Philosophical Foundations Of Historical Knowledge:

Philosophical Foundations of Historical Knowledge Murray G. Murphey, 1944 **Philosophical Foundations of Historical Knowledge** Murray G. Murphey, 1994-07-01 Murray G Murphey is Professor of American Civilization at the University of Pennsylvania **Historical and Philosophical Foundations of Psychology** Martin Farrell, 2014-06-19 For students of the history of psychology this textbook connects the big ideas and key thinkers of psychology and philosophy in a cohesive theoretical narrative Students are led to understand the relations between different schools of thought and to connect the various thinkers theories and facts in psychology s history **Gustav Shpet's Contribution to Philosophy and Cultural Theory** Galin Tihanov, 2009 This book offers original research by leading scholars from the United States United Kingdom Germany France and Russia which covers the central areas of Shpet s work on phenomenology philosophy of language cultural theory and aesthetics and takes forward the current state of knowledge and debates on his contribution to these fields of enquiry The book also contains for the first time in English translation the most seminal portions of Shpet s book length study of hermeneutics which is his most significant work for contemporary students of cultural theory The first part of the book maps out Shpet s legacy in the main areas of his multi faceted work the second part examines in closer detail particular aspects of Shpet s philosophical affiliations and contributions in the framework of cultural theory phenomenology hermeneutics and in the field of Russian intellectual history the final part features the publication of extracts from Shpet s 1918 book on hermeneutics Dictionary Of Modern American Philosophers John R. Shook, 2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought *A Companion to the Philosophy of History and Historiography* Aviezer Tucker, 2011-06-28 A COMPANION TO THE PHILOSOPHY OF HISTORY AND HISTORIOGRAPHY The philosophy of historiography examines our representations and knowledge of the past the relation between evidence inference explanation and narrative Do we possess knowledge of the past Do we just have probable beliefs about the past or is historiography a piece of convincing fiction The philosophy of history is the direct philosophical examination of history whether it is necessary or contingent whether it has a direction or whether it is

coincidental and if it has a direction what it is and how and why it is unfolding The fifty entries in this Companion cover the main issues in the philosophies of historiography and history including natural history and the practices of historians Written by an international and multi disciplinary group of experts these clearly written entries present a cutting edge updated picture of current research in the philosophies of historiography and history This Companion will be of interest to philosophers historians natural historians and social scientists

Writing the Arab-Israeli Conflict Jonathan B.

Isacoff,2006-03-30 Nearly all empirical work in political science is fundamentally historical yet very little attention has been given to the problem of grounding claims to historical knowledge In Writing the Arab Israeli Conflict Jonathan B Isacoff constructs the nature of historical knowledge by deftly examining the multiple histories of the Arab Israeli conflict written by generations of Israeli scholars He also undertakes briefer analysis of literature drawn from both historians and political scientists of the Vietnam War demonstrating that historical revisionism is not unique to the study of the Middle East Focusing on different schools of historical interpretation Writing the Arab Israeli Conflict argues for a pragmatist approach in the tradition of John Dewey Most importantly this exceptional work suggests a number of practical methodological measures that can be taken to produce more sophisticated and nuanced political science scholarship

Proving History Richard C.

Carrier,2012-04-03 This in depth discussion of New Testament scholarship and the challenges of history as a whole proposes Bayes s Theorem which deals with probabilities under conditions of uncertainty as a solution to the problem of establishing reliable historical criteria The author demonstrates that valid historical methods not only in the study of Christian origins but in any historical study can be described by and reduced to the logic of Bayes s Theorem Conversely he argues that any method that cannot be reduced to this theorem is invalid and should be abandoned Writing with thoroughness and clarity the author explains Bayes s Theorem in terms that are easily understandable to professional historians and laypeople alike employing nothing more than well known primary school math He then explores precisely how the theorem can be applied to history and addresses numerous challenges to and criticisms of its use in testing or justifying the conclusions that historians make about the important persons and events of the past The traditional and established methods of historians are analyzed using the theorem as well as all the major historicity criteria employed in the latest quest to establish the historicity of Jesus The author demonstrates not only the deficiencies of these approaches but also ways to rehabilitate them using Bayes s Theorem Anyone with an interest in historical methods how historical knowledge can be justified new applications of Bayes s Theorem or the study of the historical Jesus will find this book to be essential reading

