el porvenir empieza a emitir una sintomatología mucho antes de que las personas lleguemos a tomar conciencia y seamos capaces de racionalizar lo que está sucediendo. Por eso el futuro tiene vida antes de que seamos conscientes de su llegada. Sin pretender tener certeza sobre lo que va a suceder, el autor trata de prever acontecimientos. El futuro no es más que el entorno en el que necesariamente vamos a tener que vivir, y es lógico preguntarse cuál es el equipamiento más conveniente que deberíamos llevar para navegar por él del mejor modo posible. Sin duda, pensar sobre las orientaciones del futuro no es una acción baldía, más bien parece una reflexión conveniente cuyo objetivo no es tanto acertar sino tomar conciencia de que la vida va a cambiar drásticamente y preparar la mente para ello. Y eso es justo lo que pretende el autor: crear debate en cada lector consigo mismo o con otras personas para tomar conciencia de qué y cómo debemos reajustar nuestros comportamientos sociales y personales.

Isabel Parra. Libro de mis canciones Violeta Isabel Cereceda Parra, 2023-10-05. DESPEDIDA. Mi primer acercamiento al quehacer de una canción fue recoger los papeles que mi mamá abandonó estaban en un bál en la carpa dolorosa, yo me los traje a mi casa y los guardé temblorosa, eran versos rezagados, los leo entre lagrimones que cayeron de mis ojos convertidos en canciones, que decían esas letras hablaban de un mal de amor y también de la injusticia que en el país se instaló, fueron los inicios que mi vida diseñó y he llegado hasta este día feliz de mi vocación, la canción la escribo sola con lápiz y con papel, la memoria, el instrumento, mi condición de mujer que se escribe, que se canta para quien y para qué, los temas son infinitos y los misterios también, el trabajo solitario se transforma con los otros arreglos instrumentistas que la música provoca, estoy siempre agradecida de este cuento compartido con público con familia, con músicos elegidos, este trabajo ha tenido emociones, sentimientos, tragedias que he compartido acompañando a la gente que este libro de canciones les sirva, los acompañe con notas y partituras y acordes para la guitarra.

Mito y literatura en la filmografía de Francis Ford Coppola IGNACIO MONJE JUSTO, Adolfo, 2016-12-15 Descripción Resumen Español Castellano Mito y literatura en la filmografía de Francis Ford Coppola Un estudio intertextual y mitocrítico a partir de *Apocalypse Now* se enmarca dentro del ámbito académico de Teoría de la Literatura y Literatura Comparada y del área filosófica de la Estética y Teoría de las Artes Partiendo de la interrelación que desde sus orígenes el cine ha tenido con la literatura han sido muchos los estudios que se han realizado desde diversas perspectivas de la narración literaria sobre la creación fílmica En este sentido juegan un papel destacado la multitud de teorías literarias que surgieron durante el pasado siglo y que a la postre sentaron las bases de los futuros estudios sobre teoría y crítica cinematográfica Entre todas ellas existen un conjunto de teorías literarias que tuvieron especial relevancia en la primera mitad del siglo XX y que se caracterizan por estudiar la creación literaria partiendo de sus orígenes más ancestrales el mito y el rito Entre ellas destacan la teoría mítica ritualista el psicoanálisis la teoría simbolista el estructuralismo la mitocrítica etc Todas coinciden en estudiar el mito desde perspectivas multidisciplinares diferentes con el objetivo de corroborar cómo las primeras narraciones de la humanidad han perdurado en la historia de la cultura humana a través de creaciones literarias pictóricas o cinematográficas Todas las teorías literarias antes nombradas ayudaron a que desde finales del siglo XIX se produjera un proceso de remitologización muy importante que ayudó a que dentro de diferentes ámbitos culturales especialmente en la literatura se incorporase el mito y el rito ancestral como epicentro de la creación artística Teorías como las de Frazer Freud Jung Joseph Campbell o Mircea Eliade se fueron incorporando tanto a la crítica como a la creación literaria Debido a la influencia de todas estas teorías antropológicas psicológicas sociológicas o lingüísticas sobre el estudio del mito y su relación con la literatura se fue creando una poética del mito clave para la creación literaria de la primera mitad del siglo XX Sobre ellas trabajaron autores como James Joyce Thomas Mann Frank Kafka H D Lawrence o T S Eliot entre otros El propósito del siguiente estudio es comprobar y valorar cómo ha influido la poética del mito en el ámbito cinematográfico La intención es rastrear qué grado asimilación han tenido las teorías antes nombradas en la creación fílmica y para ello tomaremos como referencia la filmografía del director norteamericano Francis Ford Coppola A través del análisis de algunas de sus películas intentaremos demostrar

como el cine ha supuesto aunque más tímidamente que la literatura otro eslabón en el proceso de remitologización que sufrió la cultura occidental en el siglo XX. Partiendo de esta idea preliminar nos hemos centrado en algunas de las películas de Francis Ford Coppola para comprobar como es aplicable al cine algunas de las conclusiones críticas y creativas de la poética del mito desarrollada en el ámbito literario en la primera mitad del siglo XX. Tomaremos como obra de referencia *Apocalypse Now* 1979, película que consideramos una de las propuestas más cercanas a lo que supondría un filme mitologizante sin olvidarnos de otras películas de referencia en la filmografía del director norteamericano como son la trilogía de *El Padrino*, *Dr. Cula* de Bram Stoker o *El hombre sin edad*.

