## **Religion And Politics Eastwest Contrasts From Contemporary Europe:**

Religion and the Struggle for European Union Brent F. Nelsen, James L. Guth, 2015-05-01 In Religion and the Struggle for European Union Brent F. Nelsen and James L. Guth delve into the powerful role of religion in shaping European attitudes on politics, political integration, and the national and continental identities of its leaders and citizens. Nelsen and Guth contend that for centuries Catholicism promoted the universality of the Church and the essential unity of Christendom. Protestantism, by contrast, esteemed particularity and feared Catholic dominance. These differing visions of Europe have influenced the process of postwar integration in profound ways. Nelsen and Guth compare the Catholic view of Europe as a single cultural entity best governed as a unified polity against traditional Protestant estrangement from continental culture and its preference for pragmatic cooperation over the sacrifice of sovereignty. As the authors show, this deep cultural divide, rooted in the struggles of the Reformation, resists the ongoing secularization of the continent. Unless addressed, it threatens decades of hard-won gains in security and prosperity. Religion and the Struggle for European Union offers a pragmatic way forward in the EU's attempts to solve its social, economic, and political crises.

Religion and Politics in Russia: A Reader Marjorie Mandelstam Balzer, 2015-01-28 Russia is not only vast; it is also culturally diverse. The core of an empire that spanned Eurasia, in addition to the majority Russian Orthodox and various other Christian groups, the Russian Federation includes large communities of Muslims, Jews, Buddhists, and members of other religious groups, some with ancient historical roots. All are in a state of ferment, and securing formal state recognition for specific communities is often daunting. This collection provides entry into the diversity of Russia's religious communities. Marjorie Mandelstam Balzer's introduction to the volume illuminates major political, social, and cultural anthropological trends. The book is organized by religious tradition or identity, with further thematic perspectives on each set of readings. The authors include ethnologists, sociologists, political analysts, and religious leaders from many regions of the Federation. They analyze the changing dynamics of religion and politics within each community and in the context of the current drive to recentralize both political and religious authority in Moscow. Topical coverage extends from reassertions of Russian Orthodoxy to activities of Christian and Muslim missionaries to the revival of many other religions, including indigenous shamanic ones.

Religious and Sexual Nationalisms in Central and Eastern Europe, 2015-08-26 Religious and Sexual Nationalisms in Central and Eastern Europe: Gods, Gays, and Governments presents case studies from some ten countries that serve to explore the ways in which religion, nationalism, and homo sexuality intersect in public discourse. It shows how religious leaders, political and social movements, LGBT organizations, governments, and media negotiate the powers of religion and state in taking position regarding sexual diversity. These negotiations are as much about sexual morality as they are about national identity, anti-EU sentiments, and the efforts of religious institutions to regain power in post-communist societies. Contributors are Alar Kilp, Dorota Hall, Koen Sloutmaeckers, Magda Dolinska, Rydzek Marek, Miku Mariecke, van den Berg, Martina Topi, Mihai Tarta, Milo Jovanovi, R. Ruard.

*Turkey's Accession to the European Union* Edel Hughes,2010-10-04

Turkey's accession to the European Union is undoubtedly one of the Union's most contested potential enlargements The narrative that dominates the debate surrounding this issue primarily relates to problems such as a lack of respect for fundamental human rights in Turkey the Kurdish question and the continuing stalemate concerning northern Cyprus This book looks at these issues but also proposes that a review of Turkey's experience with the EU in its numerous incarnations suggests that these concerns may mask a deeper disquiet Whilst there are several questions that Turkey must address particularly in the area of human rights guarantees the concerns which raise debates regarding Turkish membership are not issues that are unique to Turkey Turkey's EU experience also raises fundamental

