LOOKING FOR HAPPINESS? LOOK INSIDE! ALBERTO VEZENDI,2019-06-07 Why squander our life the only one we have in a permanent state of want and anxiety when we can live a life of abundance and bliss Why make our happiness depend on externalities when the only truly lasting happiness is inside each one of us Why sacrifice the happiness we could be enjoying today on the altar of a vague promise of future bliss when we already have everything we need to be happy in the present In this work the author shows us how to overcome the two main obstacles to happiness attachment and anxiety Readers will see that detachment and the ability to stop worrying are neither gifts of the chosen nor inborn talents reserved for a few but skills that can be learned at any moment in life regardless of our situation In the first part we'll focus on attachment to objects and people We'll see how attachment inevitably leads to fear and that fear is incompatible with happiness We'll examine the role of craving and desire of want and satisfaction of control and freedom of possessions and love and we'll see that precious little is needed to live a happy life In the second part we'll delve into what is probably the main cause of unhappiness anxiety We'll see that most of the worry that taints our happiness is unjustified because it stems from adversities that only exist in our mind To understand this reasoning we'll analyze how we create all our expectations and fears in the present how we project them into a future that is no less a product of our own imagination and how we then await with apprehension the arrival of that future in which we have placed

our hopes and misgivings Happiness is not an unattainable dream not even a future goal we re doomed to pursue forever in vain but a natural innate gift we ve all been endowed with We have now and always have had all the happiness we ll ever have but we don t allow it to bloom in our lives because we ve unconsciously buried it under an ever thickening layer of impediments that prevent it from manifesting every day of our life This book is here to help you find your happiness but to do so it has to challenge many of the received ideas and dogmas that for centuries have condemned humanity to unhappiness Please read it with an open mind and consider with fairness whether the ideas contained herein make any sense for you When doing so be honest with yourself and don t let other people s opinions influence your conclusions Remember that ultimately you are your only judge and that on your deathbed the opinions other people may have about you will not change the verdict of your conscience about how you lived your own life Your happiness is in your own hands and nowhere else for only you can make it real Let this book help you drop the ballast of your worries and attachments and glide smoothly through life The solution is inside discover it and let the magic happen Don t wait until it s too late it s now or never

The South China Sea: A Look into China's Modern Times Maritime Silk Road and Its Geopolitical Implications Fritz Dufour, Linguist, MBA, DESS, 2017-07-08 Westward expansion has always been more important to China than eastward expansion because except for the Korean peninsula and Japan China is looking at the vast Pacific Ocean The west has always been and continues to be China s lifeline China has come a long way Civilizations rise and fall They come and go But the Chinese civilization is one of the oldest and most stable The Chinese engaged in world trade way before America was even discovered They did that thanks to the Silk Road which was an ancient caravan route linking Xi an in central China with the eastern Mediterranean It was established during the period of Roman rule in Europe and took its name from the silk which was brought to the west from China Although trading with the West was quintessential China has always sought to retain their own economic model When the four leading powers of the West England France Spain and Portugal decided to build their politico economic empires on triangular trade or face failure China was thriving as it had been for millennia But World War II dealt a serious blow to China s economy as the United states emerged as the only superpower on both the political and economic levels and put shortly after a policy of containment towards China That along with past failures exacerbated if not China s resentment at least its mistrust towards the West and especially towards the United States
