Relativist Absolutist The Early Neocla:

The Intellectual Revolution of the Seventeenth Century (Routledge Revivals) Charles Webster, 2012-10-12

Intellectual history and early modern history have always occupied an important place in Past and Present First published in 1974 this volume is a collection of original articles and debates published in the journal between 1953 and May 1973 dealing with many aspects of the intellectual history of the seventeenth century Several of the contributions have been extremely influential and the debates represent major standpoints in controversies over genesis of modern ideas Although England is the focus of attention for most of the contributors their themes have wider significance Among the topics covered in the collection are the political thought of the Levellers and of James Harrington radical social movements of the Puritan Revolution the ideological context of physiological theories associated with William Harvey the relationship between science and religion and the social relations of science and the function of millenarianism and eschatology in the seventeenth century The editor's Introduction indicates the context in which the articles were composed and provides valuable bibliographical information about the subjects discussed

Convention, 1500-1750 Lawrence Manley, 1980 A major reinterpretation of the development of European literary theory this wide ranging study offers a new approach to ways of thinking about man's work in general This book is a history of the idea of convention the roles it played in the formative stages of English and Continental literary theory and in the development of modern thought

Sociable Criticism in England, 1625-1725 Paul Trolander, Zeynep Tenger, 2007 Sociable Criticism in England explores how from 1625 to 1725 cultural practices and discourses of sociability rules for small group discussion friendship discourse and patron client relationships determined the venues within which critical judgments were rendered disseminated and received It establishes how individuals operating in small groups were authorized to circulate critical judgments and commentary why certain modes of critical exchange were treated as beyond the ken of good social manners and how such expectations were subverted or manipulated to avoid the imputation that individuals had violated the standards for offering public criticism Philips George Villiers John Dryden Lady Margaret Cavendish John Dennis and Joseph Addison this study argues that seventeenth and early eighteenth century criticism could circulate either orally in manuscript or in print so long as it appeared to originate in interpersonal encounters considered appropriate to critical discussion

The Historical Revolution (Routledge Revivals) Frank Smith Fussner, 2010-10-04 First published in 1962 Frank Smith Fussner's introduction to the revolution in English historical writing and thought during the period of the renaissance and reformation 1580 1640 is an influential and thoroughly researched work It offers an introduction not only to the context of the period and the important English historians of the era but also provides a thorough historiographical approach which deals with the purpose method content style and significance of these historians within the framework of this historical revolution

Rhetorical Renaissance Kathy Eden, 2023-01-06 Kathy Eden reveals the unexplored classical rhetorical theory at the heart of iconic Renaissance literary works Kathy Eden explores the

intersection of early modern literary theory and practice She considers the rebirth of the rhetorical art resulting from the rediscovery of complete manuscripts of high profile ancient texts about rhetoric by Plato Aristotle Cicero Quintilian and Tacitus all unavailable before the early fifteenth century and the impact of this art on early modern European literary production This profound influence of key principles and practices on the most widely taught early modern literary texts remains largely and surprisingly unexplored Devoting four chapters to these practices on status refutation similitude and style Eden connects the architecture of the most widely read classical rhetorical manuals to the structures of such major Renaissance works as Petrarch's Secret Castiglione's Book of the Courtier Erasmus's Antibarbarians and Ciceronianus and Montaigne's Essays Eden concludes by showing how these rhetorical practices were understood to work together to form a literary masterwork with important implications for how we read these texts today

The Literary History of England

Donald F. Bond, G. Sherburn, 2003-09-02 English historians in the Middle Ages is an overview of the history of English historians and their works in the Middle Ages English historians helped lay the groundwork for modern historical methodology provided vital accounts of the early history of England its culture and revelations about the historians themselves The most remarkable period of historical writing was during the High Middle Ages in the 12th and 13th centuries when English chronicles produced works with a variety of interest wealth of information and amplitude of range However one might choose to view the reliability

Samuel Johnson and Neoclassical Dramatic Theory Robert D.

Stock, 1973 **The Cultural Milieu of Addison's Literary Criticism** Lee Andrew Elioseff, 2014-07-03 The whole history of literary criticism is illuminated by this analysis of one English critic's work It is in effect a literary case study presented as partial answer to the complicated question what cultural conditions are conducive to the development of a particular theory of literature Initially Lee Andrew Elioseff defines four difficult responsibilities of the historian of criticism the interpretation of his material in terms of all the cultural circumstances that produced it elimination of the purely chance elements such as private feuds and unimportant personal tastes consideration of those aspects of criticism that best indicate the dominant critical opinions of the age and the principles that are leading it and illumination of the present critical situation Concentrating upon the first three of these obligations Elioseff seeks the sources of modern literary criticism in the works of Joseph Addison and his contemporaries analyzing with great care and accuracy their responses to problems both literary and nonliterary in their culture From the analysis Addison emerges as a very significant figure a critic who moved from Renaissance and neoclassical humanism and became one of the most important predecessors of romantic criticism a formulator of what was to become the emotive strain in literary criticism an essayist who raised many problems shared by the modern psychological critic whose immediate concern is the effect of the literature upon its audience Drawing abundantly from a wide knowledge of philosophy literature and history and exercising an incisive critical acumen Elioseff discusses Addison's criticism in three aspects The Critical Milieu an interpretation of Addison's relation to his age as it

