

Neither here nor anywhere else does Amos state that Ethiopians, Israelites, Philistines and Arameans are regarded equally by the God of Israel. Orlinsky even denies pulpit exegesis of a favourite sermonic text:

Have we not all one father?
Has not one God created us?
(Malachi 2: 10).

Malachi is not speaking of the Fatherhood of God. In fact, he is not addressing himself to non-Israelites at all. He speaks, as the context clearly shows, to the priests and Levites in restored Judah who were acting arrogantly towards the nonsacerdotal, the lay elements in the Judean community, as though these were not equally the covenanted partners of God.

But what of the tremendous verse:

In that day shall Israel be a third with Egypt
and with Assyria, a blessing in the midst of the earth;
for that the Lord of hosts hath blessed him saying:
'Blessed be Egypt My people and Assyria the work of
My hands, and Israel Mine inheritance' (Isaiah 19: 24-25)?

Surely this is pure internationalism? Yes, replies Orlinsky but he dates this passage as late as the Seleucid-Ptolemaic period in Judean history. This is the period and region—the commercial routes and the Mediterranean shores of Asia and Egypt, the heart of the Jewish diaspora at the time—which marked the beginning of genuine and consistent international thinking in ancient Israel.

This book contains many other stimulating observations. It is essential reading for the Biblical scholar and theologian, and for every student of the history of religious ideas.

LOUIS JACOBS

Charles W. Morris. *Paths of Life: Preface to a World Religion*. Pp. 213. (The University of Chicago Press, 1973.) £1.05.

This book was first published in 1942, but was well worth reprinting. Its title and sub-title describe its contents exactly. The overall aim of the book is to describe and argue for a world religion; that is, one which can hope for universal acceptance, because it does not suffer from the inadequacies and one-sidedness of existing religions. Morris sees religions as 'paths of life'; orientations by which man can cope with the agony of life, the inevitable opposition between man's interests and a hostile world. Thus a religion need have no supernatural reference—indeed, such reference may obscure its

Ethics and the Future of Religion W. Royce Clark, 2022-02-03 W Royce Clark observes that humanity appears to be jeopardizing our own future in a chaos of mutual antagonism and hypocrisy Religions have traditionally provided ethical guidance but because their absolutized metaphysics are incompatible with each other we cannot rely on any one of them in a religiously pluralistic culture The ethics of various religions are also built on theocratic or authoritarian foundations which are incompatible with any democratic society Finally many of their premises are very ancient so not relevant or appropriate in our modern scientific world The Western Enlightenment brought challenges against religion's singularity exclusivity heteronomy and anti scientific assumptions all of which disrupted their ethics and the Absolute metaphysical grounds upon which those ethics rested raising the question of whether a freestanding ethic was possible Inasmuch as the primary claim of most religions was regarded as beyond challenge but was a conflation of history and myth modern historical method created more doubt than certainty about such allegedly certain doctrines as Jesus is the Son of God By the end of the 20th century the impossibility of validating such primary Christological claims from a historical approach became evident despite the articulate attempts at credibility in the brilliant works of John Dominic Crossan and Wolfhart Pannenberg which remained unconvincing in important ways Between 1832 and 2014 innovative Christian theologians such as Schleiermacher Hegel Tillich and Scharlemann took a detour from the futility of historical verification This study examines their remarkable attempts at a form of corroboration of the basic Christological claim even if their primary interests were more in Christology than ethics The question Clark takes up here is whether or not these figures have thereby provided a base for a universal ethic or the only answer is for principles freestanding from any religion

Religion, Sustainability, and Place Steven E. Silvern, Edward H. Davis, 2020-12-14 This book explores how religious groups work to create sustainable relationships between people places and environments This interdisciplinary volume deepens our understanding of this relationship revealing that the geographical imagination our sense of place is a key aspect of the sustainability ideas and practices of religious groups The book begins with a broad

examination of how place shapes faith based ideas about sustainability with examples drawn from indigenous Hawaiians and the sacred texts of Judaism and Islam Empirical case studies from North America Europe Central Asia and Africa follow illustrating how a local bounded and sacred sense of place informs religious based efforts to protect people and natural resources from threatening economic and political forces Other contributors demonstrate that a cosmopolitan geographical imagination viewing place as extending from the local to the global shapes the struggles of Christian Jewish and interfaith groups to promote just and sustainable food systems and battle the climate crisis

Essays in Religion and Morality

William James, 1982 *Essays in Religion and Morality* brings together a dozen papers of varying length to these two themes so crucial to the life and thought of William James Reflections on the two subjects permeate first James's presentation of his father's Literary Remains second his writings on human immortality and the relation between reason and faith third his two memorial pieces one on Robert Gould Shaw and the other on Emerson fourth his consideration of the energies and powers of human life and last his writings on the possibilities of peace especially as found in his famous essay *The Moral Equivalent of War* These speeches and essays were written over a period of twenty four years The fact that James did not collect and publish them himself in a single volume does not reflect on their intrinsic worth or on their importance in James's philosophical work since they include some of the best known and most influential of his writings All the essays throughout their varied subject matter are consistently and characteristically Jamesian in the freshness of their attack on the problems and failings of humankind and in their steady faith in human powers

Modern Tendencies in World Religions

Charles Samuel Braden, 2025-05-30 First published in 1933 *Modern Tendencies in World Religions* is the result of author's desire to find out what was happening in different religions and a long difficult search for materials to satisfy that interest The sources of information have been various books newspapers magazines periodicals in just so far as possible from the countries or

religions represented The book discusses themes like factors that produce change in religion tendencies in Hinduism modern tendencies in Japanese religion and China religion in Russia twentieth century tendencies in Islam and tendencies in Judaism In discussing the world religions author felt that the probable familiarity of the readers of the book with the effect of the modern age on Christianity would warrant the omission of any discussion of that faith This is an important historical reference work for scholars and researchers of religion and world religion
