Relax Daydream And Draw:

Make Your Own Preschool Games Sally Goldberg, 2009-07-21 Nearly 90% of all brain growth occurs in the first five years of life. Parents can capitalize on this impressionable time by improving and varying the sights, sounds, and smells in a child's immediate surroundings. With this eminently practical guide in hand, parents can actively promote the motor, cognitive, and social skills that will make a difference in a child's readiness for formal academic learning later on. Ideal for busy parents, *Make Your Own Preschool Games* describes quick and inexpensive activities that can be assembled from materials found at home: paper cups, bottle caps, clothespins, magazines, shoeboxes, and grocery bags. Designed to be used as part of dynamic play, these games will help expand a child's math, science, art, music, language, reading, and writing knowledge while providing the necessary and fun one-on-one bonding time that every child craves with her parents. Music Don Campbell, 2014-06-18 Each morning as we hum or chant or strum, we can celebrate the renewal of our path with our own humble offering of the glorious gift called music. This book offers a panorama of ways music can nourish our lives. Paul Winter, award-winning musician and composer, says music profoundly affects body, mind, and spirit. It can speed recovery from disease, heal psychological wounds, and open us to the ultimate mystery of life. Celebrated author and educator Don Campbell presents an impressive anthology of essays exploring the latest scientific research about the healing use of sound in traditional cultures. Contributors include composers, musicians, and music therapists; doctors and psychologists; pioneers in neuroscience and biophysics; and teachers in diverse spiritual traditions. They address such fascinating topics as: Why chanting increases energy; The therapeutic use of sacred music; Gender differences in healing with sound; How sonic resonance positively affects heart rate and brain activity. Einstein Never Used Flash Cards Kathy Hirsh-Pasek, PhD, Roberta Michnick Golinkoff, PhD, Diane Eyer, PhD, 2004-08-12 BOOKS FOR A BETTER LIFE AWARD WINNER An enlightening guide to how infants and toddlers learn and why play is the key to enhancing your child's development. A smashingly good book. Edward Zigler, PhD, director, Yale's Center in Child Development and Social Policy and the father of Head Start programs. In *Einstein Never Used Flash Cards*, highly credentialed child psychologists Kathy Hirsh-Pasek, PhD, and Roberta Michnick Golinkoff, PhD, with Diane Eyer, PhD, offer a compelling indictment of the growing trend toward accelerated learning and the cult of achievement that pressures parents to help their children to get ahead. It's a message that stressed-out parents are craving to hear. Letting tots learn through unstructured play is not only okay; it's a better way for children to learn than drilling academics. Drawing on overwhelming scientific evidence from their own studies and the collective research results of child development experts, Kathy, Roberta, and Diane explain the process of learning from a child's point of view, addressing how play helps boost learning in key areas of development such as math, reading, verbal communication, science, self-awareness, and social skills. To help parents foster creative play, they offer forty age-appropriate games. These simple, fun, yet powerful exercises work as well or better than expensive enrichment programs and high-tech
