**Philology and Ancient China** Bernhard Karlgren,1980-01-01

**Warring States Papers (Volume 1)** E. Bruce Brooks,Alvin P. Cohen,Donald E. Gjersten,2010-12-31 Warring States

Papers seeks to apply standard philological methods to major unsolved textual problems a to establish the nature and interrelations of the texts including the recognition of interpolations and of text growth generally b to date the texts or their constituent layers and finally c to read the history of the period from that newly available source material In both fields with their core of culturally protected texts these fundamental preliminaries have tended to be overlooked The Project s revolution in both its fields of concern has consisted in large part of not overlooking them Once the basic questions have been asked and at least in part answered the history of each period is more readily available for further study as such and for comparison with similar developments both ancient and modern New contributions developing this methodologically fresh beginning are welcome To encourage them and to ensure variety in each annual volume the journal emphasizes short articles rather than long disquisitions

A History of Books in Ancient China Li Chen,2024-05-15 This book presents a study of the history of ancient Chinese books not only highlighting specific aspects of the ontology of book history such as printing and publishing but also analyzing the internal and external causes of the development of book undertakings from a macro perspective Placing the development of and changes in the history of books in the context of social development it investigates its interaction with politics economy society education and religion especially with the big culture and constructs a book centered history of ancient Chinese culture

**Bulletin of the School of Oriental Studies, London Institution** ,1928

Chinese Lexicography Heming Yong,Jing Peng,2008-08-14 This comprehensive account of the history of Chinese lexicography is the first book on the subject to be published in English It traces the development of Chinese lexicography over three millennia from the Zhou Dynasty 1046 BC 256 BC to the Qing Dynasty 1616 1911 Revealing how the emergence of lexicographical culture in ancient China was linked to the teaching of ancient characters it describes the subsequent development of primers thesauruses and dictionaries of all major types including those of dialects and technical terms These works originated and appeared in ancient China predating their western counterparts by hundreds of years and in one form or another most of them remain in use today Throughout their account the authors show how changes in the organization content use and researches of Chinese lexicographical works reflected broader social and political developments This book not only makes an important and original contribution to the history of Chinese lexicography and the social and cultural history of China but also provides illuminating insights into world lexicography and new forms of comparative researches in lexicography in the global context

**Philological Turn** Ori Sela,2018-04-03 In eighteenth century China a remarkable intellectual transformation took place centered on the ascendance of philology Its practitioners were preoccupied with the reliability of sources as evidence for

restoring ancient texts and meanings and with the centrality of facts and truth to their scholarship and identity With the power to construct the textual past philology has the potential to shape both individual and collective identities and its rise to prominence consequently deeply affected contemporaneous political social and cultural agendas Ori Sela foregrounds the polymath Qian Daxin 1728 1804 one of the most distinguished scholars of the Qing dynasty to tell this story China's Philological Turn traces scholars social networks and the production of knowledge considering the texts they studied along with their reading practices and the assumptions about knowledge facts and truth that came with them The book considers fundamental issues of eighteenth century intellectual life the tension between antiquity's elevated status and the question of what antiquity actually was the status of scientific knowledge especially astronomy mathematics and calendrical studies and the relationship between learned debates and cultural anxieties especially scholars self characterization and collective identity Sela brings to light manuscripts biographies letters handwritten notes epitaphs and more to highlight the creativity and openness of his subjects A pioneering book in the cultural history of intellectuals across disciplinary boundaries China's Philological Turn reconstructs the history of eighteenth century Chinese learning and its long lasting consequences **The Pound Era** Hugh Kenner, 2023-07-28 Hugh Kenner's The Pound Era could as well be known as the Kenner era for there is no critic who has more firmly established his claim to valuable literary property than has Kenner to the first three decades of the 20th century in England Author of previous studies of Joyce T S Eliot Wyndham Lewis and Pound to name a few Kenner bestrides modern literature if not like a colossus then at least a presence of formidable proportions A new book by him is certainly an event A demanding enticing book that glitters at the same time it antagonizes The Pound Era presents us with an idiosyncratic but sharply etched skeletal view of our immediate literary heritage The New York Times Hugh Kenner's The Pound Era could as well be known as the Kenner era for there is no critic who has more firmly established his claim to valuable literary property than has Kenner to the first three decades of the 20th century in England Author of perv

Journal of the Royal Asiatic Society of Great Britain & Ireland, 1929 Has appendices The Hall of Light William Edward Soothill, 2002 A close examination of early Chinese culture explaining the traditional ideas about monarchy religion and worship rituals and sacrifices customs and other aspects that have influenced the thought and behaviour of the Chinese for well over two millennia Chinese Realities John Foster, 1928 *Origins of Ancient Chinese Civilization* Xueqin Li, 2024-07-24 This book presents detailed research regarding the Xia Shang and Zhou dynasties including studies of inscriptions on bones or tortoise shells bronzeware bamboo scripts and silk manuscripts in order to demonstrate the main features of various historical periods during the establishment and development of ancient Chinese civilization based on an a view of ancient Chinese civilization studies as a whole The book consists of three sections with a total of 38 essays The first section provides a macro level overview of the formation and development history of ancient Chinese civilization the second section covering general topics examines the specific characteristics of early Chinese civilization from Emperors Yan and

