Regret The Persistence Of The Possible

Andrea O'Reilly

Regret The Persistence Of The Possible:

Regret Janet Landman,1993 Drawing from psychology economics philosophy anthropology and classic works of literature Landman provides an insightful anatomy of regret what it is how you experience it and how it changes you At best regret is a dynamic changing process one can transcend regret and thus transform the self

Regret Janet Landman,2023 Examines the experience of regret from a variety of sources ranging from psychology economics and philosophy to classic works of literature The author examines four views of regret the Romantic the Tragic the Comic and the Ironic as exemplified in such novels as Great Expectations

Regretting Motherhood Orna Donath,2017-07-11 A provocative and deeply important study of women s lives women s choices and an unspoken taboo that questions the societal pressures forcing women into motherhood Women who opt not to be mothers are frequently warned that they will regret their decision later in life yet we rarely talk about the possibility that the opposite might also be true that women who have children might regret it Drawing on years of research interviewing women from a variety of socioeconomic educational and professional backgrounds sociologist Orna Donath treats regret as a feminist issue as regret marks the road not taken we need to consider whether alternative paths for women currently are blocked off She asks that we pay attention to what is forbidden by rules governing motherhood time and emotion including the cultural assumption that motherhood is a natural role for women for the sake of all women not just those who regret becoming mothers If we are disturbed by the idea that a woman might regret becoming a mother Donath says our response should not be to silence and shame these women rather we need to ask honest and difficult questions about how society pushes women into motherhood and why those who reconsider it are still seen as a danger to the status quo Groundbreaking thoughtful and provocative this is an especially needed book in our current political climate as women s reproductive rights continue to be at the forefront of national debates

The Moral Psychology of Regret Anna Gotlib,2019-10-21 What kind of an emotion is regret What difference does it make whether how and why we experience it and how does this experience shape our current and future thoughts decisions goals Under what conditions is regret appropriate Is it always one kind of experience or does it vary based on who is doing the regretting and why How is regret different from other backward looking emotions In *The Moral Psychology of Regret* scholars from several disciplines including philosophy gender studies disability studies law and neuroscience come together to address these and other questions related to this ubiquitous emotion that so many of us seem to dread And while regret has been somewhat under theorized as a subject worthy of serious and careful attention this volume is offered with the intent of expanding the discourse on regret as an emotion of great moral significance that underwrites how we understand ourselves and each other

Regret Paddy McQueen,2024 Philosopher Paddy McQueen provides a detailed examination of the nature of regret and its role in decision making Additionally he explores how experiences of regret are shaped by social discourses especially those about gender and parenthood

Maternal Regret: Resistances, Renunciations, and Reflections Andrea

O'Reilly,2022-06-08 This collection considers how maternal regret as it is conveyed in remorse resentment dissatisfaction and disappointment troubles the assumptions and mandates of normative motherhood and how it is explored and critiqued in creative non fiction film literature and social media Maternal regret is also examined in relation to the estrangement of mother and child and the remorse and grief felt by both mothers and children caused by the abandonment of mother or child Finally the collection explores how regret opens the space for maternal erudition enlightenment and evolution and makes possible maternal empowerment The book is organized by way of these three sections the first Resistances examines how maternal regret as conveyed in remorse disillusionment and resentment counters and corrects normative motherhood the second Renunciations looks at how regret is experienced in mother child abandonment and the third Reflections explores how regret may be an opportunity for maternal knowledge and power Overall the collection serves to debunk and destroy the final taboo of normative motherhood that of maternal regret Mothers voicing regret as journalist Kingston writes signals a large groundswell of maternal reckoning one that has been compared to the MeToo campaign **The Power of Regret**

Daniel H. Pink,2022-02-01 The world needs this book Bren Brown Ph D New York Times bestselling author of Dare to Lead and Atlas of the Heart An instant New York Times bestseller As featured in The Wall Street Journal and The Washington Post Named a Best Book of 2022 by NPR and Financial Times From the 1 New York Times bestselling author of When and Drive a new book about the transforming power of our most misunderstood yet potentially most valuable emotion regret Everybody has regrets Daniel H Pink explains in The Power of Regret They re a universal and healthy part of being human And understanding how regret works can help us make smarter decisions perform better at work and school and bring greater meaning to our lives Drawing on research in social psychology neuroscience and biology Pink debunks the myth of the no regrets philosophy of life And using the largest sampling of American attitudes about regret ever conducted as well as his own World Regret Survey which has collected regrets from more than 15 000 people in 105 countries he lays out the four core regrets that each of us has These deep regrets offer compelling insights into how we live and how we can find a better path forward As he did in his bestsellers Drive When and A Whole New Mind Pink lays out a dynamic new way of thinking about regret and frames his ideas in ways that are clear accessible and pragmatic Packed with true stories of people s regrets as well as practical takeaways for reimagining regret as a positive force The Power of Regret shows how we can live richer more engaged lives *Handbook of the Uncertain Self* Robert M. Arkin,Kathryn C. Oleson,Patrick J.

