Sg Wests Legal Environment Of Business:

West's Legal Environment of Business Frank B. Cross, Roger LeRoy Miller, 2001 Based on the best selling West's Business Law this text maintains its most popular features and continues to offer flexibility for different teaching philosophies While focusing on public law issues such as ethics government regulation and administrative law it also provides a good balance of private law topics such as contracts and sales Selected cases begin with either a Historical and Social Setting or a Company Profile and address the AACSB's curriculum requirements by focusing on global political ethical social environmental technological and cultural diversity issues *Study Guide to Accompany West's Legal Environment of Business* Roger LeRoy Miller, 2001 **Im Wests Legal Environ of Bus** Cross, 2000-07 *East Meets West* Daniel A. Bell, 2000-05-08 Is liberal democracy a universal ideal Proponents of Asian values argue that it is a distinctive product of the Western experience and that Western powers shouldn't try to push human rights and democracy onto Asian states Liberal democrats in the West typically counter by questioning the motives of Asian critics arguing that Asian leaders are merely trying to rationalize human rights violations and authoritarian rule In this book written as a dialogue between an American democrat named Demo and three East Asian critics Daniel A Bell attempts to chart a middle ground between the extremes of the international debate on human rights and democracy Bell criticizes the use of Asian values to justify oppression but also draws on East Asian cultural traditions and contributions by contemporary intellectuals in East Asia to identify some powerful challenges to Western style liberal democracy In the first part of the book Bell makes use of colorful stories and examples to show that there is a need to take into account East Asian perspectives on human rights and democracy The second part a fictitious dialogue between Demo and Asian senior statesman Lee Kuan Yew examines the pros and cons of implementing Western style democracy in Singapore The third part of the book is an argument for an as yet unrealized Confucian political institution that justifiably differs from Western style liberal democracy This is a thought provoking defense of distinctively East Asian challenges to Western style liberal democracy that will stimulate interest and debate among students of political theory Asian studies and international human rights *Learning Marketplace, The: East Meets West In Singapore* Prem Kumar, 2015-09-23 In Asia we are witnessing an era where the pendulum of power seems to be swaying towards the East with the rising strength of China and India and Singapore is at the crossroads between these populous nations Although Singapore may appear to be the most westernized country in Asia she is nevertheless a multi cultural Asian society Having the most open economy in the world Singapore is plugged into the global marketplace of education and learning The development of human capital is used as a strategic economic driver to internationalize and transform education for sustainable competitive advantage Singapore's education system regarded as one of the consistently best performing in the world offers a unique opportunity to explore issues where eastern and western culture values beliefs learning and knowledge systems converge clash and at times diverge This book is meant to extend our knowledge on the role of learning often

overlooked and taken for granted as the air that we breathe but which constantly transforms our lives and reshapes societies. It is the first book that deals with the dichotomy of east and west going beyond the traditional learning and education framework to other areas such as economic socio cultural political and technological dimensions that impact Singapore. It puts together key topical issues and explores the underbelly of how a small resourceless independent city state like Singapore stays ahead of the learning curve even while facing increasingly intense global competition where the discovery and emergence of new systems for empowerment and independence and the resulting creation of new knowledge and modes of communication are challenging traditional boundaries between the virtual and real world.

International Arbitration: When East Meets West Neil Kaplan, Michael Pryles, Chiann Bao, 2020-10-09. As Asia China in particular gains economic momentum and increasingly attracts global attention, disputes between Asian and Western parties will inevitably increase. This book, the first to address issues arising from these types of disputes in depth, collects incisive articles by both well known Asian arbitrators and non Asian practitioners with extensive experience dealing with arbitrations involving Asian parties, all under the aegis of Michael Moser, a Western trained lawyer who had the foresight to build a China focused dispute resolution practice at a time when it was not fashionable to do so. The articles reflect Moser's exemplary career as an independent arbitrator who has navigated between Asian and Western legal cultures seamlessly for decades. The upshot is an authoritative investigation of the differences and similarities of international arbitration between two contrasting cultures, both from a legal and social perspective, as well as a consideration of how each culture has influenced international arbitration practice overall. Issues covered include the following: interim measures in support of arbitration; the hybrid arbitration mediation mode of dispute resolution; what China's investment treaties have to offer; Moser's Triple A approach to mediation; witness conferencing; influence of rank or exercise of altruism; Chinese courts' approach to international arbitration; evolution of investment protection between China and Europe; disclosure versus state secrecy laws in China; and the standard for disclosure in rules of evidence. Given the increasing prevalence of arbitrations seated in Asia and the number of new players engaged in arbitration in Asia, this book is certain to attract a wide range of arbitration practitioners, especially those engaged in arbitrations involving Asian parties. As a comparative study of Asian and Western arbitration theory and practice, it is peerless. Scholars of arbitration worldwide are sure to learn from the insights detailed here of practitioners with consummate experience in arbitrations involving cross cultural parties. This is an excellent and wide ranging publication that rightly pays tribute to Michael's career as a multi faceted doyen of international arbitration. He has had his base in Asia but at all times he has held a global and even minded view. Many of us and the overall institution of international arbitration owe so very much to him. Matthew Gearing QC, former Chair of HKIAC. This wide ranging and insightful volume pays tribute to the distinguished career of Michael Moser, a true Renaissance figure who has traversed both East and West and helped so many others bridge the two.

Hamnett,Belinda Yuen,2019-05-08 Two hundred years ago Sir Stamford Raffles established the modern settlement of Singapore with the intent of seeing it become a great commercial emporium and fulcrum But by the time independence was achieved in 1965 the city faced daunting problems of housing shortage slums and high unemployment Since then Singapore has become one of the richest countries on earth providing in Sir Peter Hall s words perhaps the most extraordinary case of economic development in the history of the world The story of Singapore s remarkable achievements in the first half century after its independence is now widely known In *Planning Singapore The Experimental City* Stephen Hamnett and Belinda Yuen have brought together a set of chapters on Singapore s planning achievements aspirations and challenges which are united in their focus on what might happen next in the planning of the island state Chapters range over Singapore s planning system innovation and future economy housing biodiversity water and waste climate change transport and the potential transferability of Singapore s planning knowledge A key question is whether the planning approaches which have served Singapore so well until now will suffice to meet the emerging challenges of a changing global economy demographic shifts new technologies and the existential threat of climate change Singapore as a global city is becoming more unequal and more diverse This has the potential to weaken the social compact which has largely existed since independence and to undermine the social resilience undoubtedly needed to cope with the shocks and disruptions of the twenty first century The book concludes however that Singapore is better placed than most to respond to the challenges which it will certainly face thanks to its outstanding systems of planning and implementation a proven capacity to experiment and a highly developed ability to adapt quickly purposefully and pragmatically to changing circumstances **Sg Legal Ethical Inter Env Bus**
