Religion And Politics Cultural Perspectives:

Religion and Politics Bernhard Giesen, Daniel Šuber, 2005 The volume collects eminent works on the relationship between politics and religion by leading figures in Cultural Studies The contributors share in the basic belief that the roots of contemporary conflicts have to be uncovered from the historical descent of religion **Religion and Politics** Johann P. Arnason, 2014-04-23 Combining theoretical and empirical research these 12 essays examine the role of religion and its prospects in Europe On the one hand the volume discusses growing Islamic presence in Europe as a reminder of enduring religious pluralism not least in view of the high prominence given to Islamic experience in arguments against over generalised notions of secularisation On the other hand it explores the question of Christian motivated extremism and religious nationalism Against this background the contributors discuss the role of religion in other countries throughout the world including China Japan Russia and the MENA region *Religion and Politics* Bernhard Giesen, Daniel Šuber, 2005-06-01 This volume brings together essays by such eminent scholars like Shmuel N Eisenstadt Mary Douglas Thomas Luckmann Reinhart Koselleck and Jan Assmann on the topic of politics and religion The relationship between religious and cultural visions on the one hand and socio political structures on the other becomes elaborated from a wide historical and culturalist perspective These accounts are flanked by contributions of a younger generation of scholars that focus on new aspects of secularisation The book aims at reviving the interdisciplinary discourse on a matter which seems to be crucial to the question of future solidarity between different cultures and religions in a globalising world Religion and Politics in South Africa Abdulkader Tayob, Wolfram Weisse, **Politics of Religion in Western Europe** François Foret, Xabier Itçaina, 2013-06-17 Religion is becoming increasingly important to the study of political science and to re examine key concepts such as democracy securitization foreign policy analysis and international relations The secularization of Europe is often understood according to the concept of multiple modernities the idea that there may be several roads to modernity which do not all mean the eradication of religion This framework provides support for the view that different traditions societies and groups can come to terms with the components of modernity capitalism democracy human rights science and reason while keeping in touch with their religious background faith and practice Contributors examine the interaction between EU integration processes and Western European countries such as Belgium France Luxembourg Austria Scandinavia Italy and the UK and shine fresh light on the economic and cultural contexts brought about by relationships between politics and religion including immigrant religions and new religious movements This volume combines theoretical perspectives from political sociology and international relations to consider the role of religion as a source of power identity and ethics in institutions and societies Politics of Religion in Western Europe will be of interest to scholars of politics religion the European Union and political sociology **Power, Politics and the Cults of Isis**, 2014-07-24 In the Hellenistic and Roman world intimate relations existed between those holding power and the cults of Isis This book is the first to chart these

various appropriations over time within a comparative perspective Ten carefully selected case studies show that the Egyptian gods were no exotic outsiders to the Hellenistic and Roman Mediterranean but constituted a well institutionalised and frequently used religious option Ranging from the early Ptolemies and Seleucids to late Antiquity the case studies illustrate how much symbolic meaning was made with the cults of Isis by kings emperors cities and elites Three articles introduce the theme of Isis and the *longue dur e* theoretically simultaneously exploring a new approach towards concepts like ruler cult and Religionspolitik

Education and Disability in Cross-Cultural Perspective Susan Jeanne Peters, 2013-11-26 A radical departure from previous chronicles of education for people with disabilities this book views special education from a broader perspective Its central thesis is that cultural values and expectations play a dominant role in understanding the structure and function of special education While theories of the social construction of disability have been written about in a growing body of research since the 1960s no attempt has been made to create a cross cultural framework This work offers such a framework Eight chapters written by educators in each country s educational system cover the following nations China Great Britain Hungary Japan Iran Pakistan United States and Zimbabwe Historical discussions in each chapter provide a context for current practice An index and illustrations are also included

Monotheism, Intolerance, and the Path to Pluralistic Politics Christopher A. Haw, 2021-06-17 Discussions of monotheism often consider its bigotry toward other gods as

a source of conflict or emphasize its universality as a source of peaceful tolerance Both approaches however ignore the combined danger and liberation in monotheism's intolerance In this volume Christopher Haw reframes this important argument He demonstrates the value of rejecting paradigms of inclusivity in favor of an agonistic pluralism and intolerance of absolutism Haw proposes a model that retains liberal pluralistic principles while acknowledging their limitations and he relates them to theologies latent in political ideas His volume offers a nuanced evolutionary and historical understanding of the biblical tradition's emergence and its political consequences with respect to violence It suggests how we can mediate impasses between liberal and conservative views in culture wars between liberal inclusivity and conservative decisionism and on the religious front between apologetics for exclusive monotheism and critiques of its intolerance **Routledge**

