Regional Dimension Of Transformation In Central Europe:

The Regional Dimension of Transformation in Central Europe Grzegorz Gorzelak,1996 Providing a new picture of the socio economic map of central Europe focusing on Poland after several years of transformation this book gives an account of the major problems of regional restructuring The author identifies the opportunities and problems faced by particular regions relating the Polish experience to the experiences of other central European countries and provides a general picture of spatial patterns of transformation in this part of Europe [The Regional Dimension of Transformation in Central Europe](#) Grzegorz Gorzelak,2012-10-12 Providing a new picture of the socio economic map of central Europe after several years of transformation and focusing in particular on Poland this book gives an account of the major problems of regional restructuring The author identifies the opportunities and problems faced by particular regions by relating the Polish experience to the experience of other central European countries This in turn provides a general picture of spatial patterns of transformation in this specific part of Europe and will interest those concerned with the transformation of Eastern Europe

The Routledge Handbook to Regional Development in Central and Eastern Europe Gábor Lux,Gyula Horváth,2017-07-06 Twenty five years into transformation Central and Eastern European regions have undergone substantial socio economic restructuring integrating into European and global networks and producing new patterns of regional differentiation and development Yet post socialist modernisation has not been without its contradictions manifesting in increasing social and territorial inequalities Recent studies also suggest there are apparent limits to post socialist growth models accompanying a new set of challenges within an increasingly uncertain world Aiming to deliver a new synthesis of regional development issues at the crossroads between post socialism and post transition this book identifies the main driving forces of spatial restructuring in Central and Eastern Europe and charts the different regional development paths which take shape against the backdrop of post crisis Europe A comparative approach is used to highlight common development challenges and the underlying patterns of socio economic differentiation alike The issues investigated within the Handbook extend to a discussion of the varied economic consequences of transition the social structures and institutional systems which underpin development processes and the broadly understood sustainability of Central and Eastern Europe s current development model This book will be of interest to academics and policymakers working in the fields of regional studies economic geography development studies and policy *Integration and Transition in Europe* Grzegorz Gorzelak,Gunther Maier,George Petrakos,2013-01-11 International line up of contributors Tackles the big issues facing Europe eg north south and east west divides Chapters incorporate specific case studies with broader European analysis *Regional Development in Central and Eastern Europe* Grzegorz Gorzelak,John Bachtler,Maciej Smętkowski,2018-10-24 This book provides an up to date assessment of the main processes and dilemmas of regional development and regional policy in the newer European Union Member States in Central and Eastern Europe and neighbouring countries It highlights

the difficulties of balancing the demands within the new Member States for rapid regional growth and development with firstly the demands of the European Union overall that restructuring and development should conform to the aims and principles of EU common policies and secondly with budgetary constraints The book covers a wide range of issues including global and national challenges to regional convergence and cohesion regional dynamics city networks and border issues the effectiveness of policy responses at national and European levels including an assessment of policy experiences from outside the new Member States and likely future developments

Mapping Modernities Alan Dingsdale, 2013-02-01 When the communist governments of Eastern Europe and the Soviet Union collapsed between 1989 and 1991 there was a revived interest in a region that had been largely neglected by western geographers Mapping Modernities draws on the resulting work and other original theoretical and empirical sources to describe interpret and explain the place and spatial order of modernities in Central and Eastern Europe since 1920 to give a theoretically underpinned regional geography of the area The book interprets the geography of Central and Eastern Europe from 1920 to 2000 in terms of spatial modernity It details the individual and collective development of places produced within the three modernising projects of Nationalism Communism and Neo liberalism

East Central Europe and the former Soviet Union Michael Bradshaw, Alison Stenning, 2016-04-15 A comprehensive introduction to the important economic social and political processes and development issues in this increasingly popular area of study Employing a groundbreaking thematic approach the book centres its discussion on the interrelation between contemporary development theories and continuing transition issues in this huge and complex region

The Futures of the City Region Michael Neuman, Angela Hull, 2013-09-13 Does the city region constitute a new departure in urbanisation If so what are the key elements of that departure The realities of the urban in the 21st century are increasingly complex and polychromatic The rise of global networks enabled by supranational administrations both governmental and corporate strongly influences and structures the management of urban life How we conceive the city region has intellectual and practical consequences First in helping us grasp rapidly changing realities and second in facilitating the flow of resources ideas and learning to enhance the quality of life of citizens Two themes interweave through this collection within this broad palette First are the socio spatial constructs and their relationship to the empirical evidence of change in the physical and functional aspects of urban form Second is what they mean for the spatial scales of governance This latter theme explores territorially based understandings of intervention and the changing set of political concerns in selected case studies In efforts to address these issues and improve upon knowledge this collection brings together international scholars building new data driven cross disciplinary theories to create new images of the city region that may prove to supplement if not supplant old ones The book illustrates the dialectical interplay of theory and fact time and space and spatial and institutional which expands on our intellectual grasp of the theoretical debates on city regions through practical knowing citing examples from Europe the United States Australasia and beyond This book was originally