Huang to the Eastern Zhou Dynasty Lastly the appendix features 7 articles including a short biography of the author

*Traces of the Sage* James A. Flath, 2016-03-31 The Temple of Confucius Kong Temple in Qufu is the definitive monument to the world's greatest sage From its humble origins deep in China's past the home of Confucius grew in size and stature under the auspices of almost every major dynasty until it was the largest and most richly endowed temple in the Ming and Qing empires The decline of state sponsored ritualism in the twentieth century triggered a profound identity crisis for the temple and its worshipers yet the fragile relic survived decades of neglect war and revolution and is now recognized as a national treasure and a World Heritage Site *Traces of the Sage* is the first comprehensive account of the history and material culture of Kong Temple Following the temple's development through time and across space it relates architecture to the practice of Confucianism explains the temple's phenomenal perseverance and explores the culture of building in China Other chapters consider the problem of Confucian heritage conservation and development over the last hundred years a period when the validity of Confucianism has been called into question and the challenge of remaking Confucian heritage as a commercial enterprise By reconstructing its social life the study interprets Kong Temple as an active site of transaction and negotiation and argues that meaning does not hide behind architecture but emerges from the circulation and regeneration of its spaces and materials The most complete work on a seminal monument in Chinese history through millennia *Traces of the Sage* will find a ready audience among cultural and political historians of imperial and modern China as well as students and scholars of architectural history and theory and Chinese ritual

**Incense at the Altar** David B. Honey, 2001 David Honey offers a history of Sinology spanning its beginnings in the first efforts of seventeenth century Jesuit missionaries to the growing disciplinary fragmentation of the field in the second half of the twentieth century No comprehensive history of the field has heretofore been published in a Western language

*The Manyôsu, Translated and Annotated* Pierson, **Time and Language** Ori Sela, Zvi Ben-Dor Benite, Joshua A. Fogel, 2023 China's past and present have been in a continuous dialogue throughout history one that is heavily influenced by time and language the temporal orientation and the linguistic apparatus used to express and solidify identity ideas and practices Presenting a host of in depth case studies *Time and Language* New Sinology and Chinese History argues for and demonstrates the significance of New Sinology by restoring the role of language philology in the research and understanding of how modern China emerged Reading the modern as a careful and ongoing conversation with the past renders the new in a different perspective This volume is a significant step toward a new historical narrative of China's modern history one wherein ruptures can exist in tandem with continuities The collection accentuates the deep connection between language and power one that spans well across China's long past and hence the immense consequences of linguistic related methodology to the comprehension of power structures and identity in China Each of the essays in this volume tackles these issues the methodological and the thematic from a different angle but they all share the Sinological prism of analysis and the basic understanding that a much longer timeframe is required to make sense

of Chinese modernity The languages examined are diverse including modern and classical Chinese as well as Manchu and Japanese Taken together they bring a spectrum of linguistic perspectives and hence a spectrum of power relations and identities to the forefront While the essays focus on late Qing and early twentieth century eras they refer often to earlier periods which are necessary to making real sense of later eras The methodological and the thematic do not only converge but also generate a plea for fostering and expanding this approach in current and future studies The Manyos Translated and Annotated Book 1 , **Chinese Grammatology** Yurou Zhong, 2019-11-12 Today Chinese characters are described as a national treasure the core of the nation's civilizational identity Yet for nearly half of the twentieth century reformers waged war on the Chinese script They declared it an archaic hindrance to modernization portraying the ancient system of writing as a roadblock to literacy and therefore science and democracy Movements spanning the political spectrum proposed abandonment of characters and alphabetization of Chinese writing although in the end the Communist Party opted for character simplification Chinese Grammatology traces the origins transmutations and containment of this script revolution to provide a groundbreaking account of its formative effects on Chinese literature and culture and lasting implications for the encounter between the alphabetic and nonalphabet worlds Yurou Zhong explores the growth of competing Romanization and Latinization movements aligned with the clashing Nationalists and Communists She finds surprising affinities between alphabetic reform and modern Chinese literary movements and examines the politics of literacy programs and mass education against the backdrop of war and revolution Zhong places the Chinese script revolution in the global context of a phonocentric dominance that privileges phonetic writing contending that the eventual retention of characters constituted an anti ethnocentric anti imperial critique that coincided with postwar decolonization movements and predated the emergence of Deconstructionism By revealing the consequences of one of the biggest linguistic experiments in history Chinese Grammatology provides an ambitious rethinking of the origins of Chinese literary modernity and the politics of the science of writing

Recognizing the showing off ways to get this ebook **Philology And Ancient China** is additionally useful. You have remained in right site to begin getting this info. acquire the Philology And Ancient China join that we present here and check out the link.
