Bray,2017-03-23 The contemporary philosopher Jacques Rancière has become over the last two decades one of the most influential voices in philosophy political theory and literary art historical and film criticism His work reexamines the divisions that have defined our understanding of modernity such as art and politics representation and abstraction and literature and philosophy Working across these divisions he engages the historical roots of modernism at the end of the eighteenth century uncovering forgotten texts in the archive that trouble our notions of intellectual history The contributors to Understanding Rancière Understanding Modernism engage with the multiplicity of Rancière's thought through close readings of his texts through comparative readings with other philosophers and through an engagement with modernist works of art and literature The final section of the volume includes an extended glossary of the most important terms used by Rancière which will be a valuable resource for experts and students alike      **Anyuan** Elizabeth J. Francisco Manzano and Gabriel de la Concepción Valdés Plácido were perhaps the most important and innovative Cuban writers of African descent during the Spanish colonial era Both nineteenth century authors used Catholicism as a symbolic language for African inspired spirituality Likewise Plácido and Manzano subverted the popular imagery of neoclassicism and Romanticism in order to envision black freedom in the tradition of the Haitian Revolution Plácido and Manzano envisioned emancipation through the lens of African spirituality a transformative moment in the history of Cuban letters Matthew

Pettway examines how the portrayal of African ideas of spirit and cosmos in otherwise conventional texts recur throughout early Cuban literature and became the basis for Manzano and Plcido's antislavery philosophy. The portrayal of African Atlantic religious ideas spurned the elite rationale that literature ought to be a barometer of highbrow cultural progress. Cuban debates about freedom and selfhood were never the exclusive domain of the white Creole elite. Pettway's emphasis on African inspired spirituality as a source of knowledge and a means to sacred authority for black Cuban writers deepens our understanding of Manzano and Plcido not as mere imitators but as aesthetic and political pioneers. As Pettway suggests, black Latin American authors did not abandon their African religious heritage to assimilate wholesale to the Catholic Church. By recognizing the wisdom of African ancestors, they procured power in the struggle for black liberation.

**Liberating Hellenism from the Ottoman Empire** Gonda Van Steen, 2010-04-26 *Liberating Hellenism from the Ottoman Empire* explores two key historical episodes that have generally escaped the notice of modern Greece, the Near East, and their observers alike. In the midst of the highly charged context of West-East confrontation and with fundamental cultural and political issues at stake, these episodes prove to be exciting and important platforms from which to reexamine the age-old conflict. This book reaches beyond the standard sources to dig into the archives for important events that have fallen through the cracks of the study of emerging modern Greece and the Ottoman Empire. These events, in which French travel writing, literary fiction, antiquarianism, and nineteenth-century western and eastern geopolitics merge, invite us to redraw the outlines of mutually dependent Hellenism and Orientalism.

*Turning Teaching Inside Out* S. Davis, B. Roswell, 2013-12-18 Using the successful Inside Out program in which incarcerated and non-incarcerated college students are taught in the same classroom, this book explores the practice of community-based learning, including the voices of teachers and participants, and offers a model for courses, student life programs, and faculty training.

**Fixing France** Nabila Ramdani, 2023-10-05 France, the romanticised revolutionary land of Liberty, Equality, and Fraternity for all, is failing. Reform is urgently needed. This book is a powerful indictment of the status quo and a highly original perspective on the challenges to which the nation must rise. Nabila Ramdani is not from the establishment elite; she is a marginalised insider, born and raised in a neglected Paris suburb. With unflinching clarity, she probes the fault lines of her struggling country, exposing the Fifth Republic as an archaic system which emerged from Algeria's cataclysmic War of Independence. Today, a monarchical President Macron shows little interest in democracy, while a far-right party founded by Nazi collaborators threatens to replace him. Segregation, institutionalised rioting, economic injustice, the debasement of women, a monolithic education system, deep-seated racial and religious discrimination, paramilitary policing, terrorism, and extremism, and a duplicitous foreign policy all fuel the growing crisis. Yet Ramdani offers real hope: the broken French Republic can and must be fixed.

The Politics of Urban Potentiality

Stavros Stavrides,2024-05-30

This volume examines how urban potentiality emerges in performances that reclaim the city acting as an emancipatory force when dominant patterns of urban behaviour are thrown into crisis It can result in establishing new habits of inhabiting city space collective experiences shaping practices of urban commoning re inventing community relations and freeing collaboration from capitalist expropriation Instead of problematizing such radical change through the modernist belief in heroic unique acts we need to explore the power dissident performances acquire when repeated In search of an emancipatory politics of urban potentiality commoning thus has the ability become a collective ethos based on mutuality and equality rather than merely a relatively fair way of sharing urban infrastructures In this book the leading social and urban theorist Stavros Stavrides draws on a wide range of classic and historical thought on the urban question and social transformation Drawing from research in Latin American urban movements from activist participation in urban struggles in Greece and citizen initiatives developed in Europe this book expands the discussion on the potentialities of urban commoning to demonstrate how an emancipatory urban future may be achieved
