Cameron,2021-09-09 *Open Your Heart to Nature and Beyond* maintains there is one problem separation from the Divine and one solution applying some form of forgiveness It details the holding relationships that actually separate us from the Divine and how to use the Law of Forgiveness to let them go and open our hearts to God s presence Like a computer delete key the activity of forgiveness allows us to let go physically emotionally and mentally until we join Universal Being This Divine encounter is divided into 7 distinct stages with descriptions based on experiences of the author as well as poets and individuals from other major religions This book also suggests that a religious experience is simply having an experience of the Zero Energy Field as defined in quantum physics The Zero Energy Field is defined as the activity of subatomic particles such as photons electrons and other quantum particles in space at temperatures of absolute zero Research indicates that humans can affect this field with pray which is the mental activity of calling these energy particles to organize and outpicture as manifestations in nature We also have the ability to apply the Law of Forgiveness that Jesus introduced and release the electrons neutrons and protons forming something in the world and in our minds and thereby causing them to disorganize them and return to the Zero Energy Field The human activity of forgiving or letting things thoughts and emotions go shows that we have the mental ability to apply the Law of Entropy and disorganized manifested things and release them back into subatomic particles in the Zero Energy Field *Waking The Warrior Goddess (Volume 2 of 2) (EasyRead Super Large 18pt Edition)* ,
