Out of Australia Steven Strong, Evan Strong, 2017-03-01 In their startling new book Steven and Evan Strong challenge the out of Africa theory Based on fresh examination of both the DNA and archeological evidence they conclude that modern humans originated from Australia not Africa The original Australians referred to by some as Aborigines like so many indigenous peoples are portrayed as backward and primitive Yet as the

Strong's demonstrate original Australians had a rich culture which may have sown the first seeds of spirituality in the world. They had the technology to make international seafaring voyages and have left traces in the Americas and possibly Japan, Southern India, Egypt, and elsewhere. They practiced brain surgery, invented the first hand tools, and had knowledge of penicillin. This book brings together 30 years of intensive research in consultation with elders in the original Australian community. Among their conclusions are the following: There is evidence that humans existed in Australia 40,000 years before they existed in Europe. There were migrations of original Australians in large boats throughout the Indian Pacific rim. Three distinct kinds of Homo sapiens are found in Australia. There is evidence from the Americas that debunks the out of Africa theory. The spiritual influence of the Aborigines is reflected in the religions of the world.

*Genesis, Or The First Book of Moses* Johann Peter Lange, 1873 The Messianic Temple Allen Austin, 2011

The Earliest Egyptian creation stories are not just similar to the book of Genesis; they are the same in time, they became convoluted, conflated, and disconnected from their ancient past. Taking the Bible at its word, my research revealed some astonishing facts concerning the Egyptian Zep Tepi or creation story. Did you know it contains the story of Adam and Eve? They are called Wa and Aa and were led out of the Djeba domain (Paradise) to the Wetjeset Neter domain (Our Reality) because of the snake, the Great Leaping One. It also states the world was destroyed by a global flood, and when the primeval waters receded, the Shebtu family began rebuilding the world. It doesn't end there; there are more perfect parallels to the creation stories in Genesis and Early Jewish Writings.

**Approaches to Literary Readings of Ancient Jewish Writings** Klaas Smelik, Karolien Vermeulen, 2013-09-26

In this volume, twelve contributions discuss the relevance, accuracy, potential, and possible alternatives to a literary reading of ancient Jewish writings, especially the Hebrew Bible. Drawing on different academic fields: biblical studies, rabbinic studies, and literary studies, and on various methodologies: literary criticism, rhetorical criticism, cognitive linguistics, historical criticism, and reception history, the essays form a state-of-the-art overview of the current use of the literary approach toward ancient Jewish texts. The volume convincingly shows that the latest approaches to a literary reading can still enhance our understanding of these texts.

*Journey Through the Sol* Alisha R. Kaiser, 2010-11

JOURNEY THROUGH THE SOL takes the reader beyond the preliminary works of the Celestine Prophecy and Carlos Castaneda to a vision that opens the mysteries of the cosmos, revealing the universal blueprint of creation through the super-conscious where reality truly exists. The story takes shape around a clarion call to action from Eternal Spirit to twelve star systems within the Andromeda and Milky Way Galaxies. Those who answered the call would act as emissaries of light to anchor in a new reality known as the Golden Age of light and love. The mission would entail a great transformation of the star's blueprint, enabling it to undergo a planetary evolution that would awaken the planetary dream and its relationship with the Cosmos. The real-life adventure begins when Eya journeys to

earth and awakens her soul memory through dreams visions and telepathic guidance surrounding coinciding life events The awakening culminates into a multi dimensional soul vision entwined with earth s destiny revealing man s purpose on a universal scale      *Divine Violence and the Christus Victor Atonement Model* Martyn J. Smith, 2016-09-23 In this book Martyn Smith addresses the issue of God s violence and refuses to shy away from difficult and controversial conclusions Through his wide ranging and measured study he reflects upon God and violence in both biblical and theological contexts assessing the implications of divine violence for understanding and engaging with God s nature and character Jesus too through his dramatic actions in the temple is presented as one capable of exhibiting a surprising degree of violent behavior in the furtherance of God s purposes Through a reappropriation of the ancient Christus Victor model of atonement with its dramatic representation of God s war with the Satan Smith proposes that Christian understanding of both God and salvation has to return to its long neglected past in order to move forward both biblically and dynamically into the future
