Philosopher And Prophet Judah Halevi The Kuzari And The Evolution Of His Thought:

Philosopher and Prophet Yochanan Silman, **Philosopher and Prophet** Yochanan Silman, 2012-02-01 This book is the first to describe the development of Halevi's thought with a view to reaching a better understanding of its inherent systematic difficulties as well as enabling identification of the various strata of the book belonging to different periods in his philosophical development. The first part describes a kind of Aristotelian philosophy which seems to be espoused by Halevi himself before writing the *Kuzari*. The second part concerns itself with his early thought as expressed in certain parts of the *Book of Kuzari*. At this stage his thought is still faithful to the essentials of the Aristotelian philosophy and its primary function is to combat Karaism. Intra systematic and extra systematic difficulties peculiar to this thought give rise to the next stage in the development of his philosophy which is described in the third part. This later thought is also distinguished by its strong emphasis on concrete human experience. During this period Halevi retreats from many principles of Aristotelianism and his major intention is to justify his new position. The fourth part deals with the dialectical unity of the *Kuzari* which is also reflected by the literary genre of this book as story and dialogue.

Central Problems of Medieval Jewish Philosophy Dov Schwartz, 2006-02-01 This book deals with central issues of medieval Jewish philosophy. Among the subjects treated are divine immanence, the intellect, miracles, and esoteric writing and its limits. The work provides a new perspective on the history of Jewish philosophy in the Middle Ages. Relying on many as yet unpublished manuscripts which enable it to offer new insights relating to such thinkers as Judah Halevi, Maimonides, and Gersonides, it also presents a new and original perception of the dynamics of Jewish thought in general.

History of Jewish Philosophy Daniel Frank, Oliver Leaman, 2005-10-20 Jewish philosophy is often presented as an addendum to Jewish religion rather than as a rich and varied tradition in its own right, but the *History of Jewish Philosophy* explores the entire scope and variety of Jewish philosophy from philosophical interpretations of the Bible right up to contemporary Jewish feminist and postmodernist thought. The links between Jewish philosophy and its wider cultural context are stressed, building up a comprehensive and historically sensitive view of Jewish philosophy and its place in the development of philosophy as a whole. Includes detailed discussions of the most important Jewish philosophers and philosophical movements. Descriptions of the social and cultural contexts in which Jewish philosophical thought developed throughout the centuries. Contributions by 35 leading scholars in the field from Britain, Canada, Israel, and the US. Detailed and extensive bibliographies.

The Cambridge Companion to Medieval Jewish Philosophy Daniel H. Frank, Oliver Leaman, 2003-09-11 From the ninth to the fifteenth centuries Jewish thinkers living in Islamic and Christian lands philosophized about Judaism. Influenced first by Islamic theological speculation and the great philosophers of classical antiquity and then in the late medieval period by Christian Scholasticism, Jewish philosophers and scientists reflected on the nature of language about God, the scope and limits of human understanding, the eternity or createdness of the world, prophecy, and divine providence, the possibility of human freedom, and the relationship between divine and human law. Though many

viewed philosophy as a dangerous threat others incorporated it into their understanding of what it is to be a Jew This Companion presents all the major Jewish thinkers of the period the philosophical and non philosophical contexts of their thought and the interactions between Jewish and non Jewish philosophers It is a comprehensive introduction to a vital period of Jewish intellectual history [Scepticism and Anti-Scepticism in Medieval Jewish Philosophy and Thought](#) Racheli Haliva,2018-09-24 The series Studies and Texts in Scepticism contains monographs translations and collected essays exploring scepticism in its dual manifestation as a purely philosophical tradition and as a set of sceptical strategies concepts and attitudes in the cultural field especially in religions perhaps most notably in Judaism In such cultural contexts scepticism manifests as a critical attitude towards different dimensions and systems of secular or revealed knowledge and towards religious and political authorities It is not merely an intellectual or theoretical worldview but a critical form of life that expresses itself in such diverse phenomena as religion literature and society Further book series of the Maimonides Centre for Advanced Studies are Jewish Thought Philosophy and Religion and the Yearbook of the Maimonides Centre for Advances Studies **World History Encyclopedia [21 volumes]** Alfred J. Particularism and Universalism in Modern Jewish

