Radical Challenges for Social Work Education Jane Fenton, 2022-04-19 This book is full of ideas about how social work education can confront the individualising and often blaming form of social work that neoliberalism ushered in four decades ago. Radical social work is an approach to social work that has at its heart the departure from solely behavioural, moral or psychological understanding of service users' problems. Social work had originally been concerned with the moral character of people in trouble, usually poor people, making a clear division between those who were deserving of help and those who were undeserving. The rise of science and the psy disciplines then led to psychological explanations for the difficulties people found themselves in. Both explanations for social problems, moral and psychological, with their narrow focus on the individual, have been enjoying a renaissance in recent times with the neoliberal self-sufficiency narrative, moral and the more recent focus on trauma, psychological. Radical social work challenges those explanations concerned as it is with the circumstances a person might find themselves in: poverty, poor housing, poor education, high crime rates and lack of opportunities of all kinds. This book is a step towards resurrecting radical social work principles and it urges us to think about how social work education can be reshaped to that end. *Radical Challenges for Social Work Education* is a significant new contribution to social work practice and theory and will be a great resource for academics, researchers and advanced students of Politics, Education, Social Work, Sociology, Public Policy, Development Studies, Anthropology and Human Geography. The chapters in this book were originally published as a special issue of the journal *Social Work Education*.

The Road Not Taken Michael Reisch, Janice Andrews, 2002 First Published in 2002 Routledge is an imprint of Taylor Francis, an informa company

The Politics of Social Work Fred W Powell, 2001-05-25 *The Politics of Social Work* provides a major contribution to debates on the politics of social work at the beginning of the 21st Century. It locates social work within wider political and theoretical debates and deals with important issues currently facing social workers and the organisations in which they work. By setting the current crisis of identity social workers are experiencing in international context, Fred Powell analyses the choices facing social work in postmodern society. Fred Powell explores in this text contemporary and historical paradigms of social work from its Victorian origins to the development of reformist practice in the welfare state to radical social work responses to social exclusion, the renaissance of civil society, multiculturalism, feminism and anti-oppressive practice. In conclusion, he examines the options facing social work in the 21st century and argues for a civic model of social work based on the pursuit of social justice in an inclusive society.

The Quest for a Radical Profession David Wagner, 1990 This book, based on in-depth interviews of radical social workers who at one time were associated with the Catalyst collective, explores through oral history the social psychological effects of upward mobility on political ideology.