Equality in Argentina Hans Geir Aasmundsen, 2016-11-01 In Argentina Pentecostalism had a breakthrough in the early 1980s and today more than 10 per cent of the population are Pentecostals The revival coincided with a socio political transformation of Argentinean society After half a century of dictatorships and Peronism democracy was restored and structural changes paved the way for an autonomisation of the political economic scientific and religious spheres The new form of society that developed resembles what in this study is called a Western model which to a large degree has been and still is spread on a global scale In this book Aasmundsen examines the religious sphere and how Pentecostals relate to society at large and the political and judicial spheres in particular **The Marketization of Religion** François Gauthier, Tuomas Martikainen, 2020-09-10 The Marketization of Religion provides a novel theoretical understanding of the relationship between religion and economy of today's world A major feature of today's capitalism is marketization While the importance that economics and economics related phenomena have acquired in modern societies has increased since the consumer and

neoliberal revolutions and their shock waves worldwide social sciences of religion are still lagging behind acknowledging the consequences of these changes and incorporating them in their analysis of contemporary religion Religion as many other social realities has been traditionally understood as being of a completely different nature than the market Like oil and water religion and the market have been mainly cast as indissoluble into one another Even if notions such as the marketization commoditization or branding of religion and images such as the religious and spiritual marketplace have become popular some of the contributions aligned in this volume show how this usage is mostly metaphorical and at the very least problematic What does the marketization of religion mean The chapters provide both theoretical and empirical discussion of the changing dynamics of economy and religion in today s world Through the lenses of marketization the volume discusses the multiple at times surprising connections of a global religious reformation Furthermore in its use of empirical examples it shows how different religions in various social contexts are reformed due to growing importance of a neoliberal and consumerist logic This book was originally published as a special issue of the journal Religion

The Politics of Cultural Differences David C. Leee,Kenneth D. Wald,Brian S. Krueger,Paul D. Mueller,2009-01-10 How did Republicans manage to hold the White House through much of the past half century even as the Democratic Party held the hearts of most American voters The authors of this groundbreaking study argue that they did so by doing what Democrats have also excelled at triggering psychological mechanisms that deepen cultural divisions in the other party s coalition thereby leading many of its voters either to choose the opposing ticket or to stay home The Politics of Cultural Differences is the first book to develop and carefully test a general theory of cultural politics in the United States one that offers a compelling new perspective on America s changing political order and political conflict in the post New Deal period 1960 1996 David Leee Kenneth Wald Brian Krueger and Paul Mueller move beyond existing scholarship by formulating a theory of campaign strategies that emphasizes cultural conflict regarding patriotism race gender and religion Drawing on National Election Studies data they find that Republican politicians deployed powerful symbols e g tax and spend liberals to channel targeted voters toward the minority party And as partisanship approached parity in the 1990s Democratic leaders proved as adept at deploying their own symbols such as a woman s right to choose to disassemble the Republican coalition A blend of sophisticated theory and advanced empirical tools this book lays bare the cultural dimensions of American political life

Christhu Doss,2022-11-23 Weaving together the varied and complex strands of anti colonial nationalism into one compact narrative Christhu Doss takes an incisive look at the deeper and wider historical process of decolonization in India In India after the 1857 Revolt Doss brings together some of the most cutting edge thoughts by challenging the cultural project of colonialism and critically examining the multi dimensional aspects of decolonization during and after the 1857 revolt He demonstrates that the deep rooted popular discontent among the Indian masses followed by the revolt generated a distinctive form of decolonization movement redemptive nationalism that challenged both the supremacy of the British Raj and the cultural imperatives of the controversial proselytizing missionary agencies Doss argues that the quests for decolonization of mind that got triggered by the revolt were further intensified by the Indocentric national education the historic Chicago discourse of Swami Vivekananda the nonviolent anti colonial struggles of Mahatma Gandhi the seditious political activism displayed by the Western Gandhian missionary satyagrahis and the de Westernization endeavours of the sandwiched Indian Christian nationalists A compelling read for historians political scientists and sociologists it is refreshingly an indispensable guide to all those who are interested in anticolonial struggles and decolonization movements worldwide Religion and Politics in America Allen D.
