Regional Fictions Culture And Identity In Nineteenth Century American Literature:

Regional Fictions Stephanie Foote, 2001-03-29 Out of many one e pluribus unum is the motto of the American nation and it sums up neatly the paradox that Stephanie Foote so deftly identifies in *Regional Fictions* Regionalism the genre that ostensibly challenges or offers an alternative to nationalism in fact characterizes and perhaps even defines the American sense of nationhood In particular Foote argues that the colorful local characters dialects and accents that marked regionalist novels and short stories of the late nineteenth century were key to the genre's conversion of seemingly dangerous political differences such as those posed by disaffected Midwestern farmers or recalcitrant foreign nationals into appealing cultural differences She asserts that many of the most treasured beliefs about the value of local identities still held in the United States today are traceable to the discourses of this regional fiction and she illustrates her contentions with insightful examinations of the work of Sarah Orne Jewett Hamlin Garland Gertrude Atherton George Washington Cable Jacob Riis and others Broadening the definitions of regional writing and its imaginative territory *Regional Fictions* moves beyond literary criticism to comment on the ideology of national local ethnic and racial identity

Letter and the Spirit of Nineteenth-Century American Literature Thomas Loebel, 2005-01-12 Moving back to the trial of Anne Hutchinson in Puritan Massachusetts and the captivity narrative of Mary Rowlandson in order to analyse the political signification Loebel provides a new context for examining the politically performative function of language in such texts as *The Scarlet Letter* *Uncle Tom's Cabin* and *Waiting for the Verdict* He also argues however that a specific theologic logic manifests itself in the political rhetoric of the nation such that the afterlife of the New Jerusalem resonates not just in the Blessings of Liberty enshrined in the Constitution but also in the shift from a religious understanding of union with Jesus to that of the Union of States as a nation Loebel compares unionist and confederate discourse opening up new ways of theorising representation as a political theological legal and literary issue that has continued currency both in twentieth century literature and in the political discourse of America's global vision such as the axis of evil and the new world order Anyone interested in American literature and culture will view the relationship between ethics and justice differently after reading this book

Modernity and Autobiography in Nineteenth-Century America James E. Dobson, 2017-09-14 This book examines temporal and formal disruptions found in American autobiographical narratives produced during the end of the nineteenth century It argues that disruptions were primarily the result of encounters with new communication and transportation technologies Through

readings of major autobiographical works of the period James E Dobson argues that the range of affective responses to writing communicating and traveling at increasing speed and distance were registered in this literature's formal innovation These autobiographical works Dobson claims complicate our understanding of the lived experience of time temporality and existing accounts of periodization This study first examines the competing views of space and time in the nineteenth century and then moves to examine how high speed train travel altered American literary regionalism the region and history Later chapters examine two narratives of failed homecoming that are deeply ambivalent about modernity and technology Henry James's *The American Scene* and Theodore Dreiser's *A Hoosier Holiday* before a reading of the telephone network as a metaphor for historiography and autobiography in Henry Adams's *The Education of Henry Adams*

American Women's Regionalist Fiction Monika Elbert, Rita Bode, 2021-01-04 *American Women's Regionalist Fiction Mapping the Gothic* seeks to redress the monolithic vision of American Gothic by analyzing the various sectional or regional attempts to Gothicize what is most claustrophobic or peculiar about local history Since women writers were often relegated to inferior status it is especially compelling to look at women from the Gothic perspective The regionalist Gothic develops along the line of difference and not unity thus emphasizing regional peculiarities or a sense of superiority in terms of regional history natural landscapes immigrant customs folk tales or idiosyncratic ways The essays study the uncanny or the haunting quality of the commonplace as Hawthorne would have it in his introduction to *The House of the Seven Gables* in regionalist Gothic fiction by a wide range of women writers between ca 1850 and 1930 This collection seeks to examine how if the regionalist perspective is small limited and stultifying and leads to Gothic moments or whether the intersection between local and national leads to a clash that is jarring and Gothic in nature

