Office for Subject Cataloging Policy,1990 Understanding Vietnam Neil L. Jamieson,2023-11-15 The American experience in Vietnam divided us as a nation and eroded our confidence in both the morality and the effectiveness of our foreign policy Yet our understanding of this tragic episode remains superficial because then and now we have never grasped the passionate commitment with which the Vietnamese clung to and fought over their own competing visions of what Vietnam was and what it might become To understand the war we must understand the Vietnamese their culture and their ways of looking at the world Neil L Jamieson after many years of living and working in Vietnam has written the book that provides this understanding Jamieson paints a portrait of twentieth century Vietnam Against the background of traditional Vietnamese culture he takes us through the saga of modern Vietnamese history and Western involvement in the country from the coming of the French in 1858 through the Vietnam War and its aftermath Throughout his analysis he allows the Vietnamese both our friends and foes and those who wished to be neither to speak for themselves through poetry fiction essays newspaper editorials and reports of interviews and personal experiences By putting our old and partial perceptions into this new and broader context Jamieson provides positive insights that may perhaps ease the lingering pain and doubt resulting from our involvement in Vietnam As the United States and Vietnam appear poised to embark on a new phase in their relationship

Jamieson's book is particularly timely. The American experience in Vietnam divided us as a nation and eroded our confidence in both the morality and the effectiveness of our foreign policy. Yet our understanding of this tragic episode remains superficial because then and now we have never grasped it fully. *Advances in Computational Collective Intelligence* Krystian Wojtkiewicz, Jan Treur, Elias Pimenidis, Marcin Maleszka, 2021-09-29 This book constitutes refereed proceedings of the 13th International Conference on Computational Collective Intelligence ICCCI 2021 held in Kallithea Rhodes Greece in October November 2021. Politics of Ethnic Classification in Vietnam Masako Itō, 2013 Officially the Socialist Republic of Vietnam has a total of 54 ethnic groups including the majority Kinh and 53 ethnic minority groups. This book examines the history of the ethnic group determination process, highlighting some of the challenges the official policies pose to both the state and the affected peoples. Vietnam has proudly embraced its multiethnic identity, seeking the equality of all ethnic groups in the interests of national unity. Yet among other things, it appears that the total number of ethnic categories was rather arbitrarily determined initially and then fiercely defended by influential politicians and academics. Furthermore, the extensive field surveys reveal that ethnic policies are frequently manipulated at the regional and local levels in pursuit of economic interests and not infrequently to the detriment of those they were intended to benefit. Series: Kyoto Area Studies on Asia Vol. 23 Professor Ito has succeeded admirably in juxtaposing her study of official documents, interviews with officials and academics, and the results of her own excellent first-hand field work to demonstrate why ethnic classification in Vietnam has been far more a political than a scientific project. Her book deserves to be read not only by those interested in Vietnam but also by others interested in the politics of ethnicity more generally. Pacific Affairs Vol. 87 No. 4 December 2014 *Toward a Framework for Vietnamese American Studies* Linda Ho Peché, Alex-Thai Dinh Vo, Tuong Vu, 2023-02-10 This collection is the first work of its kind to synthesize the current state of Vietnamese American studies. Offering cutting-edge analysis from social sciences and humanities perspectives, this volume serves as a foundational resource and a site for interrogating underexplored facets of the field.
