Rehabilitation Consultant's Handbook

Timothy F. Field, 2001 **Life Care Planning and Case Management Handbook, Third Edition** Roger O. Weed, 2004

Life Care Planning and Case Management Handbook Second Edition brings together the many concepts, beliefs, and procedures regarding life care plans into one state-of-the-art publication. This second edition of a bestseller is focused on prioritizing and managing the spectrum of services for people with serious medical problems and their families. Keeping up with advances in the field, this is the most comprehensive reference for everyone concerned with coordinating, evaluating, assessing, and monitoring care.

Life Care Planning and Case Management Handbook Roger O. Weed, Debra E. Berens, 2018-09-03. Life care planning is an advanced collaborative case management specialty practice focused on assessing, evaluating, coordinating, consulting, planning for, and monitoring necessary services for individuals with complex medical care needs over their lifetime. This handbook provides a comprehensive resource for all people involved with catastrophic impairments and chronic medical care case management. The Life Care Planning and Case Management Handbook Fourth Edition begins by defining the roles played by each of the key team members working with the life care planner. It provides planners with insights critical to successful interactions with medical and health care-related professionals as well as the team members they are most likely to encounter as they work to build an accurate and reliable life care plan. Next, the text offers up-to-date information on the medical conditions most frequently encountered by the life care planner. The contributors, who are recognized experts in their disciplines, also address issues in forensic settings, ethics, standards, research, and credentials. The fourth edition includes numerous chapters on general issues as well as updated standards of practice from the International Academy of Life Care Planners (IALCP). Life Care Planning Consensus Statements and valuable step-by-step charts and checklists. Completely updated and expanded, this revised handbook now includes new chapters on multicultural considerations in life care planning, admissibility of life care plans in U.S. courts, and Canadian life care planning practice. Additionally, infused in other chapters is new information on medical coding and costing for life care planners, life care planning in non-litigated contexts, as well as research and education within life care planning.

Foundations of Forensic Vocational Rehabilitation Rick Robinson, 2013-12-03. This is the first fundamental text to focus specifically on forensic vocational rehabilitation, a field that is forecast to grow rapidly. Forensic vocational rehabilitation consultants evaluate the vocational and rehabilitation needs of individuals in an array of legal settings such as civil litigation, workers' compensation, Social Security disability, and others. The text is unique in its exploration of the vocational rehabilitation process from a biopsychosocial perspective that views disability as a complex and multidimensional construct. The book comprehensively describes the parameters and theoretical issues of relevance in evaluating and developing opinions in forensically oriented matters. It culls and synthesizes current peer-reviewed literature and research on this private subspecialty practice area of

rehabilitation counseling including theories models methods procedures and fundamental tenets of the field Also included is current information about the labor market life care planning and professional identity standards and ethics The text is designed for graduate and postgraduate students in rehabilitation counseling and psychology as well as practicing forensic vocational rehabilitation consultants and professionals moving toward practice in this arena Chapters are authored by noted scholars or published practitioners in each subject area and include an introduction to the content area discussion of key terminology and concepts and a review of the current and historical literature with emphasis toward future research needs and evidence based practice The book fulfills the requirement by the Commission on Rehabilitation Education CORE for training in this subject area at the graduate level for new certification or certification maintenance Key Features Comprises the only foundational text to focus specifically on forensic vocational rehabilitation Synthesizes peer reviewed research into one authoritative source Describes the role function and scope of practice of the rehabilitation counselor in private forensic vocational rehabilitation practice Fulfills CORE requirements for certification

Manual of Traumatic Brain Injury Felise S. Zollman, 2016-05-28 The Manual provides an excellent road map to the many topics relevant in the diagnosis, treatment, and long-term management of individuals with TBI. As such, the book can serve either as a fine introduction for the uninitiated or as a valued reference for seasoned clinicians. I highly recommend it. *Journal of Head Trauma Rehabilitation*. This is a stellar quality book that will be beneficial for every member of the multidisciplinary team that is required to treat patients with TBI. It offers a concise but broad and informative view of the disorder and can serve as an easy-to-read and access primary text. 4 Stars Doody's Reviews. Now completely revised and updated. *Manual of Traumatic Brain Injury: Assessment and Management* Second Edition is a comprehensive evidence-based guide to brain injury diagnosis, treatment, and recovery delivered in a succinct format designed for targeted access to essential content. This concise text featuring internationally known contributors drawn from leading TBI programs is organized into five sections. Part 1 discusses fundamental concepts needed to provide a context for clinical decision making. Part 2 covers mild TBI from natural history to sports-related concussion, post-concussion syndrome, and more. Part 3 focuses on moderate to severe TBI and contains chapters on pre-hospital emergency and ICU care, rehabilitation, community reintegration, management of associated impairments, and post-injury outcomes. Part 4 covers the complications and long-term sequelae that may arise in patients with TBI, including spasticity, movement disorders, posttraumatic seizures, hydrocephalus, behavioral, and sleep disturbances, and chronic traumatic encephalopathy (CTE). Part 5 focuses on special considerations and resources, including issues specific to selected populations or injury environments: military, pediatric, workers' compensation, and older patients, as well as return to work and medico-legal issues in TBI. Comprehensively updated to reflect the current state of the art in this rapidly evolving field, this book is a must-have for neurologists, physiatrists, primary care physicians, mental health professionals, social workers, and other healthcare providers who treat TBI patients. New to the Second Edition: Key Points section in each chapter crystallizes important clinical pearls. New chapters cover anoxia complicating TBI, screening for emotional distress in TBI patients, management of chronic behavioral disturbances, and assistive technology. Every chapter has been updated to reflect current evidence-based practice. *Life Care Planning, An Issue of Physical Medicine and Rehabilitation Clinics* Michel Lacerte, Cloie B.
