The Shadow of a Nation Nick Clarke, 2003 This volume contains 50 years of British history seen through the lives of a disparate group of figures who make up the second Elizabethan age The Great British Dream Factory Dominic Sandbrook, 2015-10-01 SPECTATOR BOOKS OF THE YEAR 2015 Britain's empire has gone Our manufacturing base is a shadow of its former self the Royal Navy has been reduced to a skeleton In military diplomatic and economic terms we no longer matter as we once did And yet there is still one area in which we can legitimately claim superpower status our popular culture It is extraordinary to think that one British writer J K Rowling has sold more than 400 million books that Doctor Who is watched in almost every developed country in the world that James Bond has been the central character in the longest running film series in history that The Lord of the Rings is the second best selling novel ever written behind only A Tale of Two Cities that the Beatles are still the best selling musical group of all time and that only Shakespeare and the Bible have sold more books than Agatha Christie To put it simply no country on earth relative to its size has contributed more to the modern imagination This is a book about the success and the meaning of Britain's modern popular culture from Bond and the Beatles to heavy metal and Coronation Street from the Angry Young Men to Harry Potter from Damien Hirst to The X Factor
