effort of individuals contributing diverse points of view as technologists academics and managers *Local Insights, Global Ethics for Business* Daryl Koehn, 2021-11-08 This book evaluates strategies for managing ethical conflict Macro approaches that attribute select values to entire peoples and claim supremacy for these values are suspect A micro approach focusing on the ethics of individual thinkers is better The study uses the ethics of Confucius and Tetsuro Watsuji to derive a process based universal ethic that respects local differences yet is not relativistic *Cultural Influences on Strategic Planning* Peter R. Haiss, 2013-11-09 This book challenges the universal applicability of strategic management concepts It argues that it is necessary to pay attention to contextual facets of the environment in particular to societal culture It also depicts the current planning situation in the banking industry The culture boundness of strategy formulation and implementation is challenged and advocated through discussing planning systems processes and heuristics and contextual influences both on a theoretical basis and with empirical research The book is based on my doctoral dissertation which was completed at the Marketing and Banking Departments of the Vienna University of Economics under the auspices of Fritz Scheuch and Gustav Raab Their teaching constructive criticism and encouragement provided the intellectual stimulation for bringing this dissertation to completion This applies equally to several professors at the University of Illinois at Urbana Champaign Harry Triandis and Anant Negandhi introduced me to cross cultural research and international management Howard Thomas Marjorie Lyles and Irene Duhaime helped me to crystallize thoughts Hanns Martin Schriefeld Seymour Sudman and Gerald Salancik challenged my thoughts about organizational behavior and methodology Richard Watson University of Georgia and Louis Flores of Northern Illinois University were very helpful in providing address material for Australia and Latin America as well as through assistance with translations Norihiro Suzuki of International Christian University Tokyo and Hiro Matsusaki of Tokyo University helped with Japanese translations *Japan Challenges America* Harrison M Holland, 2021-02-27 With the US Japan alliance in jeopardy former diplomat Harrison Holland argues that both sides must take bold steps to avert a catastrophe that could destabilize economic political and security conditions in Asia Taking advantage of his insider's perceptions the author illuminates those aspects of life in Japan that influence behaviour shape policy and affect public opinion in an inwardly directed society Holland evaluates the obstacles to better economic relations the security dilemmas facing Japan and the rigid Japanese political structure which has been slow to adapt to the surge of modern technology the demands of rapid international change and the internal and external calls for a more responsible Japanese role in world affairs Can the alliance survive the present turmoil Despite the daunting obstacles the author concludes that solutions must and will be found *The Embedded Corporation* Sanford M. Jacoby, 2018-06-05 Is there one best way to run the modern business corporation What is the appropriate balance between shareholders executives and employees These questions are being vigorously debated as layoffs scandals and restructurings rattle companies around the world The common assumption is that globalization is merging the varieties of corporate capitalism Yet as this book shows corporations in Japan and the

United States are responding differently to the pressures unleashed by globalization In *The Embedded Corporation* Sanford Jacoby traces this diversity to national differences in economic history and social norms and paradoxically to global competition itself The book's vantage point for exploring the varieties of capitalism is the human resource departments of large corporations where changes in markets and technology turn into corporate labor policies affecting millions of workers Despite some cross fertilization Japanese and American corporations maintain distinctive approaches to human resource management which has important consequences for how firms compete for corporate governance and even for the level of inequality in Japan and the United States *The Embedded Corporation* is a major contribution to our understanding of comparative management and the relationship between business society and the global economy

Japanese Political Economy Revisited David Chiavacci, Sébastien Lechevalier, 2020-11-25 During the last 30 years the Japanese political economy system has experienced significant changes that are usually not well understood or analysed because of their complexity and contradictions This book provides new analyses and insights on the process of evolving Japanese political economy including Japan s current economic policy known as Abenomics The first three chapters look at evolutions at the corporate level characterised in recent years by increasing firm heterogeneity The authors apply theoretically driven analyses to the complex subject of corporate governance human resource management and corporate reporting by discussing new developments in context of their economic opportunities as well as of their institutional contradictions with continuities in Japanese business practices The second group of chapters deals with institutional changes and evolving economic reforms on the macro level of political economy The two chapters focus on the financial system regulation and economic growth policies as two central elements of Japan s political economy and key drivers in the evolution of its economy Their analysis allows us to better understand the interplay between reforms and change in consumption credit and to reinterpret Abenomics as a manifestation of ongoing contradictions within the Japanese political economy The chapters were originally published in a special issue in Japan Forum

Narrative Management in Corporate Japan Chie Yorozu, 2015-11-19 Scandals and failures in some of the best known international Japanese owned companies have shown

that there is sometimes a considerable difference between the public and internal narratives of Japanese firms This book explores the extent to which Japanese firms public claims reflect wider reality Exploring how and why corporate narrative management is accepted or rejected by external and internal audiences in Japan the book clarifies what narrative management means for Japanese organizations It argues that the role of narrative management has become much more prevalent in Japan in recent years but that it does not serve quite the same role as it does in the Western environments where the theory and practice first emerged The author presents interview based case studies within four very different large Japanese organisations all of which have deployed and loudly announced new restructuring plans based largely on Western models of corporate best practice The book aims to describe and account for these Japanese corporate narratives and asks what they are why they are deployed and who believes in them As the first narrative related work in the Japanese context this volume provides an insight into the development of Japanese narrative management It will appeal to students and scholars of Japanese Business International Business and Organizational Studies Restructuring Japanese Business for Growth Raj Aggarwal, 2012-12-06 Restructuring Japanese Business for Growth consists of eighteen previously unpublished invited chapters by experts on Japanese business It will attract both commercial and academic interest Japanese business can be expected to continue to be of great importance in global and Asian economics especially as the Japanese economy is the dominant economy in Asia being larger than all other Asian economies combined Policymakers and business people interested in understanding Japanese financial markets will find this book useful In addition this book should be a valuable resource for undergraduate graduate and executive development courses in international business global finance and Japanese business
