Reincarnation in Clement of Alexandria Sami Yli-Karjanmaa, 2025-06-19 International scholarly consensus holds that despite his obvious Platonic affinities Clement of Alexandria ca 150 215 CE rejected the doctrine of reincarnation This study finds that this consensus does not do justice to what Clement actually writes In his most explicit statement Clement singles out reincarnation as the example he wants to give of the finest doctrines of the best philosophers Though most of Clement's other writing is more subtle than that endorsement is still the most plausible explanation of what he says The tenet clearly esoteric for Clement is in harmony with his anthropology ethics and his synergistic soteriology that includes the crucial role of Jesus

**A New Model of the Universe** P.D. Ouspensky, 2023-01-29 In A New Model of the Universe written in 1914 and now published for the first time in French P D Ouspensky describes his own quest for a form of truth concerning questions as fundamental as the place of man in the universe the unknown the invisible world starting from the idea always that true civilization only exists in esotericism and that modern Western civilization suffers from a profound barbarism due to the absence of esoteric thought Calling on Christianity Judaism Eastern philosophies the symbolism of the Tarot experimental mysticism the study of dreams hypnotism yoga but also the sciences and in particular ancient physics and modern the author attempts to answer the following questions what form does the world have Is the world a chaos or a system Does the universe exist by accident or was it created according to a plan A new model of the Universe responds to a growing need in late 20th century man to question his origins and the meaning of his existence by having recourse to ancient beliefs and traditions

Artificial Intelligence, Reincarnation, and Resurrection Ernest M. Valea, 2021-04-29 This book explores old and new hopes that have emerged in the human quest to defeat death On the one hand it answers questions such as Are we just physical machines of great complexity with the brain as the hardware on which consciousness operates as its software If so can we speculate on ways in which the mind could be uploaded to a machine and no longer suffer the frailty of this biological body And could an android robot or a mindfile in a computer simulation be conscious On the other hand the book examines the hope of survival through

reincarnation according to the teachings of Eastern religions and New Age thought All these topics are discussed from the perspectives of Christian theology and the philosophy of mind This dual investigation will help Christians formulate a coherent response to old and new challenges to their faith     *A Theosophist's Point of View* James Albert Clark,1901
