Josef Friedl

Longing For Munich:

Longing for Munich Elfriede Gams, Hans Gottanka, 1978 *The mountains, my life full of work and longing* Josef Friedl, 2024-12-13 The son of a family of mountain farmers in the Lechtal Alps experiences the hard and modest life of the old days on his parents farm where he is required to work very early on in his childhood The development of the village with electricity and an access road ushered in a rapid development that changed many things Josef Friedl tells of profound feelings of the threat posed by the forces of nature of special mountain experiences and a wide variety of events from old and new eras Insights resulting from his own life experience complete a restless autobiography **The German Spa in the**

Long Eighteenth Century Ute Lotz-Heumann, 2021-07-25 Shifting the focus from the medical use of spas to their cultural and social functions this study shows that eighteenth and early nineteenth century German spas served a vital role as spaces where new ways of perceiving the natural environment and conceptualizing society were disseminated Although spas continued to be places of health and healing their function and perception in central Europe changed fundamentally around the middle of the eighteenth century This transformation of the role of the spa occurred in two ways First the spa popularized a new perception of the landscape with a preference for mountains and the seacoast forming the basis for the cultural assumptions underlying modern tourism Second contemporaries perceived spas as meeting places comparable to institutions of Enlightenment sociability like coffeehouses salons and Masonic lodges Spas were conceived as spaces where the nobility and the bourgeoisie could interact on an equal footing thereby overcoming the constraints of early modern social boundaries These changes were negotiated through both personal interactions at spas and an increasingly sophisticated published spa discourse The late eighteenth and early nineteenth century German spa thus helped to bring about social and cultural modernity **Public Diplomacy and the Future** United States. Congress. House. Committee on International Relations. Subcommittee on International Operations, 1977

The Long Shadow of German Colonialism Henning Melber, 2024-07-18 From 1884 to 1914 the world's fourth largest overseas colonial empire was that of the German Kaiserreich Yet this fact is little known in Germany and the subject remains virtually absent from most school textbooks While debates are now common in France and Britain over the impact of empire on former colonies and colonising societies German imperialism has only more recently become a topic of wider public interest In 2015 the German government belatedly and half heartedly conceded that the extermination policies carried out over 1904-8 in the settler colony of German South West Africa now Namibia qualify as genocide But the recent invigoration of debate on Germany's colonial past has been hindered by continued amnesia denialism and a populist right endorsing colonial revisionism A campaign against postcolonial studies has sought to denounce and ostracise any serious engagement with the crimes of the imperial age Henning Melber presents an overview of German colonial rule and analyses how its legacy has affected and been debated in German society politics and the media He also discusses the quotidian experiences of Afro Germans the restitution of colonial

loot and how the history of colonialism affects important institutions such as the Humboldt Forum **The penny cyclopædia [ed. by G. Keefe,2023-03-02 The first extended study of the combined reception of Haydn and Mozart in the long nineteenth century this book generates new holistic understandings of their musical cultural and historical significance in the Germanic French and Anglophone worlds It places a wide range of written sources under the microscope including serious and popular biographies scholarship musical and non musical criticism and a diverse body of fiction and evaluates the impact of anniversary commemorations Haydn and Mozart in the Long Nineteenth Century determines how reputations images and narratives for the two composers converge diverge develop at different speeds and influence one another Countering received wisdom about Haydn s reputational decline and reassessing Mozart reception through consideration of a broad spectrum of publications we hear Haydn and Mozart speaking to the long nineteenth century in more nuanced powerful and persuasive voices than previously recognized **A Monograph of the Existing Crinoids: pt. 1. The Comatulids** Austin Hobart Clark,1947 *A History of Military Thought*

Azar Gat, 2001 From the ideas of Clausewitz to contemporary doctrines of containment and cold war this is a definitive history of modern military thought A one volume collection of Azar Gat s acclaimed trilogy it traces the quest for a general theory of war from its origins in the Enlightenment Drastically re evaluating B H Liddell Hart s contribution to strategic theory the author argues that in the wake of the trauma of the First World War and in response to the Axis challenge Liddell Hart developed the doctrine of containment and cold war long before the advent of nuclear weapons He reveals Liddell Hart as a pioneer of the modern western liberal way in warfare which is still with us today Europe in the Long Twentieth Century Christoph Cornelissen, 2024-10-08 Thanks to their economic and military strength the European empires had achieved global supremacy by 1900 with large parts of the world under their dominance in the wake of colonial expansion This situation fuelled ideas of Europe s permanent almost natural global superiority especially among the middle classes However as early as the First World War such claims came under increasing pressure This volume explains the role played by modern nationalism and anti imperial movements the competition between different political orders changes in the economy and society and the great ideas and utopias Their interplay gave rise to enormously destructive forces in Europe From the Boer and Balkan wars before 1914 to the Yugoslav wars of the 1990s and the Ukraine war since 2022 they have produced a continuum of violence At the same time the great promise of political participation and social security is one of the constants of Europe s history in the long twentieth century Against this backdrop modern societies emerged whose values had moved far away from the older models Perceptions of the role of the sexes families and generations changed fundamentally In addition the major internal European migrations together with the global immigration that became increasingly significant after 1945 ensured that the ethnic profile of European societies changed considerably Europe in the Long Twentieth Century shows how on the one hand these different factors led to a Europeanisation of living and working conditions and at the same time how the political and economic integration of the countries of Europe progressed On the other hand it demonstrates how Europe s role in the global context changed fundamentally As much as the geopolitical provincialisation of Europe continued unabated Europeans were constantly searching for new ways to assert themselves throughout the long twentieth century The search continues *Everybody's Magazine* ,1907 *Water Resources Data for Minnesota* ,1975 The Nautical Almanac and Astronomical Ephemeris for the Year ... ,1850