influenced his views on tragedy epic poetry and ballads Addison and Eighteenth Century England a consideration of contemporary political thought morals and theology and the Empirical Tradition an analysis of Addison's critical views as expressed in *The Pleasures of the Imagination* **Dryden's Classical Theory of Literature** Edward Pechter, 1975-03-20 Professor Pechter's book attempts to describe the consistent structure of both style and method within which Dryden examines orders and evaluates literary experience This mode permits Dryden to recognise the real differences between French and English drama Virgilian and Ovidian style judgement and fancy to take some of the more familiar from among Dryden's typical conjunctive pairs without either merging their differences into some grand synthesis or transforming them into mutually exclusive antitheses Dryden's is above all a comprehensive theory of literature which aims at responding to a broad range of various literary styles genres faculties and effects Dryden's balance is classical the poise of the golden mean and Professor Pechter endeavours to give fresh life to classical as an epithet often previously applied to Dryden Ranging among writers in ancient Greece and Rome and among Dryden's contemporaries in England and France the author outlines a rich literary tradition within which Dryden's criticism is more easily appreciated and better understood *The Just and the Lively* Michael Werth Gelber, 2002 Recognition is often considered a means to de-escalate conflicts and promote peaceful social interactions This volume explores the forms that social recognition and its withholding may take in asymmetric armed conflicts examining the risks and opportunities that arise when local state and transnational actors recognise misrecognise or deny recognition of armed non state actors By studying key asymmetric conflicts through the prism of recognition it offers an innovative perspective on the interactions between armed non state actors and state actors In what contexts does granting recognition to armed non state actors foster conflict transformation What happens when governments withhold recognition or label armed non state actors in ways they perceive as misrecognition The authors examine the ambivalence of recognition processes in violent conflicts and their sometimes unintended consequences The volume shows that while non recognition prevents conflict transformation the recognition of armed non state actors may produce counterproductive precedents and new modes of exclusion in intra state and transnational politics *A Concise Bibliography for Students of English* Arthur Garfield Kennedy, Donald B. Sands, 1966 **John Dryden** David J. Latt, Samuel Holt Monk, 1976-04-12 John Dryden was first published in 1976 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions This annotated bibliography represents a comprehensive updating of Samuel Holt Monk's earlier work also published by the University of Minnesota Press John Dryden A List of Critical Studies Published from 1895 to 1948 out of print Since the publication of that earlier bibliography the number of studies devoted to Dryden has more than tripled and thus this new bibliography is essential for scholars of Dryden or related aspects of seventeenth and eighteenth century English literature This volume contains four times as many entries as the earlier volume and there is an extensive introduction by Professor Latt which surveys the historical shifts in

critical opinion of Dryden The new volume incorporates all of the listings contained in the first one The entries include works that focus directly on Dryden those that discuss Dryden's works in the context of other writers and those that investigate material of general importance to Dryden studies Dissertations from American German English and French universities are included Complete bibliographic information is provided for virtually every entry The listings are grouped in nine categories and there is an additional section which covers *Festschriften* and other collections of essays Works of exceptional value and those which develop new points of view are so designated The publishing history of each item is included along with the standard bibliographic information The index includes topical as well as author entries **Relativist & Absolutist** Emerson

R. Marks, 1955 On Poe Louis J. Budd, Edwin Harrison Cady, 1993 From 1929 to the latest issue *American Literature* has been the foremost journal expressing the findings of those who study our national literature The journal has published the best work of literary historians critics and bibliographers ranging from the founders of the discipline to the best current critics and researchers The longevity of this excellence lends a special distinction to the articles in *American Literature* Presented in order of their first appearance the articles in each volume constitute a revealing record of developing insights and important shifts of critical emphasis Each article has opened a fresh line of inquiry established a fresh perspective on a familiar topic or settled a question that engaged the interest of experts **The Meaning of Literature** Timothy J. Reiss, 2018-10-18 In this searching and wide ranging book Timothy J. Reiss seeks to explain how the concept of literature that we accept today first took shape between the mid sixteenth century and the early seventeenth a time of cultural transformation Drawing on literary political and philosophical texts from Central and Western Europe Reiss maintains that by the early eighteenth century divergent views concerning gender politics science taste and the role of the writer had consolidated and literature came to be regarded as an embodiment of universal values During the second half of the sixteenth century Reiss asserts conceptual consensus was breaking down and many Western Europeans found themselves overwhelmed by a sense of social decay A key element of this feeling of catastrophe Reiss points out was the assumption that thought and letters could not affect worldly reality Demonstrating that a political discourse replaced the no longer viable discourse of theology he looks closely at the functions that letters served in the reestablishment of order He traces the development of the idea of literature in texts by Montaigne Spenser Sidney Shakespeare Lope de Vega and Cervantes among others through seventeenth century writings by such authors as Davenant Boileau Dryden Rymer Anne Dacier Astell and Leibniz to eighteenth century works including those of Addison Pope Batteux and Hutcheson Burke Lessing Kant and Wollstonecraft Reiss follows key strands of the tradition particularly the concept of the sublime into the nineteenth century through a reading of Hegel's *Aesthetics* *The Meaning of Literature* will contribute to current debates concerning cultural dominance and multiculturalism It will be welcomed by anyone interested in literature and in cultural studies including literary theorists and historians comparatists intellectual historians historical sociologists and philosophers **A Literary**
