**Robert Cummings Neville**

## **Philosophers And Religious Truth By Smart Ninian:**

**Philosophers and Religious Truth** Ninian Smart, 1964      Religious Truth Robert Cummings Neville, 2001-01-01  
Explores religious truth in a range of world religions and discusses the issue and philosophical implications of comparison itself      *Ninian Smart on World Religions: Religious experience and philosophical analysis. I. Autobiographical. 'Methods in my life'* Ninian Smart, 2009  
Ninian Smart came to public prominence as the founding Professor of the first British university Department of Religious Studies in the late 1960s His pioneering views on education in religion proved hugely influential at all levels from primary schools to academic teaching and research An unending string of publications many of them accessible to the general public sustained a reputation that became worldwide Here for the first time a selection of Ninian Smart's wide ranging writings is organised systematically under a set of categories which both comprehend and also illuminate his varied output over a career spanning half a century The editor John Shepherd was Principal Lecturer in Religion and Philosophy at the University of Cumbria He first met Smart as a postgraduate student and recently helped establish the Ninian Smart Archive at the University of Lancaster      **John of the Cross and the Cognitive Value of Mysticism** Steven Payne, 1990-07-31 This book is a significant contribution to the literature on mysticism and the epistemology thereof It is recommended to all those interested in the mystics and in the question of the cognitive value of mysticism Review of Metaphysics March 1992      *SCM Studyguide to Religious and Spiritual Experience* Jeff Astley, 2020-02-28 This Studyguide provides a succinct and lucid introduction to the subject for those studying and teaching religion at both undergraduate and GCE AS A level By exploring the key areas of both the empirical and theoretical study of religious and spiritual experience the Studyguide will serve as an accessible and nonpartisan guide to enable its readers to explore the range of challenging data debates approaches and issues that relate to the study of this widespread and significant phenomenon      **John of the Cross and the Cognitive Value of Mysticism** S. Payne, 2012-12-06 Among Anglo American philosophers interest in mysticism has typically been limited to the question of whether or not mystical and religious experiences provide evidence for or knowledge of the existence and nature of God Most authors conclude that they do not because such experiences lack certain qualities needed in order to be counted as cognitive In this study I examine some current philosophical opinions about mysticism and objections to its epistemic significance in the context of a detailed study of the writings of a single mystical author the Spanish Carmelite Saint John of the Cross 1542 1591 I argue that from his works one can draw a coherent theory of what takes place in the Christian mystical life and will indicate how acceptance of this theory might be defended as rational through a type of inference often referred to as the Argument to the Best Explanation In this way I hope to show that mysticism still has a significant bearing on the justification of religious faith even if it cannot be used to prove the existence of God The nature and advantages of my own somewhat unusual approach to mysticism can perhaps best be explained by contrasting it with the way other authors have dealt with the subject One of the

most striking developments in recent decades has been the growing fascination with mysticism meditation and the experiential aspects of religion

**Ninian Smart on World Religions** John J. Shepherd, 2017-11-30 Ninian Smart came to public prominence as the founding Professor of the first British university Department of Religious Studies in the late 1960s His pioneering views on education in religion proved hugely influential at all levels from primary schools to academic teaching and research An unending string of publications many of them accessible to the general public sustained a reputation that became worldwide Here for the first time a selection of Ninian Smart's wide ranging writings is organised systematically under a set of categories which both comprehend and also illuminate his varied output over a career spanning half a century The editor John Shepherd was Principal Lecturer in Religion and Philosophy at the University of Cumbria He first met Smart as a postgraduate student and recently helped establish the Ninian Smart Archive at the University of Lancaster

**Philosophy for Believers** Edward W. H. Vick, 2013-09-10 For a serious book of philosophy where better to begin to canvass various philosophical concepts and arguments than in relation to what is so familiar to every one of us the fact that we all have many and varied beliefs The book is an introduction of philosophy indeed intended as an introductory textbook The author as he wrote it had both the teacher and the student in mind He hopes it will prove a worthy contribution in the college seminary and university classroom both interesting and serious As well as thirteen clearly written chapters introducing the various topics it is also provided with helpful summaries tutorials and work sheets In considering belief we raise raises many of the central problems philosophers have discussed knowledge truth justification rationality meaning explanation self deception interpretation reality cause and effect personal identity theories laws hypotheses the self survival God Since belief is a universal phenomenon it has unfortunately become common to understand the unqualified term believer of the religious person It seems strange to ask the question Are you a believer outside the religious context But we do when we are thinking of a particular theory or ideology or political attitude We sometimes want to know whether she is one of us The author sometimes finds it convenient to illustrate his exposition by referring to religious beliefs One does not have to be a religious believer to see that it is relevant and indeed interesting to do so The history of philosophy provides many classical examples of such discussion The book is of wide general interest As well as doing service in the classroom it will also prove its worth within other contexts It will serve the aims of serious discussion groups as well as providing a basis for regular and earnest individual study We hope also that it will find a place with inquiring people of religious faith

