Fine, 2012-12-06 Theodore H Stanley M D Anesthesiology and Pain Management contains the Refresher Course manuscripts of the presentations of the 36th Annual Postgraduate Course in Anesthesiology which took place at The Cliff Conference Center in Snowbird Utah February 22 26 1991 The chapters reflect new data and concepts within the general framework of pain research and basic science clinical topics in pain management The purposes of the textbook are to 1 act as a reference for the anesthesiologists attending the meeting and 2 serve as a vehicle to bring many of the latest concepts in anesthesiology to others within a short time of the formal presentation Each chapter is a brief but sharply focused glimpse of the interests in anesthesia expressed at the conference This book and its chapters should not be considered complete treatises on the subjects addressed but rather attempts to summarize the most salient points This textbook is the ninth in a continuing series documenting the proceedings of the Postgraduate Course in Salt Lake City We hope that this and the past and future volumes reflect the rapid and continuing evolution of anesthesiology

Assessing Chronic Pain Paul M. Camic, Frederick D. Brown, 2012-12-06 Assessing Chronic Pain offers a unique approach to the evaluation and assessment of treatment for chronic pain patients Rather than adhering to the criteria of any one discipline s approach to treating chronic pain whether that of anesthesia physical therapy psychiatry or psychology the editors overview a range of disciplines and focus on the integration of those approaches to achieve what they term a handbook rather than a textbook for the assessment of chronic pain from a multidisciplinary perspective Issues confronting clinicians have been compounded by procedural problems and assessment indecision but in Assessing Chronic Pain Drs Camic and Brown create a framework to guide specialists in all fields in approaching the patient suffering from chronic non malignant pain Neural Blockade in Clinical Anesthesia and Management of Pain Michael J.
