Regional Disparities In Small Countries:

Regional Disparities in Small Countries Daniel Felsenstein, Boris A. Portnov, 2005-12-28 1 2 Daniel Felsenstein and Boris A Portnov 1 Department of Geography Hebrew University of Jerusalem Israel 2 Department of Natural Resources and Environmental Management University of Haifa Israel During the Candiot War of 1645 1669 the Ottoman Sultan Ibrahim I ordered his chief admiral to attack Malta Fearing imminent defeat by the superior Venetian forces stationed on the island the admiral decided to trick the sultan out of the idea As the story goes he placed a candle on his naval map allowing the wax to drip on the tiny island until it was completely covered Then he exclaimed in false surprise Malta Yok There is no Malta and convinced the sultan to sail his fleet to the Island of Crete instead Although Malta is not featured in this volume most of the countries it covers are of wax drip size Intuitively it may be expected that everything in small countries is diminutive distances population economies and even regional inequalities Thus at a symposium on The Challenge of Development convened in Israel in 1957 to mark the inauguration of a new building for the Department of Economics at the Hebrew University of Jerusalem the eminent US economist Simon Kuznets stated that developed small states seem to have succeeded in spreading the fruits of economic growth more widely among their populations than the larger states at comparable levels of income per capita Regional Disparities in Small Countries Daniel Felsenstein, 2005-05-09 This book challenges the common perception that significant regional disparities do not exist in small countries As small developed countries become increasingly competitive and their economic structures resemble those of the large a re assessment of the regional consequences of these changes is of timely importance Regional Disparities in Small Countries presents a systematic discussion of the unique theoretical methodological and measurement challenges in analyzing regional inequalities in small countries and a series of empirical analyses addressing the issue of regional convergence and divergence in these countries With contributions from leading regional scientists and economists this book also examines the policy experience of small countries in closing regional gaps and the effectiveness of public interventions in this field see Reviews **Regional Disparities in Small Countries, Edited by Daniel Felsenstein and Boris A. Portnov** Jens Suedekum, 2006 *Regional Disparities in a Small Country?* Wouter Vermeulen, 2006 Innovation Systems in Small Catching-Up Economies Elias G. Carayannis, Urmas Varblane, Tonu Roolah, 2011-12-14 In several parts of the world countries are undergoing economic social and political transitions enhanced and accelerated by the forces of globalization These transition economies can serve as laboratories for understanding the innovation process This volume features original theoretical and empirical research It offers the first comprehensive view of innovation system development in the context of small catching up economies Smallness path dependency and latecomer status of such economies create some inherent limitations for their innovation systems but these special characteristics can offer advantages as well For example smallness is often related with increased flexibility and shorter reaction times while latecomers can benefit from earlier experiences of their more advanced neighbors

Path dependency highlights the fact that the innovation system development processes are considerably influenced by the past experience of a particular country or region. By incorporating these features into an integrated analysis, the authors address such questions as: What special features characterize the innovation system development in small catching up economies? What are the causes for innovation success or failure? How do organizational capabilities and internationalization tendencies relate to company level innovations? What is the role of human capital and social factors in the innovation process? How can various policies support innovation in an integrated manner? Drawing from research about Europe, Asia, and Latin America, the authors provide readers with a systemic view of the innovation system development in small catching up economies. They discuss the unique features of this development and contribute to an in-depth understanding of various determinants and their impacts on the innovation process. The policy implications will offer a set of normative guidelines for enhancing innovation system development.

Research in Economic History Christopher Hanes, Susan Wolcott, 2018-08-06. Volume 34 contains articles on the economic history of Europe, North America, and South America and brings new analysis and newly created datasets to address issues of interest. The Politics of Place and the Limits of Redistribution Melissa Ziegler Rogers, 2015-10-14. Numerous scholars have noticed that certain political institutions including federalism, majoritarian electoral systems, and presidentialism are linked to lower levels of income redistribution. This book offers a political geography explanation for those observed patterns. Each of these institutions is strongly shaped by geography and provides incentives for politicians to target their appeals and government resources to localities. Territorialized institutions also shape citizens' preferences in ways that can undermine the national coalition in favor of redistribution. Moreover, territorial institutions increase the number of veto points in which anti-redistributive actors can constrain reform efforts. These theoretical connections between the politics of place and redistributive outcomes are explored in theory, empirical analysis, and case studies of the USA, Germany, and Argentina. *Regional Development Agencies* Nicola Bellini, Mike Danson, Henrik Halkier, 2012. Across Europe, regional development agencies (RDAs) have become a central feature of regional policy, both as innovative policy makers and as the implementers of programmes and initiatives originating from the national or European level. Since the first generation of RDAs were established in the 1970s and 1980s, major changes have swept through the policy arena: globalisation has increased competitive pressure and moved the position of regions in the international division of labour to the forefront of regional strategy; making the digital revolution and the EU Lisbon agenda have highlighted the importance of production and access to knowledge as key factors in regional competitiveness; regional policy has become part of a wider system of multi-level governance so that their geographical horizon has expanded in terms of sponsors and collaborators; issues of governance and accountability of RDAs have been one of the drivers to devolution of powers to governments and bodies below the level of the nation-state, raising questions over their status and distance from political control. The aim of this book is to develop a profile of the next generation of RDAs that will identify key