Carroll,2013-05-13 This Handbook explores the cognitive motivational interpersonal clinical and applied aspects of personal uncertainty It showcases both the diversity and the unity that defines contemporary perspectives on uncertainty in self within social and personality psychology The contributions to the volume are all written by distinguished scholars in personality social psychology and clinical psychology united by their common focus on the causes and consequences of self uncertainty Chapters explore the similarities and differences between personal uncertainty and other psychological experiences in terms

of their nature and relationship with human thought emotion motivation and behavior Specific challenges posed by personal uncertainty and the coping strategies people develop in their daily life are identified There is an assessment of the potential negative and positive repercussions of coping with the specific experience of self uncertainty including academic health and relationship outcomes Throughout strategies specifically designed to assist others in confronting the unique challenges posed by self uncertainty in ways that emphasize healthy psychological functioning and growth are promoted In addition the contributions to the Handbook touch on the psychological social and cultural context of the new millennium including concepts such as Friedman s flat world confidence the absence of doubt in world leaders the threat of terrorism since 9 11 the arts doubt and religious belief and views of doubt as the universal condition of humankind The Handbook is an invaluable resource for researchers practitioners and senior undergraduate and graduate students in social and personality psychology clinical and counseling psychology educational psychology and developmental psychology **What Might Have Been** Neal J. Roese, James M. Olson, 2014-01-14

Within a few short years research on counterfactual thinking has mushroomed establishing itself as one of the signature domains within social psychology Counterfactuals are thoughts of what might have been of possible past outcomes that could have taken place Counterfactuals and their implications for perceptions of time and causality have long fascinated philosophers but only recently have social psychologists made them the focus of empirical inquiry Following the publication of Kahneman and Tversky s seminal 1982 paper a burgeoning literature has implicated counterfactual thinking in such diverse judgments as causation blame prediction and suspicion in such emotional experiences as regret elation disappointment and sympathy and also in achievement coping and intergroup bias But how do such thoughts come about What are the mechanisms underlying their operation How do their consequences benefit or harm the individual When is their generation spontaneous and when is it strategic This volume explores these and other numerous issues by assembling contributions from the most active researchers in this rapidly expanding subfield of social psychology Each chapter provides an in depth exploration of a particular conceptual facet of counterfactual thinking reviewing previous work describing ongoing cutting edge research and offering novel theoretical analysis and synthesis As the first edited volume to bring together the many threads of research and theory on counterfactual thinking this book promises to be a source of insight and inspiration for years to come *Encyclopedia of Social Psychology* Roy F. Baumeister, 2007-08-29

Contains entries arranged alphabetically from A to I that provide information on ideas and concepts in the field of social psychology **The Michigan Alumnus** , 1994 In volumes 1 8 the final number consists of the Commencement annual

Oxford Companion to Emotion and the Affective Sciences David Sander, Klaus Scherer, 2014-02-06 Few areas have witnessed the type of growth we have seen in the affective sciences in the past decades Across psychology philosophy economics and neuroscience there has been an explosion of interest in the topic of emotion and affect Comprehensive authoritative up to date and easy to use the new Oxford Companion to Emotion and the Affective Sciences is an indispensable

