When she died few people were old enough to recall a time when she was not alive Her likeness has been reproduced in photographs on stamps on the notes and coins of thirty different currencies more than any since Jesus It is probable that over the course of her ninety six years she was introduced to a greater number of different people than anyone else who has ever lived likely well over half a million Yet this most closely observed of all women rarely left any real impression on those she encountered beyond vague notions of her radiance and sense of duty A high proportion of those she met can remember what they said to her but not a word of what she said to them Up until now the curious tactic employed by biographers of the Queen has been to ignore what is interesting and to concentrate on what is not Craig Brown the author of 150 Glimpses of the Beatles and Hello Goodbye Hello rejects this formula bringing his kaleidoscopic approach to the most famous and most guarded woman on earth examining the Queen through a succession of interlocking prisms With Q this fantastically funny marvelously insightful journalist gives us an unforgettable portrait of the omnipresent elusive Queen Elizabeth II

Propp, 2013-12-03 Psychology means the study of the soul it is the social science concerned with investigating who we are why we have certain feelings and why we do the things we do Are we no more than a vast assembly of nerve cells and their associated molecules Is biology our genetic inheritance destiny or does social upbringing play a crucial role What are the roles played by Nature and by Nurture Are we purely physical beings or is there an aspect that can be called spiritual This thought provoking novel takes you on a journey of intellectual and emotional exploration considering along the way questions that we've all asked ourselves such as Is it true that we only use 10% of our brains Does playing classical music for infants increase their intelligence Do crime rates go up during a full moon Can hypnosis or post hypnotic suggestions make us do something we wouldn't normally do Does subliminal advertising influence us to buy products Are our memories stored indelibly almost like a tape recorder What causes memory lapses as we age Can repressed traumatic memories be recovered through hypnosis Do some people have multiple personalities How can I tell if someone has a neurosis or a psychosis Do men have an inner feminine side and women an inner masculine Are there innate psychological differences between males and females The four main characters in this book will guide you through a diverse and sometimes bewildering world of differing approaches to answering such questions such as Freudian Jungian and Adlerian Humanistic Existential and Transpersonal as well as Cognitive Emotive and Behaviorist Along the way you will learn about the developmental stages proposed by psychologists such as Erikson Kohlberg Piaget and Fowler and even explore some of the questions currently being asked by both neuroscientists and philosophers of the mind Start reading to begin your study of our innermost selves