issues and trends regarding policy aims strategy making and the new role of knowledge the organisation of policy delivery with emphasis on interactive knowledge brokerage the organisational shift towards smaller and more flexible RDAs and the political governance of regional policy By drawing on a combination of conceptual reflection surveys comparative research and systematic use of critical case studies the book provides a new point of reference by identifying key features of the current and indeed next generation of regionally based economic development organisations *Socio Economic Conditions of the Socio Religious Groups in India: An Assessment* Dr. Major. Zahid Husain, Understanding Geographies of Polarization and Peripheralization Thilo Lang, Sebastian Henn, Kornelia Ehrlich, Wladimir Sgibnev, 2015-08-31 This book presents a multifaceted perspective on regional development and corresponding processes of adaptation and response focusing on the concepts of polarization and peripheralization It discusses theoretical and empirical foundations and presents several compelling case studies from Central and Eastern Europe and beyond **Facets of Globalization** Shahid Yusuf, Simon J. Evenett, Weiping Wu, 2001-01-01 Since 1985 national economies have become increasingly integrated into a global network At the same time both population and production in developing countries are becoming concentrated in urban regions This in turn has generated demands for more local autonomy shifting more decision making to sub national levels Globalization is expected to continue leading to greater openness and international mobility of capital and people There are few reasons to believe that these trends will abate if anything they are likely to intensify the focus on cities and sharpen competition among these for international and local resources This volume underscores the transformative role of globalization and urbanization and shows the interplay between the two forces **Impacts of European Territorial Policies in the Baltic States** Garri Raagmaa, Dominic Stead, 2017-10-02 Urban and regional development in the Baltic States and other Central and Eastern European countries has experienced rapid changes since their re independence at the beginning of the 1990s Meanwhile urban and regional planning institutions and organizational cultures in the Baltic States have only changed rather incrementally despite various national and European pressures for reform As a consequence the effects of European cohesion and structural policy measures have been quite modest and the ability of the planning systems in the Baltic states to manage contemporary trends in urban and regional development has become increasingly limited This book focuses on these issues and tensions of spatial planning and development in the Baltic States and their distinctiveness compared to other European countries It provides an overview of the historical and cultural context of spatial development a discussion of the processes of Europeanization of spatial planning in the specific context of the Baltic States and an analysis of whether these processes may be leading to policy convergence in the region This book was published as a special issue of European Planning Studies **The Oxford Handbook of Local and Regional Democracy in Europe** John Loughlin, Frank Hendriks, Anders Lidström, 2012-11-08 The Oxford Handbook of Local and Regional Democracy in Europe analyses the state of play of democracy at the subnational level in the 27 member states of the EU plus Norway and Switzerland It places

subnational democracy in the context of the distinctive Anglo the French the German and Scandinavian state traditions in Europe asking to what extent these are still relevant today The Handbook adapts Lijphart s theory of democracy and applies it to the subnational levels in all the country chapters A key theoretical issue is whether subnational regional and local democracy is derived from national democracy or whether it is legitimate in its own right Besides these theoretical concerns it focuses on the practice of democracy the roles of political parties and interest groups and also how subnational political institutions relate to the ordinary citizen This can take the form of local referendums or other mechanisms of participation The Handbook reveals a wide variety of practices across Europe in this regard Local financial systems also reveal a great variety Finally each chapter examines the challenges facing subnational democracy but also the opportunities available to them to enhance their democratic systems Among the challenges identified are Europeanization globalization but also citizens disaffection and switch off from politics Some countries have confronted these challenges more successfully than others but all countries face them An important aspect of the Handbook is the inclusion of all the countries of East and Central Europe plus Cyprus and Malta who joined the EU in 2004 and 2007 This is the first time they have been examined alongside the countries of Western Europe from the angle of subnational democracy European Integration, Regional Policy, and Growth Bernard Funck, Lodovico Pizzati, 2003 This publication contains a number of papers presented by leading academics policy makers and practitioners from existing and new EU member countries at a conference in Barcelona in October 2002 These papers discuss key issues regarding the effectiveness of attempts to reduce regional disparities with the EU and the implications of current enlargement including the trade offs between promoting national growth and reducing relative disparities the role of growth poles the investment climate and labour market flexibility the role of the EU and regional policy overall Globalization and Regional Economic Modeling Russel Cooper, Kieran Donaghy, Geoffrey Hewings, 2007-09-23 Globalization is affecting regional economies in a broad spectrum of aspects from labor market conditions and development policies to climate change To understand better how this works we need both conceptual and methodological contributions We need new schemes to organize our thinking direct our attention and frame thought experiments on the basis of which guidance may be offered And we need methodological innovations that enable us to carry out studies and thought experiments at levels of spatial and temporal resolution and formal complexity adequate to capture and account for the phenomena that characterize globalization The chapters of this volume written by an international cast of eminent regional scientists represent contributions of both types in many cases introducing and demonstrating the use of new tools for analyzing and understanding enormous changes underway in regional economies around the world The Labour Market Impact of the EU Enlargement Floro Ernesto Caroleo, Francesco Pastore, 2010-03-18 Floro Ernesto Caroleo and Francesco Pastore This book was conceived to collect selected essays presented at the session on The Labour Market Impact of the European Union Enlargements A New Regional Geography of Europe of the XXII Conference of the Italian