resource for all who wish to find out about theories concepts methods and research findings in this rapidly growing interdisciplinary field one that brings together amongst others psychologists neuroscientists social scientists philosophers and historians Organized by alphabetical entries and presenting brief definitions concise overviews and encyclopaedic articles all with extensive references to relevant publications this Companion lends itself to casual browsing by non specialists interested in the fascinating phenomena of emotions moods affect disorders and personality as well as to focused search for pertinent information by students and established scholars in the field Not only does the book provide entries on affective phenomena but also on their neural underpinnings their cognitive antecedents and the associated responses in physiological systems facial vocal and bodily expressions and action tendencies Numerous entries also consider the role of emotion in society and social behavior as well as in cognitive processes such as those critical for perception attention memory judgement and decision making The volume has been edited by a group of internationally leading authorities in the respective disciplines consisting of two editors David Sander and Klaus Scherer as well as group of 11 associate editors John T Cacioppo Tim Dalgleish Robert Dantzer Richard J Davidson Ronald B de Sousa Phoebe C Ellsworth Nico Frijda George Loewenstein Paula M Niedenthal Peter Salovey and Richard A Shweder The members of the editorial board have commissioned and reviewed contributions from major experts on specific topics In addition to comprehensive coverage of technical terms and fundamental issues the volume also highlights current debates that inform the ongoing research process In addition the Companion contains a wealth of material on the role of emotion in applied domains such as economic behaviour music and arts work and organizational behaviour family interactions and group dynamics religion law and justice and societal change Highly accessible and wide ranging this book is a vital resource for scientists students and professionals eager to obtain a rapid conclusive overview on central terms and topics and anyone wanting to learn more about the mechanisms underlying the emotions dominating many aspects of our lives

Existential and Spiritual Issues in Death Attitudes Adrian Tomer, Grafton Eliason, Paul T. P. Wong, 2008 In this new volume death is treated both as a threat to meaning and as an opportunity to create meaning

The Oxford Handbook of Social Cognition Donal E. Carlston, 2013-07-25 Social cognition as a field can be characterized as a distinct subarea of social psychology that examines all of the countless cognitive complexities mental representations and processes implicated in interaction as well as an approach to studying interactions in the context of the groups cultures and societies to which they belong Together these two facets of social cognition create one of the most influential and important social sciences to come along in some time Providing a comprehensive review of major topics in the field of social cognition The Oxford Handbook of Social Cognition expresses that excitement and fascination in describing the content and approach that constitute the field today The 43 chapters included in this handbook cover central aspects of the field of social cognition including its history and historically important foundational research areas attribution attitudes impression formation and prejudice stereotyping along with

methodology core issues relating to social cognitive representations and processes including those that are visual implicit or automatic and the stages of information processing attention perception memory and judgment along with simulation and thought suppression applications of the social cognition approach to areas of social psychology general psychology and other disciplines such as marketing law health and politics After more than 30 years the vibrant field of social cognition continues to reign as one of psychology's most dominant approaches The impressive chapters collected in this volume define the field and contribute enormously to our understanding of what social cognition is today

Morality's Muddy Waters George Cotkin, 2011-06-06 In the face of an uncertain and dangerous world Americans yearn for a firm moral compass a clear set of ethical guidelines But as history shows by reducing complex situations to simple cases of right or wrong we often go astray In *Morality's Muddy Waters* historian George Cotkin offers a clarion call on behalf of moral complexity Revisiting several defining moments in the twentieth century the American bombing of civilians during World War II the My Lai massacre racism in the South capital punishment the invasion of Iraq Cotkin chronicles how historical figures have grappled with the problem of evil and moral responsibility sometimes successfully oftentimes not In the process he offers a wide ranging tour of modern American history Taken together Cotkin maintains these episodes reveal that the central concepts of morality evil empathy and virtue are both necessary and troubling Without empathy for example we fail to inhabit the world of others with it we sometimes elevate individual suffering over political complexities For Cotkin close historical analysis may help reenergize these concepts for ethical thinking and acting *Morality's Muddy Waters* argues for a moral turn in the way we study and think about history maintaining that even when answers to ethical dilemmas prove elusive the act of grappling with them is invaluable

Emotion Theory: The Routledge Comprehensive Guide Andrea Scarantino, 2024-07-23 *Emotion Theory: The Routledge Comprehensive Guide* is the first interdisciplinary reference resource which authoritatively takes stock of the progress made both in the philosophy of emotions and in the affective sciences from Ancient Greece to today A two volume landmark publication it provides an overview of emotion theory unrivaled in terms of its comprehensiveness accessibility and systematicity Comprising 62 chapters by 101 leading emotion theorists in philosophy classics psychology biology psychiatry neuroscience and sociology the collection is organized as follows Volume I Part I History of Emotion Theory 10 chapters Part II Contemporary Theories of Emotions 10 chapters Part III The Elements of Emotion Theory 7 chapters Volume II Part IV Nature and Functions of 35 Specific Emotions 22 chapters Part V Major Challenges Facing Emotion Theory 13 chapters Special Elicitors of Emotions Emotions and Their Relations to Other Elements of Mental Architecture Emotions in Children Animals and Groups Normative Aspects of Emotions Most of the major themes of contemporary emotion theory are covered in their historical philosophical and scientific dimensions This collection will be essential reading for students and researchers in philosophy psychology neuroscience sociology anthropology political science and history for decades to come

