited, each with a substantive Afterword by the author bringing the discussion up to date and adding new bibliography. Main themes of this volume include Macedonian monarchy in practice and as an image, the role of conspiracies and violence at court, royal women, aspects of court life and institutions.
