Web of Spindled Time Tom Henderson,2011-04 WEB OF SPINDLED TIME A Poetic Point of View A spiritual journey unspooled in free verse short prose and original artwork the image of spindled time perfectly captures the experience of encountering Henderson s cosmic tome This rhythmic alternation of inward and outward focus is one of Henderson s persistent themes introduced in the prologue Looking outward at my world I observed the constant changes around me Peering inward I analyzed My own shifting feelings and revisited frequently most memorably in several examples of concrete poetry Elsewhere various narrators on numerous paths and journeys invariably learn how much they do not yet know In Blakean fashion Henderson strives to deconstruct the tension of man simultaneously seeing himself as the image of perfection and as a mere and mortal fool Wisdom he suggests lies in unifying both visions often via paradox In The Flight of the Spirit for instance the narrator laments I have searched for an escape But death comes to all Escape then is inevitable Life is short After further contemplation however he instead concludes that chains are loosened by death The soul drifts into the freedom Of eternity Forever has no end If death is short And life is everlasting For all its lofty philosophical inquiries Henderson s poetry is generally unadorned marked by plain speech and the occasional simple rhyme scheme Because the mystic nature of these revelations is likely to confound reason the mind can be slow to believe so reading in small doses may be the best approach Readers who see spiritual perfection as a journey rather than a destination will appreciate Henderson as a fellow traveler

On Pedagogical Spaces, Multiplicity and Linearities and Learning Michael Crowhurst, 2022-03-03 This book introduces a research method called auto-teaching, focused research, a research process that aims to document understandings generated by and for the teacher when that teacher teaches or re-teaches a course. It demonstrates how this method is applied by the author-researcher within the pedagogical space that is the teaching of a course, one that has been taught numerous times by the author-researcher over many years. This book documents understandings about learning and teaching that have emerged within the pedagogical space that is the teaching of a course and the pedagogical space that is the writing of a book. It explores the notion that pedagogical spaces are complex and that subjects navigate and are produced within them in a multiplicity of ways. This book applies a research method that generates a knowledge product that research practitioners in a variety of settings might find useful to adopt or adapt. **All About Japan** Willamarie Moore, 2013-09-03
