**Regulatory Delivery** Graham Russell, Christopher Hodges, 2019-10-17 This ground breaking book addresses the challenge of regulatory delivery defined as the way that regulatory agencies operate in practice to achieve the intended outcomes of regulation Regulatory reform is moving beyond the design of regulation to address what good regulatory delivery looks like The challenge in practice is to operate a regulatory regime that is both appropriate and effective Questions of how regulations are received and applied by those whose behaviour they seek to control and the way they are enforced are vital in securing desired regulatory outcomes This book written by and for practitioners of regulatory delivery explains the Regulatory Delivery Model developed by Graham Russell and his team at the UK Department for Business Energy and Industrial Strategy The model sets out a framework to steer improvements to regulatory delivery comprising three prerequisites for regulatory agencies to be able to operate effectively Governance Frameworks Accountability and Culture and three practices for regulatory agencies to be able to deliver societal outcomes Outcome Measurement Risk based Prioritisation and Intervention Choices These elements are explored by an international group of experts in regulatory delivery reform with case studies from around the world Regulatory Delivery is the first product of members of the International Network for Delivery of Regulation

*Whose Dog Are You?* Martin Wallen, 2017-09-01 The intriguing question in the title comes from an inscription on the collar of a dog Alexander Pope gave to the Prince of Wales When Pope wrote the famous couplet I am his Highness Dog at Kew Pray tell me Sir whose Dog are You the question was received as an expression of loyalty That was an era before there were dog breeds and not coincidentally before people were generally believed to develop affectionate bonds with dogs This interdisciplinary study focuses on the development of dog breeds in the eighteenth and nineteenth centuries Beginning with the Foxhound the first modern breed it examines the aesthetic political and technological forces that generate modern human canine relations These forces have colluded over the past two hundred years to impose narrow descriptions of human canine relations and to shape the dogs physically into acceptable and recognizable breeds The largest question in animal studies today how alterity affects human animal relations cannot fully be considered until the two approaches to this question are understood as complements of one another one beginning from aesthetics the other from technology Most of all the book asks if we can engage with dogs in ways that allow them to remain dogs

*Shaping the Sierra* Timothy P. Duane, 1999-06-30 The rural west is at a crossroads and the Sierra Nevada is at the center of this social and economic change The Sierra Nevada landscape has always been valued for its bounty of natural resource commodities but new residents and an ever growing flood of tourists to the area have transformed the relationship between the region s nature and its culture In an engaging narrative that melds the personal with the professional Timothy P Duane who grew up in the area documents the impact of rapid population growth on the culture economy and ecology of the Sierra Nevada since the late 1960s He also recommends innovative policies for mitigating the negative effects of future population growth in this spectacular but threatened region as well as throughout the rural west Today the primary social and economic values of the Sierra Nevada landscape are in the amenities and ecological services provided by its wildlands and functioning ecosystems Duane shows how further unfettered population growth threatens the very values which have made the Sierra Nevada a desirable place to live and work A new approach to land use planning resource management and local economic development one that recognizes the emerging values of the landscape is necessary in order to achieve sustainable development Duane claims Weaving personal experience with outstanding scholarship he shows how such an approach must explicitly recognize the importance of values and the application of an environmental land ethic to future development in the area

*The Moral and Market Economies of Bread* Jonas Albrecht, 2024-06-13 From the 1770s the Vienna bread market was rocked by a series of politico economic and technological changes that questioned the way this everyday foodstuff was sold and produced In this book Jonas Albrecht explores how this reconfiguration of the bread market had wide reaching and significant consequences for a society who relied on this foodstuff

to live Before 1860 the production and selling of bread was embedded into a moral economy with distinct regulations But as the grain market expanded and new cereal varieties arrived from the empire s peripheries reformers sought to create a free market through liberalizing reforms The Moral and Market Economies of Bread shows that while terminating market regulation did mobilize and diversify Vienna s bread market in spatial terms it intensified inequality among consumers As opaque prices non transparent market procedures and diverging power relations between producers and consumers led to unrest city officials and bakers struggled to meet the shortcomings of the free market from within This book brings economic social and urban histories together and employs a spatial approach and GIS methods to explore the relationship between market and society and capitalism at large *Law, Video Games, Virtual Realities* Dale Mitchell,Ashley Pearson,Timothy D. sponsored by the Civil Rights Project at Harvard University in collaboration with the Joint Center for Housing Studies and the Brookings Institution The contributors policy analysts political observers social scientists and urban planners document key patterns their consequences and how we can respond taking a hard look at both successes and failures of the past Place still matters perhaps more than ever High levels of segregation shape education and job opportunity crime and insecurity and long term economic prospects These problems cannot be addressed effectively if society assumes that segregation will take care of itself Contributors include William Apgar Harvard University Judith Bell PolicyLink Angela Glover Blackwell PolicyLink Allegra Calder Harvard Karen Chapple Cal Berkeley Camille Charles Penn Mary Cunningham Urban Institute Casey Dawkins Virginia