Towards a Revival of Analytical Philosophy of History Krzysztof Brzechczyn,2017-11-06

Towards a Revival of Analytical Philosophy of History Around Paul A Roth s Vision of Historical Sciences presents the state of the art in the philosophy of history The purpose of this book is to discuss the revival of analytical philosophy of history proposed by Paul A Roth a world known analytical philosopher of the social sciences and the humanities The first four papers outline the reasons for the decline of philosophy of history its present

phase of development and its possible future The other authors discuss important questions of this field of research including the ontological status of the past the epistemological assumptions of historical research the explanatory dimensions of the narrative In the last group of papers the authors apply some of Roth s theoretical ideas within their own fields of research Contributors are Krzysztof Brzechczyn Nancy D Campbell Serge Grigoriev G za K llay Piotr Kowalewski Jouni Matti Kuukkanen Chris Lorenz Herman Paul Dawid Rogacz Paul A Roth Laura Stark Stephen Turner Rafa Pawe Wierzechowski and Eugen Zele k

Our Knowledge of the Past Aviezer Tucker,2004-04-26 How do historians comparative linguists biblical and textual critics and evolutionary biologists establish beliefs about the past How do they know the past This book presents a philosophical analysis of the disciplines that offer scientific knowledge of the past Using the analytic tools of contemporary epistemology and philosophy of science the book covers such topics as evidence theory methodology explanation determination and underdetermination coincidence contingency and counterfactuals in historiography Aviezer Tucker s central claim is that historiography as a scientific discipline should be thought of as an effort to explain the evidence of past events He also emphasizes the similarity between historiographic methodology to Darwinian evolutionary biology This is an important fresh approach to historiography and will be read by philosophers historians and social scientists interested in the methodological foundations of their disciplines

Frontiers of Historical Imagination Kerwin Lee Klein,2023-11-15 The American frontier a potent symbol since Europeans first stepped ashore on North America serves as the touchstone for Kerwin Klein s analysis of the narrating of history Klein explores the traditions through which historians philosophers anthropologists and literary critics have understood the story of America s origin and the way those understandings have shaped and been shaped by changing conceptions of history The American West was once the frontier space where migrating Europe collided with Native America where the historical civilizations of the Old World met the nonhistorical wilds of the New It was not only the cultural combat zone where American democracy was forged but also the ragged edge of History itself where historical and nonhistorical defied and defined each other Klein maintains that the idea of a collision between people with and without history still dominates public memory But the collision he believes resounds even more powerfully in the historical imagination which creates conflicts between narration and knowledge and carries them into the language used to describe the American frontier In Klein s words We remain obscurely entangled in philosophies of history we no longer profess and the very idea of America balances on history s shifting frontiers The American frontier a potent symbol since Europeans first stepped ashore on North America serves as the touchstone for Kerwin Klein s analysis of the narrating of history Klein explores the traditions through which historians philosophers anthropol

History as a Science Jan van der Dussen,2020-05-11 Since its appearance in 1981 History as a Science by Jan van der Dussen has been welcomed as a coherent and comprehensive study of the many aspects of Collingwood s philosophy of history including its development and reception The book was the first to pay attention to Collingwood s unpublished manuscripts and to his work

as an archaeologist and historian herewith opening up a new angle in Collingwood studies The republication of this volume meets an increasing demand to make the book available for future Collingwood scholars and people interested in Collingwood's philosophy The present edition of *History as a Science* includes updated references to the published manuscripts and an added preface

