Regulating Spanish Banking, 1939–1975 Maria Angeles Pons Brias, 2017-03-02 Banking regulation has been the subject of intense debate in recent years This book contributes to that debate in its study of the impact of financial regulation on Spanish banking performance especially profitability from the end of the Spanish Civil War to the end of the Franco regime Maria Pons discusses the Francoist authorities policy of forced industrialization based on heavy industry and the huge interventionist apparatus that it set up to involve banks in its industrialistic programme This included several items of banking legislation related to the fixing of interest rates the expansion of the sector mergers and so forth Pons explains the emergence of this regulatory framework and its development to the mid 1970s as well as examining in detail the response of the Spanish banks to these regulations and their attempts to take advantage of the opportunities they offered to reduce competition and uncertainty The book also analyzes the 1962 reforms and subsequent legislation and the lack of success they had in reducing public intervention in the banking sector

Spanish Money and Banking G. Tortella, J. García Ruiz, 2015-12-11 This book incorporates advances in financial and monetary history and theory and shows the relevance of Spain's story to modern banking monetary and development theory It studies the early development of banking and monetary institutions and shows how financial and monetary mismanagement contributed to the decline of Spain in the early modern era

The Spanish Financial System José Luis Malo de Molina, P. Martín-Aceña, 2011-11-28 The book analyses the Spanish financial system from the turn of the last century to the present day and the economic social and political backdrop to this history The result is a consummate survey of historical developments leading right up to today's key issues and challenges and to what the future may hold

*Visions of Financial Order* Kim Pernell, 2024-08-13 How differences in national financial regulatory systems emerged from divergent beliefs about economic order and prosperity The global financial crisis of the late 2000s was marked by the failure of regulators to rein in risk taking by banks And yet regulatory issues varied from country to country with some national financial regulatory systems proving more effective than others In *Visions of Financial Order* Kim Pernell traces the emergence of important national differences in financial regulation in the decades leading up to the crisis To do so she examines the cases of the United States Canada and Spain three countries that subscribed to the same transnational regulatory framework the Basel Capital Accord but developed different regulatory policies in areas that would directly affect bank performance during the financial crisis In a broad historical analysis that extends from the rise of the first modern chartered banks in the 1780s through the major financial crises of the twentieth century and the Basel Capital Accord of 1988 Pernell shows how the different and sometimes competing principles of order embedded in each country's regulatory and political institutions gave rise to distinctive visions of order and prosperity which shaped subsequent financial regulatory design Pernell argues that the different worldviews of national banking regulators reflected cultural beliefs about the ideal way to organize economic life to promote order stability and prosperity *Visions of Financial Order* offers an

innovative perspective on the persistent differences between regulatory institutions and the ways they shaped the unfolding of the 2008 global financial crisis      *The Qur'an's Self Image* Daniel Madigan,2001-06-18 What does the Qur'an mean then when it so often calls itself Kitab a term usually taken both by Muslims and by Western scholars to mean book      *Sveriges Riksbank and the History of Central Banking* Rodney Edvinsson,Tor Jacobson,Daniel Waldenström,2018-05-24 Written in celebration of its 350th anniversary in 2018 this book details the history of the central bank of Sweden Sveriges Riksbank as presented by Klas Fregert It relates the bank's history to the development of other major central banks around the world Chapters are written by some of the more prominent scholars in the field of monetary economics and economic history These chapters include an analysis of the Bank of England written by Charles Goodhart the evolution of banking in America written by Barry Eichengreen a first account of the People's Bank of China written by Franklin Allen Xian Gu and Jun Qian as well as a chapter about the brief but important history of the European Central Bank written by Otmar Issing      **The Battle over Patents** Stephen H. Haber,Naomi R. Lamoreaux,2021-08-06 An examination of how the patent system works imperfections and all to incentivize innovation Do patents facilitate or frustrate innovation Lawyers economists and politicians who have staked out strong positions in this debate often attempt to validate their claims by invoking the historical record but they frequently get the history wrong The Battle over Patents gets it right Bringing together thoroughly researched essays from prominent historians and social scientists this volume traces the long and contentious history of patents and examines how they have worked in practice Editors Stephen H Haber and Naomi R Lamoreaux show that patent systems are the result of contending interests at different points in production chains battling over economic surplus The larger the potential surplus the more extreme are the efforts of contending parties now and in the past to search out generate and exploit any and all sources of friction Patent systems as human creations are therefore necessarily ridden with imperfections This volume explores these shortcomings and explains why despite all the debate historically US style patent systems still dominate all other methods of encouraging inventive activity      *Giving Credit to Dictatorship* Valerio Torreggiani,José Luís Cardoso,2024-12-31 This edited volume explores the interplay between political economic and financial development in twentieth century European authoritarian regimes The book features case studies that explore the impact of domestic and international finance on the rise stabilization and decline of various European dictatorships of the twentieth century such as Italy Germany Yugoslavia Portugal Spain Greece and Turkey The chapters delve into the role that the regimes played in shaping and transforming the financial system exploring their international interconnections as well as the influence of economic theory and ideological constructs in dictatorial environments Applying the methodological framework of the history of capitalism to the analysis of the relationship between authoritarian regimes and financial systems the book provides new insights into the relationships between politics and economics and it offers a fresh perspective on contemporary political issues and their interaction with the global financial system This collection is an ideal resource for postgraduate students and

researchers in history economics political economy and political sciences
