Regions In Question Space Development Theory And Regional Policy:

Regions in Question (Routledge Revivals) Charles Gore, 2013-12-19 Originally published in 1984 Regional development planning has grown rapidly in recent years as both an academic specialism and a focus of policy and practice Books and articles on the subject have proliferated and all across the Third World governments have become committed to it setting up large new departments and even ministries Charles Gore argues that this growing popularity of regional planning in developing countries is profoundly paradoxical **Regions in Question: Space Development Theory and Regional Policy** Charles Gore, 1984 *Regions in Question* Charles G. Gore, 1984 *Regions in Question* Charles Gore, 1992 **Regions in Question (Routledge Revivals)** Charles Gore, 2013-12-19 Originally published in 1984 Regional development planning has grown rapidly in recent years as both an academic specialism and a focus of policy and practice Books and articles on the subject have proliferated and all across the Third World governments have become committed to it setting up large new departments and even ministries Charles Gore argues that this growing popularity of regional planning in developing countries is profoundly paradoxical **Regional Development and Settlement Policy** David Dewar, Alison Todes, Vanessa Watson, 2017-09-05 Originally published in 1986 This book focusses on a critical analysis of regional development strategy in South Africa and shifts over time in that strategy Regional development theory and thinking about settlement policy have developed largely independently of each other This book clarifies some of the resulting confusion and points towards a greater integration of the two areas of understanding The book provides an overview of shifts which occurred in national and regional development theory and the broader social economic and political factors which influenced these shifts It identifies the major policy implications of the various development approaches with particular emphasis placed on the role of settlement policy The differences between policy approaches and the debates surrounding them are identified and discussed

Geography And Development Arthur Morris, 2005-08-15 First published in 1998 Written in a highly accessible style this book examines economic development processes across the world The old certainties of what constitutes development and whether it is the same for all peoples no longer exist Goals once imposed by agencies like the World Bank are increasingly questioned and the spatial development planning characteristics of the 1960s and 70s is increasingly seen as an intrusion into free and competitive markets Indeed a question now being asked is should development be promoted at all This book examines these fundamental issues and presents and evaluates the different theoretical approaches to development Each country has its own tale to tell and by using valuable case study material the author shows how different policies have impacted on the geography of regions Processes of development in the newly industrialised countries NICS of South Korea and Singapore are examined as well as the flexible specialisation model characteristic of many Mediterranean countries and the post industrial service economies based on high technology The book argues convincingly that the fundamental spatial and temporal patterns of development in modern times are no longer the importance of physical resources but the complex

human resources and the determination to work Anchored firmly in the needs of students this book will be widely welcomed by undergraduates taking courses in human geography and development studies **Earthly Goods** Fen Osler

Hampson, Judith Reppy, 2018-09-05 Global environmental change raises profound moral issues with which society has only begun to grapple What does fairness mean in dividing responsibilities for problems of global warming between rich and poor nations Does the environment itself have moral standing and if so how should its conflicts with the interests of people who depend on the land for their livelihood be resolved How can the interests of the poor of indigenous peoples and of future generations be properly accommodated in a political discourse about environmental policy which is dominated by industrialized states This book extends the debate both within and across disciplines engaging philosophers geographers political scientists economists sociologists and environmental activists from four continents The essays address the role of science in global change and argue that western science does not provide morally disinterested solutions to environmental problems They discuss the role of state and substate actors in the international politics of the environment and then use accounts of actual negotiations to argue for the centrality of social justice in reaching desirable and equitable agreements They conclude that a framework for social justice under conditions of global environmental change must include community values and provide for participatory structures to arbitrate among competing interests **The Political Economy of**
