

Regional Integration

Regional integration initiatives, according to Van Langenhove, should fulfil at least eight important functions:

- the strengthening of trade integration in the region
- the creation of an appropriate enabling environment for private sector development
- the development of infrastructure programmes in support of economic growth and regional integration
- the development of strong public sector institutions and good governance;
- the reduction of social exclusion and the development of an inclusive civil society
- contribution to peace and security in the region
- the building of environment programmes at the regional level
- the strengthening of the region's interaction with other regions of the world

Regional Integration And Development:

Regional Integration and Development Maurice W. Schiff, L. Alan Winters, 2003 This text examines regionalism from the perspective of developing countries. It presents a comprehensive account of existing theory and empirical results and incorporates the findings of formal analyses of the politics and dynamics of regionalism. **Regionalism, Security and**

Development in Africa Ernest Tooche Aniche, Ikenna Mike Alumona, Innocent Moyo, 2021-04-29 This book charts the history and contemporary landscape of African regionalism investigating how regional cooperation can be used to help to tackle security and development challenges in Africa. Africa has a long tradition of regional cooperation with the oldest trade and monetary integration schemes in the developing world but its colonial period and partition have caused lasting damage that still be seen in today's African economies. Contemporary post colonial African regionalism deeply rooted in notions of pan Africanism has served as a means of collective self reliance and economic transformation and development. This book starts with the history and theory behind African regionalism before discussing and comparing regional organisations such as the Economic Community of Central African States ECCAS the Economic Community of West African States ECOWAS the Community of Sahel Saharan States CEN SAD Southern African Development Community SADC the Common Market for Eastern and Southern Africa COMESA and the East African Community EAC. Finally the book considers how regional integration and cooperation can help to address security and development challenges. This ambitious and broad ranging book will be a valuable resource for researchers working on African regionalism security African integration and development and comparative regionalism. Policymakers should also consider it a useful guide to the background and contemporary landscape of African regionalism. **Regional Integration and Economic Development** N. Saavedra-Rivano, A. Hosono, B.

Stallings, 2001-09-06 Regional integration seems to be thriving everywhere as the examples of the Association of South East Asian Nations ASEAN the North Atlantic Free Trade Area NAFTA and the Southern Common Market will illustrate. More ambitious schemes such as Asian Pacific Economic Cooperation APEC and those for Western hemispheric integration are also underway. How do these trends for integration relate to national development strategies? The contributors to this volume provide new insights into these developments as well as assessing the prospects for further integration. Governing

Regional Integration for Development Antoni Estevadeordal, 2016-04-22 Developing countries have joined the rapidly growing global system of regional trade agreements RTAs over the past years. The drive towards regional integration has advanced with the formation of new markets and groups in Latin America Africa Asia the Middle East and Oceania with few developing countries remaining outside these regional schemes. This volume looks at how getting governance right is a central element for successful RTA implementation taking stock of the quality and effectiveness of the monitoring of development country RTAs around the world. Organized by the main world regions and primarily focusing on developing country RTAs the book also includes two case studies focused on monitoring in developed country regional agreements by

way of comparison The contributors operationalize governance in the context of RTA implementation with a more narrow and technical term of monitoring and provide eight important lessons for assessing monitoring around the world Economic Integration and Development Mordechai Elihu Kreinin, Michael G. Plummer, 2002 Questions related to the economics of regionalism became increasingly important beginning in the late 1980s when regional groupings started to become very popular as a tool of commercial policy The goal of this book is to address the question of whether or not regionalism in developed countries has truly benefited developing countries and to what degree regionalism among developing countries and between developed and developing countries will improve economic development prospects Mordechai Kreinin and Michael Plummer consider the implications of the emerging global trend of economic regionalism for developing countries The analysis focuses on the trade and investment effects of integration in developed countries on developing countries as well as the ramifications of regional integration in the latter After an extensive review of the theoretical and empirical literature pertinent to the economics of regionalism the book considers the ex post trade and direct foreign investment effects of the Single Market Program in Europe and NAFTA followed by chapters on ASEAN and economic integration in Latin America primarily MERCOSUR The study suggests three salient conclusions First in designing preferential trading arrangements developed countries should recognize and attempt to minimize the possible discriminating effect on developing countries Second the developing countries have an abiding interest in the success of WTO negotiations that would minimize the discrimination against them of regional groupings in Europe and North America And third any customs unions or free trade areas among the developing countries themselves should be outward looking if they are to enhance the welfare of developing countries Economists and policy scholars as well as readers interested in regionalism and economic development will find this book a great resource Regional Integration, Economic Development and Global Governance Ulrich Volz, 2011 This book explores a central issue of the world economy today the role of regional integration for economic development and global governance The importance of this issue comes from the fact that the globalisation process that we have been experiencing in recent decades is also a process of open regionalism To what extent does this process contribute to development The reader will find many interesting answers to this question in the book which is an outstanding contribution to this debate I welcome its publication and look forward to its influence on global debates on the relations between regional integration development and global governance From the foreword by Jos Antonio Ocampo Columbia University US The contributors expertly provide a comparative perspective on regional integration in different regions of the world while at the same time analysing the various facets of integration relating to trade FDI finance and monetary policies They provide a comprehensive treatment of the subject and offer new perspectives on the potential developmental effects of regional integration and the implications of regional integration for global economic governance Whilst highlighting and illustrating the potential benefits deriving from regional economic integration the book also stresses the problems and challenges

