**Younger for Longer** Dr Duncan Carmichael, 2018-12-06 Revelatory and accessible Sunday Post Dr Carmichael has

studied nutrition hormone balancing and aesthetic medicine and his passion on which he lectures globally is healthy ageing His approach in his fascinating new book **Younger for Longer** is scientific and holistic The Times Be good to yourself **Younger for Longer** features wisdom on nutrition sleep mood regulation and most importantly hormonal health for men and women Scotsman I have not stopped learning on my Low Carb Healthy Fat journey **Younger for Longer** continues that process for me with an incredibly well referenced text It's refreshing to see the balance of nutrition and lifestyle discussed in such an informed and robust manner Gary Fettke orthopaedic surgeon health activist and author **Younger for Longer** tells you exactly what you need in order to live an extended healthy life It's very 80/20 and one of the best books I've read in ages Richard Koch author of million seller **The 80/20 Principle** Fascinating Packed with the most incredible information about health Radio Today South Africa Offers valuable honest and solid medical insights into how you can age better It is without doubt one of the best books I have read in my many years as a health activist Longevity magazine Targeted at the general reader the goal of this book is to show readers how to live a healthy life free from the debilitating effects of ageing helping them to stay

mentally alert and physically active and making sure they get the most out of all of their years It reveals practical steps to slow the ageing process and stay healthy in short how to stay younger for longer With research showing that obesity nutrition and lifestyle illnesses can hamper our body's response to Covid 19 such advice has become even more crucial in reducing Covid 19 risk factors The key is to aim for optimal health However focussing on one factor alone will not get us there Our sleep our mood what we eat our detoxification system and our hormones are just some of the factors that interact in amazing ways to make us who we are they are also at the very heart of the ageing process This book shows how these different strands combine in ways that can be positive or negative and explains why this interaction depends far more on the lifestyle we choose than on the genes we inherit In that way it gives the reader a unique and comprehensive understanding of their body and tells them how with this knowledge they can optimise their health The topics range from nutrition toxins men's health and women's health to understanding why our skin brain and liver age and how to undo the damage and stave off ageing But the book's main focus underlying all of this is hormones the chemicals that tell different parts of our body what to do Our hormone levels vary throughout our life but if they are supported correctly they can keep us youthful and vital into our final years Finding health then is not about seven ways to detox or the five best vitamins The body is far more complex than that and in an approach aimed specifically at the layperson *Younger for Longer* traces the exciting path of how the body works to help the reader create the best person they can be for the rest of their life

*Aging in America* Lawrence R. Samuel, 2017-01-31 Aging is a preoccupation shared by beauty bloggers serious journalists scientists doctors celebrities arguably all of adult America given the pervasiveness of the crusade against it in popular culture and the media We take our youth oriented culture as a given but as Lawrence R Samuel argues this was not always the case Old age was revered in early America in part because it was so rare Indeed it was not until the 1960s according to Samuel that the story of aging in America became the one we are most familiar with today aging is a disease that science will one day cure and in the meantime signs of aging should be prevented masked and treated as a source of shame By tracing the story of aging in the United States over the course of the last half century Samuel vividly demonstrates the ways in which getting older tangibly contradicts the prevailing social values and attitudes of our youth obsessed culture As a result tens of millions of adults approaching their sixties and seventies in this decade do not know how to age as they were never prepared to do so Despite recent trends that suggest a more positive outlook getting old is still viewed in terms of physical and cognitive decline resulting in discrimination in the workplace and marginalization in social life Samuels concludes *Aging in America* by exhorting his fellow baby boomers to use their economic clout and sheer numbers to change the narrative of aging in America *The Handbook of Intergroup Communication* Howard Giles, 2012 The Handbook of Intergroup Communication brings together research theory and application on traditional as well as innovative intergroup situations exploring the communication aspect of these groups The volume is organized into four domains cross disciplinary approaches to intergroup study types processes of communication between groups communication between specific group types and arenas in which intergroup communication takes place Editor Howard Giles worked with an internationally based advisory board to develop and review content and the contributors included here represent those scholars doing innovative and well regarded work around the globe The intergroup umbrella integrates and transcends many traditional conceptual boundaries in communication including media health intercultural organizational hence the Handbook will appeal to scholars and graduate students not only in the core area of intergroup communication itself but across varying terrains of study in