published as a Special Issue of Regional Studies **Central and Eastern Europe Handbook** Patrick Heenan, Monique Lamontagne, 2014-05-12 The Regional Handbooks of Economic Development series provides accessible overviews of countries within their larger domestic and international contexts focusing on the relations among regions as they meet the challenges of the twenty first century The series allows the non specialist student to explore a wide range of complex factors social and political as well as economic that affect the growth of developing regions in Asia Europe and South America Each Handbook provides an overview chapter discussing the region's economic conditions within an historical and political context as well as 20 or more chapter length essays written by recognized experts which analyze the key issues affecting a region's economy its population natural resources foreign trade labor problems and economic inequalities and other vital factors In addition the volumes offer useful support materials including a series of appendices that include a detailed chronology of events in the region a glossary of terms biographical entries on key personalities an annotated bibliography of further reading and a comprehensive analytical index **The Economic Geography of the IT Industry in the Asia Pacific Region** Philip Cooke, Glen Searle, Kevin O'Connor, 2013-07-18 The development of the information technology IT industry in the Asia Pacific region faces two challenges Firstly can its established physical technical regional and governance infrastructures be adapted to meet the challenges embedded in the set of products and processes created by the IT industry Secondly as this adaptation evolves which cities and regions will be best suited to connect to or lead global responses to these challenges The chapters in this book have set out to explore these questions providing details of change in a range of aspects of the IT industry such as mobile phones software services and flat screen design in regions in Japan Korea Taiwan India China and Australia The book also outlines the policy responses of national and regional governments in Singapore India and China and India These case studies provide a basis to understand effective strategies which could be formulated for the future This book's originality emerges from the fine detail provided about firms in particular regions and cities from research carried out by young scholars in the past two years This makes it very useful for readers keen to understand the recent changes in this dynamic industry in a fast growth part of the world and it will also help to shape thinking by policy makers on policy settings that can be applied **Transformations in Hungary** Peter Meusbürger, Heike Jöns, 2012-12-06 During the first decade after the turn towards democracy and market economy Hungary's society experienced profound changes The book analyses related political legal institutional and socio economic structures and processes in order to contribute to a further understanding of Hungary's ongoing transformation processes and its current situation as one of the leading candidates for EU membership The topics include constitutive elements of a modern market economy as well as education income structures the poverty situation post communist voting behaviour regional and urban development and Hungary's cross border co operations The role of Budapest within the European city system and Hungary's economic situation within Europe are also discussed Drawing together comprehensive empirical data and a great variety of viewpoints

the book offers innovative examples of the application of different theoretical approaches to transformation studies and studies of economy and society in general **Economic Growth and Structural Features of Transition** E. Marelli, M. Signorelli, 2010-01-20 This book examines theoretically and empirically the key aspects and differences of economic growth It provides a comprehensive investigation of the numerous features of development in transition countries covering the last two decades from the fall of the Berlin Wall in 1989 to the current financial crisis Central and Eastern Europe , 2009-09-28 The collapse of communism in 1989 paved the way for the reunification of the continent This book analyzes the impact of the different dynamics of change since 1989 on public policy and on various economic and political sectors Ideologies of Eastness in Central and Eastern Europe Tomasz Zarycki, 2014-03-21 This book explores how the countries of Eastern Europe which were formerly part of the Soviet bloc have since the end of communist rule developed a new ideology of their place in the world Drawing on post colonial theory and on identity discourses in the writings of local intelligentsia figures the book shows how people in these countries no longer think of themselves as part of the east and how they have invented new stereotypes of the countries to the east of them such as Ukraine and Belarus to which they see themselves as superior The book demonstrates how there are a whole range of ideologies of eastness how these have changed over time and how such ideologies impact in a practical way relations with countries further east Europe since 1989 Philipp Ther, 2018-08-21 An award winning history of the transformation of Europe between 1989 and today In this award winning book Philipp Ther provides the first comprehensive history of post 1989 Europe offering a sweeping narrative filled with vivid details and memorable stories Europe since 1989 shows how liberalization deregulation and privatization had catastrophic effects on former Soviet Bloc countries Ther refutes the idea that this economic shock therapy was the basis of later growth arguing that human capital and the transformation from below determined economic success or failure He also shows how the capitalist West s effort to reshape Eastern Europe in its own likeness ended up reshaping Western Europe especially Germany Bringing the story up to the present Ther compares Eastern and Southern Europe after the 2008 9 global financial crisis A compelling account of how the new order of Europe was wrought from the chaotic aftermath of the Cold War Europe since 1989 is essential reading for understanding post Brexit Europe and the present dangers for democracy and the European Union **Regional and Urban Economics and Economic Development** Mary E. Edwards, 2017-09-25 Thorough and authoritative Regional and Urban Economics and Economic Development Theory and Methods provides students with a sound approach to analyzing the economic progress of a region or urban area The textbook is divided into four sections for ease of reference The first section Market Areas and Firm Location Analysis introduces spatial economics and location theory while the next section Regional Growth and Development analyzes regional growth and development models and policy Introducing the foundations of urban economics Urban Land Use and Urban Form examines land rent land use patterns and the effects of attempts to control land uses The final section Urban Problems and Policy investigates local

