Ford, 2006-08-24 This is the first book length study in any language of J kei 1155 1213 a prominent Buddhist cleric of the Hoss Yog ac ara school whose life bridged the momentous transition from Heian 794 1185 to Kamakura 1185 1333 Japan Kamakura Buddhism has drawn notable scholarly attention largely because it marks the emergence of new schools Pure Land Nichiren and Zen that came to dominate the Buddhist

landscape of Japan Although J kei is invariably cited as one of the leading representatives of established Buddhism during the Kamakura period he has been seriously neglected by Western scholars In this book James L Ford aims to shed light on this pivotal and long overlooked figure Ford argues convincingly that J kei is an ideal personage through which to peer anew into the socio religious dynamics of early medieval Japan Indeed J kei is uniquely linked to a number of decisive trends and issues of dispute including the conflict between the established schools and H nen s exclusive nenbutsu movement the precept revival movement doctrinal reform efforts the proliferation of prominent reclusive monks tonseis the escalation of fundraising kanjin campaigns and popular propagation and the conspicuous revival of devotion toward S kyamuni and Maitreya J kei represents a paradigm within established Buddhism that recognized the necessity of accessing other powers through esoteric practices ritual performances and objects of devotion While J kei is best known as a leading critic of H nen s exclusive nenbutsu movement and a conservative defender of normative Buddhist principles he was also a progressive reformer in his own right Far from defending the status quo J kei envisioned a more accessible harmonious and monastically upright form of Buddhism Through a detailed examination of J kei s extensive writings and activities Ford challenges many received interpretations of J kei s legacy and the transformation of Buddhism in early medieval Japan This book fills a significant lacuna in Buddhist scholarship Battling the Buddha of Love Jessica Marie Falcone,2018-09-15 No detailed description available for Battling the Buddha of Love

The Buddha Within S. K. Hookham,Susan K. Hookham,1991-01-01
Tathagatagarbha Buddha Nature is a central concept of Mahayana Buddhism crucial to all the living practice traditions of Tibetan and Zen Buddhism Its relationship to the concept of emptiness has been a subject of controversy for seven hundred years Dr Hookam s work investigates the divergent interpretations of these concepts and the way the Tibetan tradition is resolving them In particular she does this with reference to the only surviving Indian commentary on the Tathagatagarbha doctrine the Ratnagotravibhaga This text addresses itself directly to the issue of how to relate the doctrine of emptiness the illusory nature of the world to that of the truly existing changeless Absolute the Buddha Nature This is the first work by a Western writer to present an analysis of the Shentong tradition based on previously untranslated sources The Shentong view rests on meditative experience that is inaccessible to the conceptualizing mind It is deeply rooted in the sutra tradition of Indian Buddhism and is central to an understanding of the Mahamudra and Dzogchen traditions and Tantric practice among Kagyupas and Hyingmapas *Oriental Religions and Their Relation to Universal Religion* Samuel Johnson,1877 Krsna: Lord or Avatara? Freda Matchett,2013-01-11 This is a study of three Sanskrit texts the Harivamsa the Visnupurana and the Bhagavatabelonging to the puranic genre the chief source of knowledge of the origins of popular Hinduism It treats them as integrated compositions and displays the theological motives and creative skill which have gone into the making of them It shows how all three texts contain narratives which present Krishna as one of several subordinate manifestations avataras of Vishnu All three use much the same traditional material yet each by arranging this material in its own way presents a

distinctive view of Krishna and the most influential of them the Bhagavata builds up a world view in which Krishna not Vishnu is supreme

The Publishers Weekly, 1979 **Buddhahood Embodied** John J. Makransky, 1997-07-31 To enter the Mahayana Buddhist path to enlightenment is to seek both to become free from our dualistic deluded world and to remain actively engaged in that world until all others are free How are these two apparently contradictory qualities to be embodied in the attainment of buddhahood dharmakaya How can one's present practice accomplish that These questions underlie a millennium old controversy over buddhahood in India and Tibet that

centers around a cherished text the Abhisamayalamkara Makransky shows how the Abhisamayalamkara's composite redaction from Abhidharma Prajnaparamita and Yogacara traditions permitted its interpreters to perceive different aspects of those traditions as central in its teaching of buddhahood This enabled Indians and Tibetans to read very different perspectives on enlightenment into the Abhisamayalamkara through which they responded to the questions in startlingly different ways The author shows how these perspectives provide alternative ways to resolve a logical tension at the heart of Mahayana thought inscribed in the doctrine that buddhahood paradoxically transcends and engages our world simultaneously Revealing this tension as the basis of the Abhisamayalamkara controversy Makransky shows its connection to many other Indo Tibetan controversies revolving around the same tension disagreements over buddhahood's knowledge embodiment and accessibility to beings in Buddha nature and through the path Tracing the source of tension to early Mahayana practice intuitions about enlightenment the author argues that different perspectives in these controversies express different ways of prioritizing those practice intuitions

Domesticating the Dharma Richard D. McBride II, 2007-10-31 Western scholarship has hitherto described the assimilation of Buddhism in Korea in terms of the importation of Sino Indian and Chinese intellectual schools This has led to an overemphasis on the scholastic understanding of Buddhism and overlooked evidence of the way Buddhism was practiced on the ground Domesticating the Dharma provides a much needed corrective to this view by presenting for the first time a descriptive analysis of the cultic practices that defined and shaped the way Buddhists in Silla Korea understood their religion from the sixth to tenth centuries Critiquing the conventional two tiered model of elite versus popular religion Richard McBride demonstrates how the eminent monks royalty and hereditary aristocrats of Silla were the primary proponents of Buddhist cults and that rich and diverse practices spread to the common people because of their influence Drawing on Buddhist hagiography traditional narratives historical anecdotes and epigraphy McBride describes the seminal role of the worship of Buddhist deities in particular the Buddha kyamuni the future buddha Maitreya and the bodhisattva Avalokite vara in the domestication of the religion on the Korean peninsula and the use of imagery from the Maitreya cult to create a symbiosis between the native religious observances of Silla and those being imported from the Chinese cultural sphere He shows how in turn Buddhist imagery transformed Silla intellectually geographically and spatially to represent a Buddha land and sacred locations detailed in the Avata saka S tra Huayan jing Hwa m ky ng Emphasizing the importance of the interconnected vision of the universe described in the Avata saka S tra McBride depicts the synthesis of Buddhist cults and cultic practices that flourished in Silla Korea with the practice oriented Hwa m tradition from the eighth to tenth centuries and its subsequent rise to a uniquely Korean cult of the Divine Assembly described in scripture
