Lorenzo DuBois Baber, Heather McCambly, 2023-04-01 To sustain contemporary movements towards educational equity, postsecondary leaders at all levels need resources that connect evidence-based critiques of structural inequities to forward-thinking visions for a more socially just academy. To address this critical challenge, we bring together scholars to deconstruct oppressive norms of theory and practice and provide a direction towards reconsiderations across various postsecondary contexts. Each chapter identifies a normative practice that reinforces material and cultural oppression of student populations from minoritized identities, challenges underlying assumptions that support current norms, and makes recommendations for redeveloping practices that center the well-being and success of underserved student populations. In presenting a range of expertise and disciplinary foci in the study of higher education, this volume contributes to a holistic re-envisioning of colleges and universities as transformational spaces for social change.
