Resources in Education ,1992-10 **Selected Papers in School Finance** ,1996 **Toward a Safer Workplace** James Robert Chelius,Edward Moscovitch,1996 *Reinventing the Schools* Steven F. Wilson,1992 **Bilingual Education in Massachusetts** Christine H. Rossell,Keith Baker,1996

Massachusetts is one of only nine states in the country to require bilingual education in all school districts where there is a sufficient number of limited English proficient LEP students. Moreover, Massachusetts has set the lowest threshold for mandatory bilingual education in the country. Observations of actual classroom practice demonstrate that these students are not all receiving the same style of education. Generally, only Spanish speaking students are taught to read/write in their native language while also receiving some native language instruction in other academic subjects as existing law requires. Students from virtually all other groups though enrolled in bilingual education receive instruction almost exclusively in English with at most a few hours per week of enrichment in their native languages/cultures. Twenty-five years after passage of the bilingual education law in Massachusetts, there is still no proof that the mandated approach to teaching works better than other approaches such as intensive English instruction. Not only is there no proof from Massachusetts, but there is none from the many studies that have been conducted in other states. If one can draw any conclusion, it is that teaching a LEP student in their native language is at least marginally detrimental to their acquisition of English. School Choice and the Question of Accountability Emily Van Dunk,Anneliese M. Dickman,2008-10-01. This timely book refocuses the debate about school choice programs with a nonpartisan assessment of the nation's largest and longest running private school voucher program, the high profile Milwaukee experiment, and finds that the system undercuts the promise of school choice. The authors argue that the Milwaukee experiment has not resulted in the one element necessary for school choice to be effective: an accountability system in which good schools thrive and poor schools close. They show that most ingredients of a robust market are missing. Well-informed consumers/parents are not the norm. State fiscal incentives are counterproductive, and competition among public and choice schools is difficult to discern. They conclude that school choice could succeed if certain conditions were met and they offer guidelines to strengthen accountability and repair the voucher system.

The Limits of Law-Based School Reform Todd A. DeMitchell, Richard Fossey, 1997 A confusing and contentious debate often surrounds law based school reforms lawsuits regulations statutes and collective bargaining provisions DeMitchell and Fossey argue that law based reforms have not changed the fundamental character of the nation s schools Although hundreds of law based initiatives have been introduced most have had little effect on learning Law based reform is an important and necessary strategy but by itself it is not enough to change the way children are schooled Rational decision making which undergirds most law based reform can take us only part way to the schools our children deserve **International Journal of Educational Reform** ,1993 **Subject Guide to Books in Print** ,1997 *Los Angeles Magazine* ,2003-06 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian **High School Restructuring and Improvement Plan for the Boston Public Schools (Classic Reprint)** Boston Boston, 2018-07-31 Excerpt from High School Restructuring and Improvement Plan for the Boston Public Schools I believe the plan represents a radical departure from the way secondary education services have been delivered previously in the Boston Public Schools with the anticipated result being that our students will be much better served About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *A Decade of Urban School Reform* S.
