EROĞLU, 2024-05-29 Marcel Duchamp had made the museum fit into a bag What about now How would it be if we build the
museum on a part of the human body an arm for instance The answer would be The works of avant garde artists who have
made a mark on art and history of art like Giotto Bruegel Giorgione Michelangelo D rer El Greco Caravaggio Goya Turner
Monet C zanne Matisse Braque Malevich Kandinsky and Duchamp will be brought together as a part of a body body art We
witness that a visual object an art work has been transformed into a human subject And thus this person as both a work of art
and a museum with a walking sleeping living brain keeps his museum open to viewers except for sleeping hours without
considering about sanctions as status selective board or capital It should be emphasized that the art critic in this project
2008 2009 focuses on the subject by acting with a curator s conscience and by using all the opportunities of art The work has
to be unique and never intended before not only in Turkey but also in the whole world in order to achieve its naturalness and
originality We activated this Arm Museum by setting off from this point of view and by dealing with the avant garde artists
we chose works or a detail of a work of art highlighting the pioneering visual characteristics of these artists First of all this
museum is dynamic in every aspect It serves everyone who is interested in the museum for twenty four hours and does only
its work without discriminating citizen from villager intellectual from ignorant national from international foreign language

Raynova, 2018-11-22 This special issue of Labyrith is the first part of a diptych dedicated to the eminent French philosopher
Fran ois Laruelle in honor of his 80th Anniversary It aims to unveil the attracting force of Laruelle s non philosophy for artists
and scholars from different disciplines The essays demonstrates in an emblematic way how a new democratic order of
thinking permits non philosophy to enclose domains that have long been considered as opposites philosophy science religion
and the arts and to superpose these variables in a process of creative invention The issue includes an original dialogue
between Fran ois Laruelle and Anne Fran oise Schmid an interview with Laruelle s translator into English Anthony Paul Smith
conducted by Mark W Westmoreland and articles by Yvanka B Raynova Constance L Mui Julien S Murphy Katerina Kolozova