public finance and introduces the policy analysis involved in countering urban problems Addressing these topics from the perspectives of how they affect the population at large and how they become established within public policy Regional and Urban Economics and Economic Development Theory and Methods provides students with an essential foundation not only to understand but also to contemplate the dynamics of varying economic factors as they relate to an area's growth

Territorial Cohesion in Rural Europe Andrew K. Copus, Philomena de Lima, 2014-08-13 This book reflects on how the economies social characteristics ways of life and global relationships of rural areas of Europe have changed in recent years This reveals a need to refresh the concepts we use to understand measure and describe rural communities and their development potential This book argues that Europe has outgrown many of the stereotypes usually associated with it with substantial implications for European Rural Policy Rural structural change and its evolving geography are portrayed through regional typologies and the concept of the New Rural Economy Demographic change migration business networks and agricultural restructuring are each explored in greater detail Implications for equality and social exclusion and recent developments in the field of governance are also considered Despite being a subject of active debate interventions in the fields of rural and regional development have failed to adapt to changing realities and have become increasingly polarized This book argues that rural regional policy needs to evolve in order to address the current complex reality partially reformulating territorial or place based approaches and the New Rural Paradigm following a set of principles termed Rural Cohesion Policy

The European Territory Jacques Robert, 2014-05-09 Originally published in French as *Le territoire européen des racines aux enjeux globaux* this book reflects the enormous changes that Europe has seen in the past half century In a period of immense upheaval the continent has experienced increased integration largely through the development of the European Union heightened urbanization and a changing rural landscape while economic and commercial activities have impressed their stamp on the whole scene In this book Jacques Robert deploys the experience amassed throughout his 35 years experience as adviser to European institutions in the field of territorial and regional development The chapter on cities explains the emergence of the European urban hierarchy and the driving forces and inertia behind its evolution while a following chapter looks at the changing role of rural areas This material provides a historic overview of relevant policies and a discussion of future challenges The third chapter discusses evolving paradigms of regional economic development and their impact on European regions Next there is a chapter on the historical roots and current processes within territorial integration The book concludes with an examination of Europe's place in the world at large focussing particularly on globalization effects climate change and new energy paradigms which will present real challenges for decades to come The book is unique in its combination of in depth analysis of the evolution of European territorial policies and paradigms but also in its geographically comprehensive approach integrating the experience of both Western and Eastern Europe It will be of interest to academics and professionals within territorial development and spatial

planning Contemporary Studies in Environment and Tourism Recep Efe,Munir Ozturk,2017-05-11 The tourism industry is striving hard to create attractive worlds for its customers Both as a necessity and as a challenge this field is overwhelmed by the imagination economy but raises several questions about tourists providing opportunities to move deeper into the understanding of complexities involved in relationships among tourists tourism sites and their historical structure and environmental sustainability As a result of this a serious academic interest in tourism has developed over recent decades as a complex aspect of investigation into humans and their environment This volume brings together case studies from different parts of the world focusing on tourism and its interactions with the environment It provides a general outline of theoretical issues and their practicality in different industrialising countries from both the East and the West The book will appeal to researchers involved in tourism studies and environmental interactions as well as academicians and tourism agencies

Place-based Economic Development and the New EU Cohesion Policy Philip McCann,Attila Varga,2018-02-02 The new EU Cohesion Policy is one of the largest integrated development policies in the Western world and one of the largest of such programmes anywhere in the world The reforms to the EU Cohesion Policy contain many different elements each of which interlink in order to provide a cohesive overall framework Some of the key elements in the reforms however relate to the conditionalities employed and their effects on policy governance and the control mechanism the smart specialization approach to policy prioritization and resource allocation the underlying place based logic of the policy and the overall results orientation and evaluation emphasis of the policy In each of the areas of the EU Cohesion Policy reforms many different scholars from the fields of regional studies regional science and economic geography have played important roles in shaping the new policy and the chapters here highlight these increasing interactions between the policy and academic spheres of debate The collection of essays in this book each deal with specific aspects of these critical elements of the Cohesion Policy reforms In particular they examine some of the strengths and weaknesses of these individual elements and allowing for a better understanding of the origins and backgrounds of many of the ideas underpinning these reforms This book was previously published as a special issue of Regional Studies
