

Intelligent machines, or what machines can do

- Philosophers have been trying for over 2000 years to understand and resolve two *Big Questions* of the Universe: **How does a human mind work, and Can non-humans have minds?** These questions are still unanswered.
- ***Intelligence*** is their ability to understand and learn things. ***Intelligence*** is the ability to think and understand instead of doing things by instinct or automatically.
(*Essential English Dictionary*, Collins, London, 1990)