Innovation, Regional Integration, and Development in Africa Samuel Ojo Oloruntoba, Mammo Muchie, 2018-07-26

This edited volume discusses the role of innovation and regional integration in economic development in Africa Over the past five decades post colonial African countries have struggled to break loose from the trap of poverty and underdevelopment through the adoption of various development strategies at regional national and continental levels However the results of both national and regional efforts at advancing development on the continent have been mixed Although the importance of agglomeration and fusion of institutions have long been recognized as possible path to achieving economic development in Africa the approach to regionalism has been unduly focused on market integration while neglecting other dimensions such as social policy mobility of labor educational policy biotechnology regional legislation manufacturing innovation and science and technology This volume investigates the link between innovation regional integration and development in Africa arguing that the immediate and long term development of Africa lies not just in the structural transformation of its economies but in the advancement of scientific and innovation capacities The book is divided into four parts Part I addresses the theoretical and conceptual underpinnings of innovation and regional integration in Africa Part II presents case studies which examine how regional economic institutions are fostering innovation in Africa Part III of the book deals with sectoral issues on innovation and integrated development in Africa Part IV sets the future research on innovation regional integration and development in Africa Combining theoretical analysis and a comparative interdisciplinary approach this volume is appropriate for researchers and students interested in economic development political economy African studies international relations agricultural science and geography as well as policymakers in regional economic communities and the African Union

Regional Integration and Poverty Dirk Willem te Velde, the Overseas Development Institute, 2017-05-15 Relatively little is known about how regional integration affects poverty Many suggest that increased investment would be one of the benefits of agreeing on regional integration provisions but this has not been put to the empirical test for South South integration This volume examines the channels through which regional integration affects poverty and empirically analyzes the effects on foreign direct investment

Borders, Mobility, Regional Integration and Development Christopher Changwe Nshimbi, Inocent Moyo, 2020-06-22 This book examines social economic and political issues in West Eastern and Southern Africa in relation to borders human mobility and regional integration In the process it highlights the innovative aspects of human agency on the African continent and presents a range of empirical case studies that shed new light on Africa's social economic and political realities Further the book explores cooperation between African nation states including their

historical socioeconomic interconnections and governance of transboundary natural resources Moreover the book examines the relationship between the spatial mobility of borders and development and the migration regimes of nation states that share contiguous borders in different geographic territories Further topics include the coloniality of borders sociocultural and ethnic relations and the impact of physical borders on human mobility and wellbeing Given its scope the book represents a unique resource that offers readers a wealth of new insights into today s Africa

Integration, Development and Equity: Economic Integration in West Africa Peter Robson,2010-11-26 This reissue first published in 1983 is an authoritative study of economic integration among the states of West Africa focusing upon the issues and experience of the four main initiatives for regional integration in West Africa namely the Economic Community of West African States the Mano River Union the Communaut Economique de l'Afrique de l'Ouest and the recent initiative for the establishment of an economic and monetary union between Senegal and the Gambia

The Development Trinity Amelia U. Santos-Paulino,Alisa DiCaprio,Maria Sokolova,2020 Developing countries today have become more active participants in regional trade agreements This raises questions about how the benefits of integration are distributed and the extent to which lower income countries are able to capture development gains Historically such impacts have been difficult to identify with precision This paper seeks to address this gap by empirically analysing the impact of regional integration on development particularly the effects on growth and welfare Using both bilateral and regional integration measures we show that the ability to capture gains from integration varies across developing country regional groups with developing Asia benefiting on par with developed countries The findings in the paper indicate that trade and trade policy play an important role in reducing inequality and poverty in developing countries It also shows that regionalism can function as a channel to make multilateralism a more adept way of addressing national challenges

Wealth through Integration Elias T. Ayuk,Samuel T. Kaboré,2012-11-28 Could regional integration be a first step toward joining the global market In a context where liberalizing trade has not produced the expected gains in developing countries and growth in global trade has not led to the expected economic growth an alternative solution has emerged This new paradigm suggests that trade liberalization should be accompanied by public investment However by its very nature trade liberalization leads to a reduction in revenues from duties and taxes which means that the available resources for public investments will also be reduced There are now solid arguments for encouraging the less developed countries to first emphasize regional integration before trying to access the global market This book explores the issues linked to regional integration in West Africa and presents empirical data about the experiences in West African Economic and Monetary Union WAEMU countries to converge their economies It also examines how these efforts which make a major contribution to regional integration influence poverty reduction in the economic and monetary community It will be of interest to researchers working in this area Elias T Ayuk is Director of the United Nations University Institute for Natural Resources in