Association of Labour Economics AIEL The session aimed to stimulate the debate on the continuity fracture of regional patterns of development and employment in old and new European Union EU regions In particular we asked whether and how different the causes of emergence and the evolution of regional imbalances in the new EU members of Central and Eastern Europe CEE are compared to those in the old EU members Several contributions in this book suggest that a factor common to all backward regions often neglected in the literature is to be found in their higher than average degree of structural change or more precisely in the hardship they experience in coping with the process of structural change typical of all advanced economies In the new EU members of CEE structural change is still a consequence of the continuing process of transition from central planning to a market economy but also of what Fabrizio et al 2009 call the second transition namely that related to the run up to and entry in the EU

Modelling Regional Scenarios for the Enlarged Europe Roberta Capello, Roberto P. Camagni, Barbara Chizzolini, Ugo Fratesi, 2008-02-01 Tackling the question of what the European territory will look like over the next fifteen years this volume provides qualitative quantitative territorial scenarios for the enlarged Europe under different assumptions on future globalisation strategies of BRIC Brazil Russia India and China and East and West European countries The approach is as neutral as possible vis vis the results leading to a new forecasting model the MASST model built by the authors

Innovations in Urban and Regional Systems Jean-Claude Thill, 2020-05-11 This book presents cutting edge research on urban and regional systems applying modern spatial analytical techniques of Geographic Information Science Technologies GIS T spatial statistics and location modeling The contributions written by leading scholars from around the globe adopt a spatially explicit analytical perspective and highlight methodological innovations and substantive breakthroughs on many facets of the socioeconomic and environmental reality of urban and regional contexts The book is divided into three parts The first part offers an introduction to the research field while the second part discusses critical issues in urban growth and urban management presenting case studies on city and urban environments their growth data infrastructures and spatial and management issues The third part then broadens the analysis to the regional scale addressing growth convergence and adaptation to new economic and information based realities This book appeals to scholars of spatial and regional sciences as well as to policy decision makers interested in advanced methods of spatial analysis location modeling and GIS T

OECD Regions and Cities at a Glance 2020 OECD, 2020-11-30 Regions and Cities at a Glance 2020 provides a comprehensive assessment of how regions and cities across the OECD are progressing towards stronger more sustainable and more resilient economies and societies In the light of the health crisis caused by the COVID 19 pandemic the report analyses outcomes and drivers of social economic and environmental resilience

International Handbook of Urban Policy: Contentious global issues H. S. Geyer, 2007-01-01 This first Handbook in a series of three original reference works looks at globally contentious urban policy issues from a wide variety of different angles and perspectives Matters related to urban densification population mobility urban inequality and sustainability are analysed in a

manner that will not only interest the advanced student but also the novice Urban policy covers a vast field This first volume combines chapters covering three broad themes policy issues pertaining to the spatial aspects of the city social and mobility issues and issues of urban governance The spotlight initially falls on urban structure urban densification the disappearing urban rural divide the urban economic landscape and the transformation of socialist economies The Handbook then goes on to focus on migration social mobility crime terrorism and social inequality Finally urban sustainability and urban governance come under the spotlight Integration of the planning process flexibilities in infrastructure and areas of neglect in environmental management feature strongly in this section of the Handbook Books of this nature are often slanted in one particular direction however this Handbook s approach is different Not only has the editor avoided shying away from politically sensitive issues but contributions have also been included that reflect distinct differences of opinion on politically sensitive issues hence the volume s subtitle of contentious global issues As a Handbook the chapters have been written not only for the advanced student and academics but also with undergraduate students in mind The Handbook will appeal to scholars and researchers of geography and urban and development planning demography and social science and environmental scientists for the focus on urban sustainability issues

Regional Disparities In Small Countries Introduction

In the digital age, access to information has become easier than ever before. The ability to download Regional Disparities In Small Countries has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Regional Disparities In Small Countries has opened up a world of possibilities. Downloading Regional Disparities In Small Countries provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Regional Disparities In Small Countries has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Regional Disparities In Small Countries. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Regional Disparities In Small Countries. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Regional Disparities In Small Countries, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Regional Disparities In Small Countries has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Regional Disparities In Small Countries Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Regional Disparities In Small Countries is one of the best book in our library for free trial. We provide copy of Regional Disparities In Small Countries in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Regional Disparities In Small Countries. Where to download Regional Disparities In Small Countries online for free? Are you looking for Regional Disparities In Small Countries PDF? This is definitely going to save you time and cash in something you should think about.