**Miracles in the Christian Tradition** Cummings, Owen F., 2021 Hoping to overcome what John Meier refers to as the academic sneer factor when speaking of the miraculous Owen Cummings examines the history of the miraculous from the Old Testament through attitudes of twenty first century theologians

**Marxist-Leninist 'Scientific Atheism' and the Study of Religion and Atheism in the USSR** James Thrower, 2011-04-20 Since its founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the

study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline     **Natural Theology** Maurice Muhatia Makumba,2006     The Blackwell Companion to Science and Christianity J. B. Stump,Alan G. Padgett,2012-03-12 A cutting edge survey of contemporary thought at the intersection of science and Christianity Provides a cutting edge survey of the central ideas at play at the intersection of science and Christianity through 54 original articles by world leading scholars and rising stars in the discipline Focuses on Christianity s interaction with Science to offer a fine grained analysis of issues such as multiverse theories in cosmology convergence in evolution Intelligent Design natural theology human consciousness artificial intelligence free will miracles and the Trinity amongst many others Addresses major historical developments in the relationship between science and Christianity including Christian patristics the scientific revolution the reception of Darwin and twentieth century fundamentalism Divided into 9 Parts Historical Episodes Methodology Natural Theology Cosmology Evolution The Human Sciences Christian Bioethics Metaphysical Implications The Mind Theology and Significant Figures of the 20th Century Includes diverse perspectives and broadens the conversation from the Anglocentric tradition     Framing a Vision of the World André Cloots,1999 Since for Jan Van der Veken our vision of the world and especially the placing of God and religion in it has been the basic concern in all his work and thought this problem is also at the core of this volume

**The Question of God** Michael Palmer,2001 This invaluable text introduces the six great arguments for the existence of God It requires no specialist knowledge of philosophy and includes a wealth of primary sources from classic and contemporary texts     **Jesus the Miracle Worker** Graham H. Twelftree,1999-05-25 Graham Twelftree extensively examines the miracles of each Gospel narrative He weighs their historical reliability and considers the question of miracles and the modern mind     *Philosophy of Religion* Keith E. Yandell,2002-01-22 Philosophy of Religion provides an account of the central issues and viewpoints in the philosophy of religion but also shows how such issues can be rationally assessed and in what ways competing views can be rationally assessed It includes major philosophical figures in religious traditions as well as discussions by important contemporary philosophers Keith Yandell deals lucidly and constructively with representative views from Judaism Christianity Islam Hinduism Buddhism and Jainism This book will appeal to students of both philosophy and religion as well as to the general reader interested in the subject Unique features of Philosophy of Religion key reading and new reading in the subject area questions at the ends of chapters a glossary of philosophical terms annotated further reading     *The Idea of the Miraculous* T C Williams,1990-07-19     Hume, Holism, and Miracles David Johnson,2018-09-05 David Johnson seeks to overthrow one of the widely accepted tenets of Anglo American philosophy that of the success of the Humean case against the rational credibility of reports of miracles In a manner unattempted in any other single work he meticulously examines all the main variants of Humean reasoning on the topic of miracles Hume s own argument and its

reconstructions by John Stuart Mill J L Mackie Antony Flew Jordan Howard Sobel and others Hume's view set forth in his essay *Of Miracles* has been widely thought to be correct Johnson reviews Hume's thesis with clarity and elegance and considers the arguments of some of the most prominent defenders of Hume's case against miracles According to Johnson the Humean argument on this topic is entirely without merit its purported cogency being simply a philosophical myth What are We Doing when We Pray? Vincent Brümmer, 2008 Vincent Brümmer's classic book on prayer from 1984 provides a comprehensive philosophical analysis of central issues regarding the nature and practice of prayer This new edition has been substantially revised and updated Serving as a valuable core text for students this book also contributes to a number of current debates in theology and philosophy of religion the debates on realism and religious belief on the rationality of faith and the nature of theology on the relation between religious belief and morality on the relation between science and religion and the lively debate among evangelical Christians in America on the openness of God **Journeys East** Harry Oldmeadow, 2004-04-28 This is the first book to treat the impact of religious philosophical and psychological traditions of the East on Western intellectuals artists travellers and spiritual seekers in the twentieth century Addressed to both general readers and scholars of religion it is especially valuable for its penetrating and inter religious analysis of two of the most compelling themes now facing the world the emergence of cross cultural religious understanding of the natural order and ecological crisis and the metaphysical basis for both the formal diversity and essential unity of religious traditions of both East and West The West has long romanticized the mysterious East but it has also judged its traditions as uncivilized Our notions about Eastern spirituality have been formed by a succession of travellers scientists artists intellectuals poets philosophers and missionaries as well as by Eastern travellers who have spent time in the West This book helps us to recognize the influence of Eastern ideas upon modern Western thought by tracing the history of engagements between East and West up until the present day It concludes with a section that helps us to perceive the timeless value of the many Eastern contributions to the West's current intellectual and spiritual state