Thought Svante Lundgren,2001 Explores how modern Judaism has balanced between universalism and particularism

Modern Jewish Thought on Crisis Ghilad H. Shenhav,Cedric Cohen-Skalli,Gilad Sharvit,2024-01-29 This volume brings together scholars from a range of disciplines to explore the intersections between crisis scholarship and action The aim of this book is to think about the moment of crisis through the concepts writings and methodologies awarded to us by Jewish thinkers in modernity This book offers a broad gallery of accounts on the notion of crisis in Jewish modernity while emphasizing three terms interpretation heresy and messianism The main thesis of the volume is that the diasporic and exilic experience of the Jewish people turned their philosophers and theologians into experts in crisis management who had to find resources within their own religion culture and traditions in order to react endure and overcome short and long term

historical crises The underlining assumption of this book is therefore that Jewish thought obtains resources for conceptualizing and reacting to the current forms of crisis in the global European and Israeli spheres The volume addresses a large readership in humanities social and political sciences and religious studies taking as its assumption that scholars in modern Jewish thought have an extended responsibility to engage in contemporary debates *The Jewish Law Annual* Berachyahu Lifshitz,2008-04-09 Volume 17 of *The Jewish Law Annual* adds to the growing list of articles on Jewish law that have been published in volumes 1-16 of this series providing English speaking readers with scholarly articles presenting jurisprudential historical textual and comparative analysis of issues in Jewish law The volume contains seven articles diverse in their scope and focus Two articles are devoted to the halakhic thought of Rabbi A I Kook two treat classic legal questions breach of a promise to marry and the legal capacity of minors two examine aspects of the judicial process one exploring talmudic analyses of the biblical requirement that courts be established in every town and the other post talmudic views on judicial authority in cases suspected of fraudulent claims Another article addresses the fascinating question of the epistemic pedagogic worldviews of the rival Tannaitic legal academics the House of Hillel and the House of Shammai The volume concludes with a section on Israeli legislation that adduces or is informed by Jewish law and two reviews of a much discussed recent book on a topic of considerable contemporary interest the agunah problem **The Artless Jew** Kalman P. Bland,2001-07-02 Conventional wisdom holds that Judaism is indifferent or even suspiciously hostile to the visual arts due to the Second Commandment's prohibition on creating graven images the dictates of monotheism and historical happenstance This intellectual history of medieval and modern Jewish attitudes toward art and representation overturns the modern assumption of Jewish iconophobia that denies to Jewish culture a visual dimension Kalman Bland synthesizes evidence from medieval Jewish philosophy mysticism poetry biblical commentaries travelogues and law concluding that premodern Jewish intellectuals held a positive liberal understanding of the Second Commandment and did in fact articulate a certain Jewish aesthetic He draws on this insight to consider modern ideas of Jewish art revealing how they are inextricably linked to diverse notions about modern Jewish identity that are themselves entwined with arguments over Zionism integration and anti-Semitism Through its use of the past to illuminate the present and its analysis of how the present informs our readings of the past this book establishes a new assessment of Jewish aesthetic theory rooted in historical analysis Authoritative and original in its identification of authentic Jewish traditions of painting sculpture and architecture this volume will ripple the waters of several disciplines including Jewish studies art history medieval and modern history and philosophy **Armenian and Jewish Experience between Expulsion and Destruction** Sarah M. Ross,Regina Randhofer,2021-11-22 Jews and Armenians are often perceived as peoples with similar tragic historical experiences Not only were both groups forced into statelessness and a life outside their homelands for centuries in the 20th century in the shadow of war they were threatened with collective annihilation Thus far academic approaches to these two classical diasporas have been quite different

Moreover Armenian and Jewish questions posed during the 19th and 20th centuries have usually been treated separately The conference We Will Live After Babylon that took place in Hanover in February 2019 addressed this gap in research and was one of the first initiatives to deal directly with Jewish and Armenian historical experiences between expulsion exile and annihilation in a comparative framework The contributions in this volume take on multidisciplinary approaches relating to the conference s central themes diaspora minority issues and genocide