Dear Appalachia Emily Satterwhite, 2011-12-16 Much criticism has been directed at negative stereotypes of Appalachia perpetuated by movies television shows and news media Books on the other hand often draw enthusiastic praise for their celebration of the simplicity and authenticity of the Appalachian region Dear Appalachia Readers Identity and Popular Fiction since 1878 employs the innovative new strategy of examining fan mail reviews and readers geographic affiliations to understand how readers have imagined the region and what purposes these imagined geographies have served for them As Emily Satterwhite traces the changing visions of Appalachia across the decades from the Gilded Age 1865 1895 to the present she finds that every generation has produced an audience hungry for a romantic version of Appalachia According to Satterwhite best selling fiction has portrayed Appalachia as a distinctive place apart from the mainstream United States has offered cosmopolitan white readers a sense of identity and community and has engendered feelings of national and cultural pride Thanks in part to readers faith in authors as authentic representatives of the regions they write about Satterwhite argues regional fiction often plays a role in creating and affirming regional identity By mapping the geographic locations of fans Dear Appalachia demonstrates that mobile white readers in particular including

regional elites have idealized Appalachia as rooted static and protected from commercial society in order to reassure themselves that there remains an authentic America untouched by global currents Investigating texts such as John Fox Jr s *The Trail of the Lonesome Pine* 1908 Harriette Arnow s *The Dollmaker* 1954 James Dickey s *Deliverance* 1970 and Charles Frazier s *Cold Mountain* 1997 *Dear Appalachia* moves beyond traditional studies of regional fiction to document the functions of these narratives in the lives of readers revealing not only what people have thought about Appalachia but why

Kitchen Economics Thomas Strychacz, 2020-08-11 An analysis of how nineteenth century women regional writers represent political economic thought WINNER OF THE ELIZABETH AGEE PRIZE IN AMERICAN LITERATURE Readers of late nineteenth century female American authors are familiar with plots characters and households that make a virtue of economizing Scholars often interpret these scenarios in terms of a mythos of parsimony frequently accompanied by a sort of elegiac republicanism whereby self sufficiency and autonomy are put to the service of the greater good a counterworld to the actual economic conditions of the period In *Kitchen Economics* Women s Regionalist Fiction and Political Economy Thomas Strychacz takes a new approach to the question of how female regionalist fictions represent the economic by situating them within traditions of classical political economic thought Offering case studies of key works by Sarah Orne Jewett Mary Wilkins Freeman Harriet Beecher Stowe Rose Terry Cooke and Alice Dunbar Nelson this study focuses on three complex cultural fables the island commonwealth

stadialism or stage theory and feeding the body politic which found formal expression in political economic thought made their way into endless public debates about the economic turmoil of the late nineteenth century and informed female authors. These works represent counterparts not counterworlds to modernity and their characteristic stance is captured in the complex trope of feminaeconomica. This approach ultimately leads us to reconsider what we mean by the term economic for the emphasis of contemporary neoclassical economics on economic agents given over to infinite wants and complete self interest has caused the sufficiency and common good models of female regionalist authors to be misinterpreted and misvalued. These fictions are nowhere more pertinent to modernity than in their alliance with today's important alternative economic discourses.

California Dreaming Christine Bacareza Balance, Lucy Mae San Pablo Burns, 2020-08-31 *California Dreaming* is a multi genre collection featuring works by Asian American artists based in California. Exploring the places of Asian America through the migration and circulation of the arts, this volume highlights creative processes and the flow of objects to understand the rendering of California's imaginary. Here California is interpreted as both a specific locale and an identity marker that moves linking the state's cultural imaginary, labor and economy with Asia Pacific, the Americas and the world. Together the works in this collection shift previous models and studies of the Golden State as the embodiment of frontier mentality and the discourse of exceptionality to a translocal regional and archipelagic understanding of place and cultural production. The poems, visual essays, short stories, critical essays, interviews, artist statements and performance text excerpts featured in this collection expand notions of where knowledge is produced, directing our attention to the particularity of California's landscape and labor in the production of arts and culture. An interdisciplinary collection, *California Dreaming* foregrounds sensing and imagining place vividly as it hopes to inspire further creative responses to the notion of emplacement. In doing so, *California Dreaming* explores the possibilities imagined by and through Asian American arts and culture today, paving the way for what is yet to be.