Speaking of Slavery Steven A. Epstein, 2018-05-15 In this highly original work

Steven A Epstein shows that the ways Italians employ words and think about race and labor are profoundly affected by the language used in medieval Italy to sustain a system of slavery. The author's findings about the surprising persistence of the language of slavery demonstrate the difficulty of escaping the legacy of a shameful past. For Epstein, language is crucial to understanding slavery for it preserves the hidden conditions of that institution. He begins his book by discussing the words used to conduct and describe slavery in Italy from pertinent definitions given in early dictionaries to the naming of slaves by their masters to the ways in which bondage has been depicted by Italian writers from Dante to Primo Levi and Antonio Gramsci. Epstein then probes Italian legal history tracing the evolution of contracts for buying, selling, renting, and freeing people. Next, he considers the behaviors of slaves and slave owners as a means of exploring how concepts of liberty and morality changed over time. He concludes by analyzing the language of the market where medieval Italians used words to fix the prices of people they bought and sold. The first history of slavery in Italy ever published, Epstein's work has important implications for other societies, particularly America's. For too long, Epstein notes, Americans have studied their own slavery as if it were the only one ever to have existed, as if it were the archetype of all others. His book allows citizens of the United States and other former slave holding nations a richer understanding of their past and present.

Encyclopedia of the Mind Harold Pashler, 2013-01-14. It's hard to conceive of a topic of more broad and personal interest than the study of the mind. In addition to its traditional investigation by the disciplines of psychology, psychiatry, and neuroscience, the mind has also been a focus of study in the fields of philosophy, economics, anthropology, linguistics, computer science, molecular biology, education, and literature. In all these approaches, there is an almost universal fascination with how the mind works and how it affects our lives and our behavior. Studies of the mind and brain have crossed many exciting thresholds in recent years, and the study of mind now represents a thoroughly cross-disciplinary effort. Researchers from a wide range of disciplines seek answers to such questions as: What is mind? How does it operate? What is consciousness? This encyclopedia brings together scholars from the entire range of mind-related academic disciplines from across the arts and humanities, social sciences, life sciences, and computer science and engineering to explore the multidimensional nature of the human mind.

Moral Engines Cheryl Mattingly, Rasmus Dyring, Maria Louw, Thomas Schwarz Wentzer, 2017-10-01. In the past fifteen years, there has been a virtual explosion of anthropological literature arguing that morality should be considered central to human practice. Out of this explosion, new and invigorating conversations have emerged between anthropologists and philosophers. *Moral Engines: Exploring the Ethical Drives in Human Life* includes essays from some of the foremost voices in the anthropology of morality, offering unique interdisciplinary conversations between anthropologists and philosophers about the moral engines of ethical life, addressing the question: What propels humans to act in light of ethical ideals?

The Possible Vlad Petre Glăveanu, 2021. Possibility studies is an emerging field of research including topics as diverse as creativity, imagination, innovation, anticipation, counterfactual thinking, wondering, the future, social change, hope, agency, and utopia. *The Possible: A Sociocultural*

Theory contributes to this wide field by developing a sociocultural account of the possible grounded in the notions of difference position perspective dialogue action and culture

Adopting the Melody of Appearance: An Mental Symphony within **Regret The Persistence Of The Possible**

In some sort of eaten by monitors and the ceaseless chatter of fast connection, the melodic elegance and mental symphony created by the written term frequently fade into the background, eclipsed by the persistent noise and distractions that permeate our lives. However, located within the pages of **Regret The Persistence Of The Possible** a charming literary value full of raw thoughts, lies an immersive symphony waiting to be embraced. Crafted by an outstanding musician of language, this charming masterpiece conducts visitors on a psychological journey, well unraveling the concealed melodies and profound influence resonating within each carefully constructed phrase. Within the depths with this emotional assessment, we will examine the book is key harmonies, analyze their enthralling publishing style, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
