the Gates Closed Between Us tells the story of how Native Americans resisted this effort by building vast intertribal networks of communication threaded together by letter writing and off reservation visiting. Faced with the consequences of U S colonialism, the constraints of population loss and destitution, Native Americans far from passively accepting their fate mobilized to control their own sources of information, spread and reinforce ideas and collectively discuss and mount resistance against onerous government policies. Justin Gage traces these efforts drawing on extensive new evidence including more than one hundred letters written by nineteenth century Native Americans. His work shows how Lakotas, Cheyennes, Utes, Shoshones, Kiowas and dozens of other western tribal nations shrewdly used the U S government's repressive education system and mechanisms of American settler colonialism, notably the railroads and the Postal Service to achieve their own ends. Thus Natives used literacy, a primary tool of assimilation for U S policymakers, to decolonize their lives much earlier than historians have noted. Whereas previous histories have assumed that the Ghost Dance itself was responsible for the creation of brand new networks among western tribes, this book suggests that the intertribal networks formed in the 1870s and 1880s actually facilitated the rapid dissemination of the Ghost Dance in 1889 and 1890. Documenting the evolution and operation of intertribal networking, Gage demonstrates its effectiveness and recognizes for the first time how, through Native activism, long distance intercultural communication persisted in the colonized American West.

*R026: Guidebook: Las Vegas to Death Valley and return* John W. Erwin, John W. Erwin, Richard L. Bateman, R. Bruce Scheibach, Sparks Joyce M. Cox, 2017-07-10. In the late 1800s the area now known as Sparks consisted of ranches and farms. It was not until the early 1900s that Sparks would become the sixth largest city in Nevada almost overnight. E. H. Harriman moved the Salt Lake Division of the Southern Pacific Railroad from Wadsworth to swampland four miles east of Reno and that area would become Sparks. The railroad was the largest and most reliable employer for 54 years before leaving in 1957. Some railroad employees were transferred and reassigned to jobs outside of Sparks but many chose to stay. Employment was found in Nevada's thriving hospitality industry including John Ascuaga's Nugget Casino. Sparks became a major distribution center for national companies like S. S. Kresge and Pacific Freeport and many manufacturing companies opened after Nevada passed the right to work law in 1951. Sparks is now the fifth largest city in Nevada.

*Hard Places* Richard V. Francaviglia, 1997-09. Working with the premise that there are much meaning and value in the repelling beauty of mining landscapes, Richard Francaviglia identifies the visual clues that indicate an area has been mined and tells us how to read them, showing the interconnections among all of America's major mining districts. With a style as bold as the landscape he reads and with photographs to match, he interprets the major forces that have shaped the architecture, design and topography of mining areas. Covering many different types of mining and mining locations, he concludes that mining landscapes have come to symbolize the turmoil between what our society elects to view as two opposing forces: culture and nature.