communication and beyond including intergroup relations and social psychology      Health for Seniors Christine Wells, John Redmond, While aging from middle age and beyond changes in our bodies occur Healthy knowledge and behavior can slow down the sand in the hourglass of our lifespan Degenerative diseases like cancer heart problems dementia balance problems and other conditions that may accompany our golden years can be prevented minimized or eliminated This book looks at the many ways that nutrition exercise and other disease preventatives can aid in living a happier and longer life      Younger Pamela Redmond, 2005-07-05 Now a hit Netflix series from the creator of Sex and the City starring Sutton Foster and Hilary Duff a story of inspiration and transformation for every woman who's tried to change her life by changing herself She wants to start a new life Alice is trying to return to her career in publishing after raising her only child But the workplace is less than welcoming to a forty something mom whose resume is covered with fifteen years of dust If Alice were younger she knows she'd get hired in a New York minute So if age is just a number why not become younger Or at least fake it With help from her artist friend Maggie Alice transforms herself into a faux millennial and soon finds an assistant's job a twenty something bff and a hot young boyfriend Josh who was in diapers when Alice was in high school You're only as young as you feel Alice is too thrilled with her new relationship and career to worry about the fallout from her lie But when Maggie decides she wants a baby Alice's daughter comes home early from studying abroad and Alice finds herself falling in love with Josh she realizes her masquerade has serious consequences especially for her Can Alice turn the magic into her real life Or will the truth come out and break the spell      Gig John Bowe, Marisa Bowe, Sabin Streeter, 2009-02-04 An engaging humorous revealing and refreshingly human look at the bizarre life threatening and delightfully humdrum exploits of everyone from sports heroes to sex workers Douglas Rushkoff author of Coercion Ecstasy Club and Media Virus This wide ranging survey of the American economy at the turn of the millennium is stunning surprising and always entertaining It gives us an unflinching view of the fabric of this country from the point of view of the people who keep it all moving The more than 120 roughly textured monologues that make up Gig beautifully capture the voices of our fast paced and diverse economy The selections demonstrate how much our world has changed and stayed the same in the three decades prior to the turn of the millennium If you think things have speeded up become more complicated and more technological you're right But people's attitudes about their jobs their hopes and goals and disappointments endure Gig's soul isn't sociological it's emotional The wholehearted diligence that people bring to their work is deeply inexplicably moving People speak in these pages of the constant and complex stresses nearly all of them confront on the job but nearly universally they throw themselves without reservation into coping with them Instead of resisting work we seem to adapt to it Some of us love our jobs some of us don't but almost all of us are not quite sure what we would do without one With all the hallmarks of another classic on this subject Gig is a fabulous read filled with indelible voices from coast to coast After hearing them you'll never again feel quite the same about how we work      Coming of Age in Films Mario Garrett, 2019-02-14 The story of films is the story of human

development From the very first story that defined the birth of our civilization the Sumerian Epic of Gilgamesh a story of immortality aging and death comes a tale of why we age We are a species of storytellers The stories we tell to each other define who we are However since we are living in a world marked by age apartheid our interaction with people across different generations is becoming more limited As a result the information we gain about older people comes mostly from secondary sources For the general public films remain the most accessible form of information regarding getting older From the early exposure of cartoons to more elaborate dramas our knowledge of what it means to become old relies on our exposure to films This volume provides insight into how accurate these representations are in line with current knowledge that we have about aging and older adults Arguing that films present a simplified view of aging this analysis relies on scientific evidence to explore why and how such stereotypes affect us Stereotypes have the ability of being internalized and becoming prescriptive of our behavior Numerous studies have attempted different ways of understanding the impact films have on aging Theories as seemingly disparate as feminism and disability have contributed to our understanding of how stereotypes influence our aging process This text builds upon this knowledge and provides new insights by applying current gerontological knowledge the science of aging to unpack and analyze the images of aging that films are providing By readdressing this focus on gerontological theories as diverse as biology and psychology the book readdresses an overlooked approach