Descripción Resúmen Inglés Myth and Literature in the filmography of Francis Ford Coppola: A study in myth criticism based on *Apocalypse Now* within both the academic fields of the theory of literature and comparative literature and from a philosophical perspective that of aesthetics and art theory. Since its inception cinema and literature have been closely intertwined and there have been many studies from various narrative perspectives about the matter of film creation. In this sense the multiple literary theories that arose during the last century and that laid the foundation for future cinematographic theory and criticism play a fundamental role. There exists amongst all of these a group of literary theories which were especially relevant in the first half of the 20th century which are categorized through the study of literary creation from their very roots: myth and ritual. Of these the theories of myth ritualism, myth criticism, psychoanalysis, structuralism and symbolist theory deserve particular attention. All of these theories agree on one thing and that is the study of myth from various multidisciplinary perspectives with the aim of corroborating how the earliest human narrations have endured in the history of human culture by means of literary, pictorial or cinematographic creation. In addition all of the aforementioned literary theories were of great help in the highly important process of re-mythologisation that took place at the end of the nineteenth century which helped to introduce myth and ancestral ritual as the epicentre of artistic creation. Theories such as those of Frazer, Freud, Jung, Joseph Campbell and Mircea Eliade were incorporated into both literary criticism as well as literary creation. It is due to the influence of all of these anthropological, psychological, sociological and linguistic theories in the study of myth and its relation with literature that an essential myth poetics was established for the literary creation of the first half of the twentieth century attracting the attention of such authors as James Joyce, Thomas Mann, Franz Kafka, H. D. Lawrence and T. S. Eliot amongst others. The main objective of this study is to try to understand and evaluate how myth poetics have influenced the cinematographic field. The aim is to identify the extent to which the aforementioned theories have been assimilated in film creation using as a reference the filmography of the American film director Francis Ford Coppola. Through the analysis of some of his films we will try to prove how cinema has been albeit to a lesser extent than with literature another step in the process of re-mythologization that affected western cultural production in the twentieth century. Taking this idea as our starting point we have focused on some of the films of Francis Ford Coppola to examine how some of the critical and creative conclusions of myth poetics developed in the literary field in the first half of

the twentieth century can be applied to cinema As a reference we will examine Apocalypse Now 1979 since it is a film which corresponds closely with the concept of a mythologizing film without forgetting other the directors other important works such as The Godfather trilogy Bram Stoker's Dracula or Youth without Youth

Cultura, gobernanza local y desarrollo urbano Joaquim Rius Uldemolins, 2019-02-12 La cultura entendida como esfera de actividad humana dirigida a la elaboración simbólica ha tejido una estrecha relación con la ciudad a partir del Renacimiento. Al hablar de ciudad es referirse a los espacios centrales de la cultura, las instituciones culturales que ordenan el mundo creativo, concentran las luchas por el poder simbólico y caracterizan en gran medida el peso y la identidad cultural de las ciudades. Además, los distritos y clusters culturales concentran a artistas, intermediarios e industrias culturales, convirtiéndose así en polos atractores de la actividad creativa, del consumo y el turismo cultural. Este libro examina este fenómeno internacional desde una perspectiva sociológica y se centra en el caso de dos grandes ciudades: Barcelona y Valencia, poniendo de relieve su creciente importancia para el desarrollo local al mismo tiempo que analiza críticamente sus consecuencias para la gobernanza cultural y urbana

El desafío de la cultura moderna Marc Baldó Lacomba, Ana M. Botella Nicolás, 2020-06-30 La Segunda República brilla en la memoria democrática de los ciudadanos gracias a su esfuerzo por desarrollar políticas de libertad e igualdad. Una parte importante de estas se centraron en la cultura, frente a la que, conscientes de su importancia, se apostó con decisión para ganar el porvenir y la transformación de la vida. Esta obra analiza la experiencia de la ciudad de Valencia en este ámbito a través de múltiples campos: el educativo, la creación artística, las artes gráficas, el teatro, el cine, las fallas, las bandas de música, el café musical o el concierto sinfónico. A la música se le ha dado especial énfasis. El Grup dels Joves, integrado por cinco compositores, se propuso aunar el arte popular del país con la vanguardia, desafiando herencias y rutinas. Este impulso de futuro también lo asumieron creadores y profesionales de las diversas manifestaciones culturales que se plantearon superar estancamientos, rutinas y tópicos para contribuir a la construcción de la modernidad y la universalidad cultural. En este estudio de la realidad cultural de aquellos días han participado profesores de las universidades de Valencia y Politécnica de Valencia, así como del Conservatorio Superior de Música y dinamizadores de la cultura.