Hermeneutics and Its Problems Gustav Shpet, 2019-02-13 This book details a history of the methodology of textual interpretation from Ancient Greece to the 20th century It presents a complete English translation of *Hermeneutics and Its Problems* written by Russian philosopher Gustav Gustavovich Shpet along with insightful commentary Written in 1918 Shpet's text remained unpublished in its original Russian until the collapse of the Soviet Union This engaging translation will be of value to anyone interested in early phenomenology Russian intellectual history as well as the divergence of phenomenology and the analytic philosophy of language The volume also features translations of five key essays written by Shpet The first presents an extended elaboration of a non-epistemological conception of consciousness on Husserlian grounds that considerably predates the well-known arguments of early Sartre and Gurwitsch The second details the rudiments of a phenomenological philosophy of history that traces a central theme back to Parmenides The next two reveal Shpet's abiding philosophical interest in combating skepticism and what he took to be the reigning neo-Kantian model by which philosophy is a handmaiden to mathematical physics The final one features a terse statement of Shpet's overall philosophical viewpoint written during the early years of the Stalinist period Shpet offers an example of one facet of philosophy from a phenomenological viewpoint demonstrating the progress as well as the deficiencies of successive eras along the historical journey In doing so he also gradually reveals the need for a theory of signs interpretation and understanding This collection brings together key documents for assessing Shpet's hermeneutic phenomenology and his perceived need to develop a phenomenological philosophy of language

Theoretical Knowledge Vyacheslav S. Stepin, 2005-11-13 In *Theoretical Knowledge* an original conception of a structure and dynamics of scientific knowledge is proposed A detailed analysis of the foundations of science performed by the author allowed him to develop new ideas and approaches to demonstrate how sociocultural factors are incorporated in the process of yielding of new theories He shows direct and inverse links between foundations of science and new theories and empirical facts evolved from those how among many potentially possible histories of science a culture selects just those directions which become a real history of science The author analyses mechanisms of the generation of scientific theories and shows that those are changed in the process of historical development of science He displays three historical types of scientific rationality classical non-classical and post non-classical

which appears in modern science and shows features of their coexistence and interplay It is shown that along with the emerging of post non classical rationality science increases the sphere of its worldview applications Science begins to correlate not only with the basic values of technogenic civilization but also with some values and patterns of traditional cultures The investigation is based on the extensive literature on the history of natural and social sciences The reader will find in the book authentic historical reconstructions of the processes of the development of classical and quantum electrodynamics relativity and conceptions of evolution in biology The Philosophical Review ,1926 *Philosophical Foundations of Quality of Life* Alex C. Michalos,2017-06-14 This first volume has as its main focus the philosophical foundations of Michalos work and describes it in the broad context of the study of logic the philosophy of social sciences and a general theory of value After distinguishing things that have value from the value that things might have it describes the foundations of a pragmatic theory of value This theory plays a key role in the author s research on the quality of life and connects his empirical research to the philosophical tradition of the American pragmatists William James Ralph Barton Perry John Dewey and Clarence Irving Lewis The volume addresses various aspects and issues concerning decision making including decision procedures used in committees used for assessing the acceptability of scientific theories and new technologies procedures for a science court ethical issues involved in the formation of beliefs some limitations of classical economists alleged postulates of rational preference and the importance of analytic guides to decision making Finally it describes the organization of the Social Sciences Federation of Canada and a formal accounting system for scientific research

The Formation of the Historical World in the Human Sciences Wilhelm Dilthey,2002 This volume provides Dilthey s most mature and best formulation of his Critique of Historical Reason It begins with three Studies Toward the Foundation of the Human Sciences in which Dilthey refashions Husserlian concepts to describe the basic structures of consciousness relevant to historical understanding The volume next presents the major 1910 work The Formation of the Historical World in the Human Sciences Here Dilthey considers the degree to which carriers of history individuals cultures institutions and communities can be articulated as productive systems capable of generating value and meaning and of realizing purposes Hegel s idea of objective spirit is reconceived in a more empirical form to designate the medium of commonality in which historical beings are immersed Any universal claims about history need to be framed within the specific productive systems analyzed by the various human sciences Dilthey s drafts for the Continuation of the Formation contain extensive discussions of the categories most important for our knowledge of historical life meaning value purpose time and development He also examines the contributions of autobiography to historical understanding and of biography to scientific history The finest summary of Dilthey s views on hermeneutics can be found in The Understanding of Other Persons and Their Manifestations of Life Here Dilthey differentiates understanding relative to three kinds of manifestations of life After giving his analysis of elementary understanding he examines the role of induction in higher understanding and

interpretation and the relevance of transposition and re experiencing for grasping individuality
