I'm Dyslexic - It's a great way to be - with God Gametes Q&A Robert Jameson,2013-12-03 No doubt there are people with mild dyslexia who can be taught to read and spell Unfortunately there are others myself included who will never have adequate literacy skills I still get told If I really tried to learn to read I could do it That makes me really mad I have completed graduate and post graduate university courses and have four books with a total of 300 000 words in print And I still cannot read or spell adequately without the aid of a computer I hear people saying they were dyslexic that they found this or that remedy and the problem was fixed That is fine for them but I will take my dyslexia to the grave Thankfully though text to speech technology came along in time for me It has made it possible for me to research and write my books and to cope with life in a world dominated by the printed word
