## **Relationship Enhancement Family Therapy:**

*Relationship Enhancement Family Therapy* Barry G. Ginsberg, 1997-03-28 Self sufficiency should be the goal of any therapeutic undertaking. Pioneered by Bernard Guerney in the 1950s and proven effective over several decades, relationship enhancement RE therapy aims at training clients in the skills they need to identify and resolve causes of stress and discord within the family for themselves. Authored by a senior clinician who trained under Bernard Guerney, *Relationship Enhancement Family Therapy* is the first comprehensive guide to the theory and practice of this valuable approach to family therapy. Dr. Ginsberg begins with a thorough review of the theoretical underpinnings of RE, followed by a delineation of the role of the therapist in RE. Bolstered by extensive case studies, the remainder of the book is devoted to providing clinicians with practical guidelines for applying RE methods.

**Relationship Enhancement Therapy** Robert F. Scuka, 2013-01-11 Relationship Enhancement Therapy RE is a couples therapy system conceived of, designed, and first implemented by Bernard Guerney Jr. who integrated the client-centered theory of Carl Rogers, the interpersonal theory of Henry Stack Sullivan, the behavior modification and learning theories of Skinner and Bandura, and the psychodynamic theory of Freud in formulating RE. In this book, Dr. Scuka presents an up-to-date comprehensive theoretical and practical treatment of RE in which he gives the reader a guide to implementing the principles of this dynamic theory. The book is written principally with couples therapy in mind, although there is an acknowledged relevance to family therapy, and the author calls attention to the many skills and therapy techniques that would be applicable to family therapy. Though designed to allow a therapist of any level of experience to begin working with the RE model, this book is more than a standard cookbook as it considers a variety of special RE therapy techniques, discusses the entire clinical intake process, the application of the RE model to the treatment of affairs with difficult clients, and family therapy issues such as domestic violence and stepfamilies.