questions about religion and the EU project that have greater implication than simply Turkish accession Through the lens of the Turkish example this book addresses these broader questions such as the nature of European identity Europe s Christian past the limits of pluralism and the fundamental question of religion in the European public sphere This book will be of great interest to those engaged in research on European law and politics at undergraduate or postgraduate level It is also aimed at academics with an interest in human rights and the European Union and with a regional interest in Turkey     Barbarism and Civilization Bernard Wasserstein,2009 History     **Asian Cities in an Era of Decentralisation** Michelle Ann Miller,Tim Bunnell,2016-03-16 This book critically engages with the idea of decentralization as empowering cities and their residents to act innovatively and creatively The contributions thus highlight how the term empowerment in the context of decentralization regimes masks a competing array of intentions and agendas Who and what are empowered given a voice and allowed to participate via the processes and structures of decentralization and to what ends are too frequently assumed in normative conversations about bringing government closer to the people and community driven development Creating an illusion of a shared language and common set of priorities therefore obscures more complex realities particularly when there is a disconnect between the official goals of decentralization and civil society aspirations that reinforces politics of exclusion at the grassroots Equally official processes of decentralization can and often are accompanied by less visible processes of recentralization through the reassertion of central state control over putatively autonomous jurisdictions Through studies in six Asian countries India the Philippines Indonesia Bangladesh Thailand and Japan the essays in this book examine cases whereby a range of urban actors and institutions have been empowered via decentralization and how this realignment of local power relations impacts upon the dynamics of urban governance albeit not always in socially progressive ways This book was published as a special issue of Space and Polity     **Religious Diversity Today** Jean-Guy A. Goulet,Liam D. Murphy,Anastasia Panagakos,2015-12-01 This insightful three volume set examines faith through the social and cultural perspective of anthropology sociology and religious studies shedding light on the role of religion in the human experience Why is human suffering and the existence of evil part of the human experience How does religious doctrine establish one s identity In what ways does religion interact with and shape the social order This thought provoking work ponders these questions and explores the concept of religion from various perspectives as a tool for self and community based spiritual awareness as a set of practices that translates faith into interaction with others and as a cornerstone of society for those who seek to harness or hinder its influence Written in accessible and inviting language each volume focuses on a particular dimension of religion The first book examines religious experience in the modern world and explores suffering in religious faiths the second volume centers around ritual and pilgrimage and the last book analyzes the controversial relationship between religion and societies The content features such thought provoking topics as death and green burials sexuality and sex trade and how and why evil manifests in the human experience     The Cambridge History of Christianity: Volume 9,

**Politics and Gender in Ireland** Fiona Buckley,Yvonne Galligan,2016-02-08 This book explores the relationship between women the state and democratic politics in Ireland today It highlights the conservatism of the political culture shared by all traditions on the island and how this culture circumscribes women s political agency in Northern Ireland and Ireland The book explores the opportunities and obstacles to women s participation and representation on each side of the border The chapters take the view that public decision making institutions and processes are subject to rules and practices that reinforce the gendered foundations of democratic politics They document women s continuing quest for full participation and equal representation in these male gendered arenas The contributors focus on the marginalised experiences of women in modern politics in Ireland and detail their efforts to challenge the masculinized status quo The book addresses the classical issues of citizenship participation representation and equal rights in a sustained analysis of the political systems on the island It also deals with modern issues multiculturalism peace building the male gendered legislature and the unequal nature of women s citizenship in constitutional institutional and policy contexts The book is completed by a comprehensive appendix of all women elected to political office on the island from 1918 2013 This book was published as a special issue of Irish Political Studies

**Christianity, Islam and Liberal Democracy** Robert Alfred Dowd,2015 Based on research conducted in Nigeria and other parts of sub Saharan Africa Christianity Islam and Liberal Democracy argues that Christian and Islamic religious communities become more conducive to actions and attitudes conducive to and compatible with liberal democracy in religiously diverse and integrated settings than in religiously homogeneous or diverse but segregated settings

The Catholic Church in Ireland Today John C. Waldmeir,David Carroll Cochran,2015-01-22 From a Church that once enjoyed devotional loyalty political influence and institutional power unrivaled in Europe the Catholic Church in Ireland now faces collapse Devastated by a series of reports on clerical sexual abuse challenged publicly during several political battles and painfully aware of plunging Mass attendance the Irish Church today is confronted with the loss of its institutional legitimacy This study is the first international and interdisciplinary attempt to consider the scope of the problem analyze issues that are crucial to the Irish context and identify signs of both resilience and renewal In addition to an overview of the current status and future directions of Irish Catholicism The Catholic Church in Ireland Today examines specific issues such as growing secularism the changing image of Irish bishops generational divides Catholic migrants to Ireland the abuse crisis and responses in Ireland and the United States Irish missionaries the political role of Irish priests the 2012 Dublin Eucharistic Congress and contemplative strands in Irish identity This book identifies the key issues that students of Irish society and others interested in Catholic culture must examine in order to understand the changing roles of religion in the contemporary world

**Religious Liberty in Transitional Societies** John Anderson,2003-08-14 It is commonly assumed that the issue of religion declines in political significance as societies modernise However the upheaval associated

with the shift from authoritarian to more open regimes can be accompanied by a revitalisation of religion. Individuals within these societies are struggling to find meaning in the seeming chaos of political change; religious elites are seeking to define their own role within the new order; and political elites are looking for new ways of ensuring legitimacy and building national unity. In this book, John Anderson constructs a theoretical framework where he compares and contrasts the politics of religious liberty in two Southern European countries, two Central Eastern European countries, and the evolution of the former USSR, particularly Russia. Exploring these issues of religious recognition and religious diversity, Anderson attempts to expose the wider problem of creating a democratic mentality in such transitional societies through extensive original research and interviews.
